第一章 发展环境

我国进入新发展阶段，发展基础更加坚实，发展条件深刻变化，进一步发展面临新的机遇和挑战。

第一节 决胜全面建成小康社会取得决定性成就

“十三五”时期是全面建成小康社会决胜阶段。面对错综复杂的国际形势、艰巨繁重的国内改革发展稳定任务特别是新冠肺炎疫情严重冲击，以习近平同志为核心的党中央不忘初心、牢记使命，团结带领全党全国各族人民砥砺前行、开拓创新，奋发有为推进党和国家各项事业。全面深化改革取得重大突破，全面依法治国取得重大进展，全面从严治党取得重大成果，国家治理体系和治理能力现代化加快推

Chapter 1 Development Environment

China has now entered a new stage of development on a stronger foundation, though profound changes have taken place in the conditions under which we pursue our development goals. We are facing new opportunities and challenges.

I. A decisive victory in building a moderately well-off society

The 13th Five-Year Plan period was the decisive stage in building a moderately well-off society. In the face of the complicated international situation and formidable domestic issues related to advancing reforms and development while maintaining stability, particularly under the grave impact of the COVID-19 pandemic, the Central Committee of the Communist Party of China (CPC) with Comrade Xi Jinping at the core, has stayed true to the CPC's original aspiration and kept the Party's missions firmly in mind. It has united and led the entire Party and the Chinese people of all ethnic groups to pioneer and forge ahead, and worked hard to advance various undertakings of the Party and the country. China has made major breakthroughs in deepening reforms in all areas, made substantial progress in law-based governance in all respects, and has achieved remarkable results in ensuring full and strict governance over the Party. China's system and capacity for governance have been modernized at an accelerated pace. These achievements comprehensively demonstrate the strong leadership of the CPC and the institutional strengths of socialism with Chinese characteristics.

Overall, China's economy has performed stably and its structure

进，中国共产党领导和我国社会主义制度优势进一步彰显。

经济运行总体平稳，经济结构持续优化，国内生产总值突破100万亿元。创新型国家建设成果丰硕，在载人航天、探月工程、深海工程、超级计算、量子信息、“复兴号”高速列车、大飞机制造等领域取得一批重大科技成果。决战脱贫攻坚取得全面胜利，5575万农村贫困人口实现脱贫，困扰中华民族几千年的绝对贫困问题得到历史性解决，创造了人类减贫史上的奇迹。农业现代化稳步推进，粮食年产量连续稳定在1.3万亿斤以上。1亿农业转移人口和其他常住人口在城镇落户目标顺利实现，区域重大战略扎实推进。污染防治力度加大，主要污染物排放总量减少目标超额完成，资源利用效率显著提升，生态环境明显改善。金融风险处置取得重要阶段性成果。对外开放持续扩大，共建“一带一路”成果丰硕。人民生活水平显著提高，

has been consistently improved, with the country's GDP now exceeding RMB 100 trillion. China has accomplished much towards becoming an innovative country and has made major advances in manned spaceflight, lunar exploration, deep-sea engineering, supercomputing, quantum information, "Fuxing" high-speed trains, large aircraft manufacture, and other fields. We have attained a decisive victory in the fight against poverty and the rural poor residents, 55.75 million in total, have been lifted out of poverty. The problem of absolute poverty, which had plagued the Chinese nation for thousands of years has been solved—a miracle in the history of mankind. Agricultural modernization has been steadily advanced, and the annual grain output has surpassed 650 million tons for several years. The goal of granting urban residency to 100 million people from rural areas and other permanent residents without local household registration has also been met. Solid steps have been taken to implement major regional development strategies. Pollution prevention and control efforts have been intensified, the target of reduction in the discharge of major pollutants has been exceeded, resources and energy have been used more efficiently, and there has been a notable improvement in the environment. Important progress has been made in addressing financial risks in this period. China has opened its door wider to the world, and the joint pursuit of the Belt and Road Initiative (BRI) has yielded fruitful results. The living standards of the Chinese people have increased significantly. Considerable headway was made in ensuring the provision of equitable, quality education. Higher education is becoming universal. Over 60 million urban jobs were added, and the world's largest social security system was established. China's basic medical insurance covers 1.3 billion people and its basic old-age insurance covers nearly 1 billion people. More than 23 million housing units in urban shanty towns have now been renovated. The country has had major strategic success in the response to COVID-19, and the preparedness and capacity for coping with emergencies have been substantially improved. The country's public cultural services have been consistently improved, and the cultural sector flourished. Notable advances have been made in

教育公平和质量较大提升，高等教育进入普及化阶段，城镇新增就业超过6000万人，建成世界上规模最大的社会保障体系，基本医疗保险覆盖超过13亿人，基本养老保险覆盖近10亿人，城镇棚户区住房改造开工超过2300万套。新冠肺炎疫情防控取得重大战略成果，应对突发事件能力和水平大幅提高。公共文化服务水平不断提高，文化事业和文化产业繁荣发展。国防和军队建设水平大幅提升，军队组织形态实现重大变革。国家安全全面加强，社会保持和谐稳定。

“十三五”规划目标任务胜利完成，我国经济实力、科技实力、综合国力和人民生活水平跃上新的大台阶，全面建成小康社会取得伟大历史性成就，中华民族伟大复兴向前迈出了新的一大步，社会主义中国以更加雄伟的身姿屹立于世界东方。

第二节 我国发展环境面临深

the development of national defense and the armed forces, and the organizational structure of the military has undergone major changes. China's national security has been comprehensively strengthened, and social harmony and stability have been maintained across the country.

The goals and tasks of the 13th Five-Year Plan have been successfully completed. China's economic strength, scientific and technological strength, comprehensive national strength, and people's living standards have now reached a new high. The country has made great and historic achievements in building a moderately well-off society and has taken a new and big stride towards the great rejuvenation of the Chinese nation. Today, socialist China stands taller and stronger in the East.

II. Profound changes in China's development environment

China is now in an important period of strategic opportunity for development, and will remain so for some time to come, but the opportunities and challenges it faces are changing. The world today is undergoing major changes unprecedented in a century. The new round of technological revolution and industrial transformation is gaining momentum, and there is a profound shift in the balance of international power. Peace and development remain the themes of the times, and the concept of a community with a shared future for mankind is deeply rooted in people's minds. At the same time, the international environment has become increasingly complex with obviously increased instability and uncertainty. The COVID-19 pandemic is exerting an extensive, far-reaching impact around the world—the global economy is in the doldrums, economic globalization is encountering headwinds, and dramatic changes are taking place in the global energy supply and demand landscape. The international economic and political landscapes are complex and changeable, and the world is entering a period of turbulent changes, with unilateralism, protectionism, and hegemonism posing a threat to world peace and development.

China has moved to a stage of development with a focus on quality

刻复杂变化

当前和今后一个时期，我国发展仍然处于重要战略机遇期，但机遇和挑战都有新的发展变化。当今世界正经历百年未有之大变局，新一轮科技革命和产业变革深入发展，国际力量对比深刻调整，和平与发展仍然是时代主题，人类命运共同体理念深入人心。同时，国际环境日趋复杂，不稳定性不确定性明显增加，新冠肺炎疫情影响广泛深远，世界经济陷入低迷期，经济全球化遭遇逆流，全球能源供需版图深刻变革，国际经济政治格局复杂多变，世界进入动荡变革期，单边主义、保护主义、霸权主义对世界和平与发展构成威胁。

我国已转向高质量发展阶段，制度优势显著，治理效能提升，经济长期向好，物质基础雄厚，人力资源丰富，市场空间广阔，发展韧性强劲，社会大局稳定，继续发展具有多方面优势和条件。同时，我国发展不平衡不充分问题仍然突

improvement. It has significant institutional advantages, improved performance in governance, sound long-term economic fundamentals, a solid material foundation, rich human resources, vast market potential, strong economic resilience, and social stability, thus enjoying favorable conditions and strengths for further development. At the same time, unbalanced and inadequate development is still a prominent problem, and reform in key links and major fields remains a formidable task. China's capacity for innovation cannot yet meet the need of pursuing development with a focus on quality improvement. The foundation of agriculture is not yet solid. There are still disparities in development between urban and rural areas and between regions and in income distribution. We have a long way to go in protecting the environment. In work on public wellbeing and social governance, there are still areas where we fall short.

We must keep in mind both the broad strategic goal of national rejuvenation and the profound changes unseen in a century in the world, and clearly understand the new features and requirements brought about by the changes in the principal contradictions in our society, as well as the new contradictions and challenges arising from the complicated international environment, while enhancing our awareness of opportunities and risks. We must keep in mind the basic fact that China is still in the primary stage of socialism, maintain a strategic resolve, and run our own affairs well. We should fully understand the laws governing development, be ready to fight, build our ability, evaluate worst-case scenarios, accurately perceive changes and scientifically respond to them, take the initiative to seek changes, be good at fostering opportunities amid crises and opening up new vistas in a shifting landscape, seize opportunities and deal with challenges while weighing up pros and cons, and forge ahead with confidence and courage.

出，重点领域关键环节改革任务仍然艰巨，创新能力不适应高质量发展要求，农业基础还不稳固，城乡区域发展和收入分配差距较大，生态环保任重道远，民生保障存在短板，社会治理还有弱项。

必须统筹中华民族伟大复兴战略全局和世界百年未有之大变局，深刻认识我国社会主要矛盾变化带来的新特征新要求，深刻认识错综复杂的国际环境带来的新矛盾新挑战，增强机遇意识和风险意识，立足社会主义初级阶段基本国情，保持战略定力，办好自己的事，认识和把握发展规律，发扬斗争精神，增强斗争本领，树立底线思维，准确识变、科学应变、主动求变，善于在危机中育先机、于变局中开新局，抓住机遇，应对挑战，趋利避害，奋勇前进。

第二章 指导方针

“十四五”时期经济社会发展，必须牢牢把握以下指导思想、

Chapter 2 Guidelines

During the period covered by the 14th Five-Year Plan, economic and social development will be guided by the following guidelines, principles, and strategic direction.

原则和战略导向。

第一节 指导思想

高举中国特色社会主义伟大旗帜，深入贯彻党的十九大和十九届二中、三中、四中、五中全会精神，坚持以马克思列宁主义、毛泽东思想、邓小平理论、“三个代表”重要思想、科学发展观、习近平新时代中国特色社会主义思想为指导，全面贯彻党的基本理论、基本路线、基本方略，统筹推进经济建设、政治建设、文化建设、社会建设、生态文明建设的总体布局，协调推进全面建设社会主义现代化国家、全面深化改革、全面依法治国、全面从严治党的战略布局，坚定不移贯彻创新、协调、绿色、开放、共享的新发展理念，坚持稳中求进工作总基调，以推动高质量发展为主题，以深化供给侧结构性改革为主线，以改革创新为根本动力，以满足人民日益增长的美好生活需要为根本目的，统筹发展和安全，加快建设现代化经济体系，加

I. Guidelines

We must hold high the banner of socialism with Chinese characteristics; thoroughly implement the guiding principles of the 19th National Congress of the CPC and of the second, third, fourth, and fifth plenary sessions of the 19th CPC Central Committee; and follow the guidance of Marxism-Leninism, Mao Zedong Thought, Deng Xiaoping Theory, the Theory of Three Represents, the Scientific Outlook on Development, and Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era. We must fully act on the Party's basic theory, line, and policy, coordinate efforts to achieve economic, political, cultural, social, and ecological progress, and implement the strategy to make comprehensive efforts to build a great modern socialist country, deepen reform, advance law-based governance, and ensure full and strict governance over the Party. We must be committed to the new development philosophy of innovation, coordination, green development, opening-up, and sharing; uphold the underlying principle of pursuing progress while ensuring stability; pursue development with a focus on quality improvement; promote supply-side structural reforms as the main task; and make reforms and innovation the primary driving force in our endeavor to meet the fundamental goal of satisfying the people's growing needs for a better life. We should ensure coordination in pursuing development and upholding security, accelerate the building of a modern economic system and expedite our efforts to create a new development paradigm with the domestic market as the mainstay and domestic and overseas markets reinforcing each other. We should also modernize China's system and capacity for governance and realize long-term and stable economic development and social stability and harmony. By doing so, we will set the stage for building a modern socialist country in all respects.

II. Principles to follow

—Uphold the overall leadership of the CPC. We will adhere to and improve the Party's institutions and mechanisms for leading economic and social development, adhere to and improve the

快构建以国内大循环为主体、国内国际双循环相互促进的新发展格局，推进国家治理体系和治理能力现代化，实现经济行稳致远、社会安定和谐，为全面建设社会主义现代化国家开好局、起好步。

第二节 必须遵循的原则

——坚持党的全面领导。坚持和完善党领导经济社会发展的体制机制，坚持和完善中国特色社会主义制度，不断提高贯彻新发展理念、构建新发展格局能力和水平，为实现高质量发展提供根本保证。

——坚持以人民为中心。坚持人民主体地位，坚持共同富裕方向，始终做到发展为了人民、发展依靠人民、发展成果由人民共享，维护人民根本利益，激发全体人民积极性、主动性、创造性，促进社会公平，增进民生福祉，不断实现人民对美好生活的向往。

——坚持新发展理念。把新发

socialist system with Chinese characteristics, continuously boost our capacity for implementing the new development philosophy and building a new development paradigm, and provide a fundamental guarantee for development with a focus on quality improvement.

—Commit to a people-centered approach. We must ensure the principal position of the people, and work towards common prosperity. We must insist that our development is for the people and depends on the people, and that its fruits are shared by the people. We must safeguard the fundamental interests of the people, stimulate their enthusiasm, initiative, and creativity, promote social equity, improve people's wellbeing, and constantly help realize people's aspiration for a better life.

—Stay true to the new development philosophy. We must ensure the new development philosophy is applied in full, in both letter and spirit and in every stage and aspect of development. We must build a new development paradigm, effectively change the development model, work hard for better quality, higher efficiency, and more robust drivers of economic growth through reform, and strive to achieve higher-quality development that is more efficient, equitable, sustainable and secured.

—Continue to deepen reform and opening-up. We must be fully committed to reform and opening-up and modernize China's governance system and capacity. We must get rid of the institutional ailments that restrict development with a focus on quality improvement and high-quality life, strengthen major reform and opening-up measures that are conducive to improving the efficiency of resource allocation and mobilizing the enthusiasm of the whole society, and continuously enhance the driving force and vitality of development.

—Uphold system-based thinking. We must think ahead, plan the big picture, deploy strategically, and advance in a holistic manner. We must keep in mind both our internal and international imperatives, and balance development and security. By adhering

展理念完整、准确、全面贯穿发展全过程和各领域，构建新发展格局，切实转变发展方式，推动质量变革、效率变革、动力变革，实现更高质量、更有效率、更加公平、更可持续、更为安全的发展。

——坚持深化改革开放。坚定不移推进改革，坚定不移扩大开放，加强国家治理体系和治理能力现代化建设，破除制约高质量发展、高品质生活的体制机制障碍，强化有利于提高资源配置效率、有利于调动全社会积极性的重大改革开放举措，持续增强发展动力和活力。

——坚持系统观念。加强前瞻性思考、全局性谋划、战略性布局、整体性推进，统筹国内国际两个大局，办好发展安全两件大事，坚持全国一盘棋，更好发挥中央、地方和各方面积极性，着力固根基、扬优势、补短板、强弱项，注重防范化解重大风险挑战，实现发展质量、结构、规模、速度、效

to the national strategy, we need to give full play to the initiative of the central and local governments and people in various sectors, solidify our foundation, foster strengths, and tackle areas of weaknesses. We need to pay attention to preventing and resolving major risks and challenges, and ensure a balance between the quality, structure, scale, speed, efficiency, and security in terms of development.

III. Strategic direction

To promote development with a focus on quality improvement during the 14th Five-Year Plan period, we must ground our efforts in the new stage of development, apply the new development philosophy and create a new development paradigm. Understanding the new development stage is the realistic basis for implementing the new development philosophy and creating the new development paradigm. Implementing the new development philosophy provides a guide for understanding the new development stage and fostering the new development paradigm. Building the new development paradigm is a strategic choice in response to the opportunities and challenges in the new development stage and for implementing the new development philosophy. We must continue to deepening supply-side structural reforms, foster new demand through pursuing innovation-driven development and ensuring high-quality supply, and enhance the resilience of the supply system and its adaptability to domestic demand. We must build an effective system to boost domestic demand, expedite the establishment of a complete demand system, strengthen demand-side management, and build a robust domestic market. We must unswervingly push forward reform, get rid of institutional obstacles to economic circulation, and promote the flows of production factors and the integration at the stages of production, allocation, distribution, and consumption. We must be fully committed to greater opening-up, continue to deepen the opening-up based on the flow of production factors, stably expand the institution-based opening-up, and leverage the flows of the domestic economy to make China a major magnet for global production factors and resources. We must strengthen the leading

role of domestic circulation, improve its efficiency and level via international circulation, and realize the mutual reinforcement of domestic and international circulation.

第三节 战略导向

“十四五”时期推动高质量发展，必须立足新发展阶段、贯彻新发展理念、构建新发展格局。把握新发展阶段是贯彻新发展理念、构建新发展格局的现实依据，贯彻新发展理念为把握新发展阶段、构建新发展格局提供了行动指南，构建新发展格局则是应对新发展阶段机遇和挑战、贯彻新发展理念的战略选择。必须坚持深化供给侧结构性改革，以创新驱动、高质量供给引领和创造新需求，提升供给体系的韧性和对国内需求的适配性。必须建立扩大内需的有效制度，加快培育完整内需体系，加强需求侧管理，建设强大国内市场。必须坚定不移推进改革，破除制约经济循环的制度障碍，推动生产要素循环流转和生产、分配、流通、消费各环节有机衔接。必须坚定不移扩大开放，持续深化要素流动型开放，稳步拓展制度型开放，依托国内经济

循环体系形成对全球要素资源的强大引力场。必须强化国内大循环的主导作用，以国际循环提升国内大循环效率和水平，实现国内国际双循环互促共进。

第三章 主要目标

按照全面建设社会主义现代化国家的战略安排，2035年远景目标和“十四五”时期经济社会发展主要目标如下。

第一节 2035年远景目标

展望2035年，我国将基本实现社会主义现代化。经济实力、科技实力、综合国力将大幅跃升，经济总量和城乡居民人均收入将再迈上新的大台阶，关键核心技术实现重大突破，进入创新型国家前列。基本实现新型工业化、信息化、城镇化、农业现代化，建成现代化经济体系。基本实现国家治理体系和治理能力现代化，人民平等参与、平等发展权利得到充分保障，基本建成法治国家、法治政府、法治社

Chapter 3 Main Objectives

In accordance with the strategic arrangement for comprehensively building China into a modern socialist country, Vision 2035 and the main objectives for economic and social development during the 14th Five-Year Plan period are as follows.

I. Vision 2035

By 2035, China will basically achieve socialist modernization. Our economic and technological strength, and comprehensive national strength will increase significantly. We will make new strides in economic aggregate and the per capita income of urban and rural residents. Making major breakthroughs in core technologies in key areas, we will be a global leader in innovation, and will also achieve new industrialization, enhanced IT application, urbanization, and agricultural modernization, and complete building a modern economic system. We will have modernized the governance system and capacity, and the rights of the people to participate and to develop as equals will be adequately protected. The rule of law for the country, the government, and society will be comprehensively in place. China will become a powerful country in terms of culture, education, human capital, sports, and health. The well-rounded development of the people and social etiquette and civility will be significantly enhanced. China's cultural soft power will grow much stronger. Eco-friendly work and lifestyle will be advanced to cover all areas of society. Carbon dioxide emissions will steadily decline after reaching a peak, and there will be a fundamental improvement in the environment after the goal of building a Beautiful China is met. The opening-up will reach a new

第二节 “十四五”时期经济社会发展主要目标

——经济发展取得新成效。发展是解决我国一切问题的基础和关键，发展必须坚持新发展理念，在质量效益明显提升的基础上实现经

stage with substantial growth in the country's capabilities for participating in international economic cooperation and competition. The per capita GDP will reach the level of moderately developed countries and the size of the middle-income group will be significantly expanded. Equitable access to basic public services will be ensured. Disparities in development between urban and rural areas and between regions, and in living standards will be significantly reduced. The Peaceful China initiative will be pursued at a higher level. The modernization of national defense and the military will be achieved. People will lead a better life, and more notable and substantial progress will be achieved in well-rounded human development and in common prosperity for all.

II. Main objectives for economic and social development during the 14th Five-Year Plan period

—China will strive to make new strides in economic development during the period. Development is the foundation and the key for solving all of China's problems. We must be fully committed to the new vision for development and realize sustained and healthy economic development based on a marked improvement in quality and efficiency. We will fully tap China's growth potential, keep the average annual growth of GDP within an appropriate range, set annual targets for GDP growth on the basis of actual conditions, and ensure that overall labor productivity grows faster than GDP. The domestic market will be stronger, the economic structure will be further optimized, and the innovation capacity will be significantly improved. China's R&D spending will increase by more than 7% annually, and is expected to account for a higher percentage of GDP than that during the 13th Five-Year Plan period. The upgrade of the industrial base and modernization of the industrial chains will be significantly improved, and the agricultural foundation will be strengthened. The balance of development between urban and rural areas and between regions will be significantly enhanced. The permanent urban residents will increase to 65% of the population, and significant progress will be made towards a modernized economy.

——改革开放迈出新步伐。社会主义市场经济体制更加完善，高标准市场体系基本建成，市场主体更加充满活力，产权制度改革和要素市场化配置改革取得重大进展，公平竞争制度更加健全，更高水平开放型经济新体制基本形成。

——社会文明程度得到新提高。社会主义核心价值观深入人心，人民思想道德素质、科学文化

—New steps will be taken in reform and opening-up. China will further improve its socialist market economy with a high-standard market system in place. Market entities will be increasingly dynamic, and major progress will be achieved in the reform of the property rights system and the market-based allocation of factors of production. A more robust system of fair competition will prevail, and a new system of higher-standard open economy will take shape.

—China's social etiquette and civility will be further enhanced. Core socialist values will be widely embraced, and significant improvement will be made in the intellectual, moral, scientific, cultural, and health standards of Chinese citizens. The systems for public cultural services and cultural industries will be further improved, the intellectual and cultural life of the Chinese people will become richer, the international influence of the Chinese culture will be further increased, and an even stronger bond will be forged among all the people of the Chinese nation.

—New progress will be made in building an ecological civilization. The territorial space will be better developed and protected. Remarkable results will be achieved in a shift towards eco-friendly work and lifestyle. Energy and resources will be more rationally allocated and much more efficiently used. Energy consumption per unit of GDP and carbon dioxide emissions per unit of GDP will be reduced by 13.5% and 18%, respectively. The total discharge of major pollutants will be consistently reduced. The forest coverage will reach 24.1%, and the environment will be consistently improved with a stronger defense for ecological security. The living environment in urban and rural areas will also be significantly improved.

—The well-being of people will be boosted. We will increase employment and create better quality jobs, while maintaining the surveyed urban unemployment rate within 5.5%. Per capita disposable income will grow in line with GDP growth, and the income distribution structure will be significantly improved. The access to basic public services will be much more equitable. All

素质和身心健康素质明显提高，公共文化服务体系和文化产业体系更加健全，人民精神文化生活日益丰富，中华文化影响力进一步提升，中华民族凝聚力进一步增强。

——生态文明建设实现新进步。国土空间开发保护格局得到优化，生产生活方式绿色转型成效显著，能源资源配置更加合理、利用效率大幅提高，单位国内生产总值能源消耗和二氧化碳排放分别降低13.5%、18%，主要污染物排放总量持续减少，森林覆盖率提高到24.1%，生态环境持续改善，生态安全屏障更加牢固，城乡人居环境明显改善。

——民生福祉达到新水平。实现更加充分更高质量就业，城镇调查失业率控制在5.5%以内，居民人均可支配收入增长与国内生产总值增长基本同步，分配结构明显改善，基本公共服务均等化水平明显提高，全民受教育程度不断提升，劳动年龄人口平均受教育年限提高

Chinese people will enjoy better education opportunities, with the average years of schooling among the working-age population rising to 11.3. The multi-tiered social security system will be improved, with basic old-age insurance covering 95% of the population. The health care system will be improved, and the average life expectancy will be increased by 1 year. What we have achieved in poverty alleviation will be consolidated and expanded, the rural revitalization strategy will be comprehensively carried forward, and solid strides will be made towards common prosperity for all.

—Further progress will be made in China's governance capacity. Socialist democracy and the rule of law will be enhanced, so will be social fairness and justice. With improvements in the administration system, the government will better exercise its role, and its performance and credibility will be significantly enhanced. Social governance, especially primary-level governance, will be remarkably improved. Systems and mechanisms for forestalling and defusing major risks will be constantly improved, with the capacity to handle public emergencies significantly enhanced. Notable progress will be seen in preventing natural disasters, development security will be more effectively ensured, and major steps will be taken in the modernization of the national defense and armed forces.

到11.3年，多层次社会保障体系更加健全，基本养老保险参保率提高到95%，卫生健康体系更加完善，人均预期寿命提高1岁，脱贫攻坚成果巩固拓展，乡村振兴战略全面推进，全体人民共同富裕迈出坚实步伐。

--国家治理效能得到新提升。社会主义民主法治更加健全，社会公平正义进一步彰显，国家行政体系更加完善，政府作用更好发挥，行政效率和公信力显著提升，社会治理特别是基层治理水平明显提高，防范化解重大风险体制机制不断健全，突发公共事件应急处置能力显著增强，自然灾害防御水平明显提升，发展安全保障更加有力，国防和军队现代化迈出重大步伐。

Chapter 4 A Strategic Vision for Building Strength in Science and Technology

An action plan for building prosperity through science and technology will be developed, with a focus on strengthening institutional support on a national level and leveraging the advantages of our socialist market economy. It aims to encourage innovation and breakthroughs in core technologies in key areas and improve the overall efficiency of the innovation chain.

I. More rational allocation of scientific and technological resources

We will promote an optimal combination of innovation systems oriented towards the strategic needs of the country and work faster to enhance our strategic scientific and technological capability based on the development of national laboratories. Focusing on quantum information, photonics, micro and nanoelectronics, network communications, artificial intelligence, biomedicine, modern energy systems, and other major innovation areas, we will establish a group of national laboratories and reorganize national key laboratories, thus establishing a laboratory system with a rational structure and efficient operation. We will optimize and upgrade national engineering research centers and national technology innovation centers among other innovation bases, promote the optimal allocation of research resources and sharing

第二节 加强原创性引领性科技攻关

在事关国家安全和发展全局的基础核心领域，制定实施战略性科学计划和科学工程。瞄准人工智能、量子信息、集成电路、生命健康、脑科学、生物育种、空天科技、深地深海等前沿领域，实施一批具有前瞻性、战略性的国家重大科技项目。从国家急迫需要和长远需求出发，集中优势资源攻关新发突发传染病和生物安全风险防控、医药和医疗设备、关键元器件零部件和基础材料、油气勘探开发等领

of resources among research institutes, higher-education institutions, and enterprises, and support the development of new forms of innovators such as research universities and R&D institutions. We will promote the diversification of investors, the modernization of management systems, market-based operation mechanisms, and flexible employment mechanisms.

II. Encouraging ground-breaking scientific and technological innovation

We will formulate and implement strategic scientific programs and scientific projects in the basic and core areas concerning national security and development, and carry out pioneering and strategic national projects in artificial intelligence, quantum information, integrated circuits, life and health, brain science, biological breeding, aerospace science and technology, deep earth and deep sea, among other frontier fields. Based on the urgent and long-term needs of the country, we will concentrate our advantageous resources to make breakthroughs in core technologies in the key fields including new and sudden outbreak of infectious diseases, biosafety risk prevention and control, medicine and medical equipment, key components and parts and basic materials, and petroleum and natural gas exploration and development.

III. Strengthening basic research

We will strengthen the role of application-oriented research as a driving force, encourage free exploration, formulate and implement a 10-year action plan for basic research, and give priority to a group of research centers for fundamental disciplines. We will increase funding and improve the composition of spending for basic research, give preferential tax treatment to enterprises engaging in basic research, encourage the private sector to channel more resources to basic research through diverse means such as donations and investment, and form a mechanism for ensuring sustainable and stable funding. The spending on basic research will account for over 8% of total R&D spending. A sound evaluation system and incentive mechanism will be established

第三节 持之以恒加强基础研究

强化应用研究带动，鼓励自由探索，制定实施基础研究十年行动方案，重点布局一批基础学科研究中心。加大基础研究财政投入力度、优化支出结构，对企业投入基础研究实行税收优惠，鼓励社会以捐赠和建立基金等方式多渠道投入，形成持续稳定投入机制，基础研究经费投入占研发经费投入比重提高到8%以上。建立健全符合科学规律的评价体系和激励机制，对基础研究探索实行长周期评价，创造有利于基础研究的良好科研生态。

第四节 建设重大科技创新平台

支持北京、上海、粤港澳大湾区形成国际科技创新中心，建设北京怀柔、上海张江、大湾区、安徽

and improved for long-term evaluation of basic research and for creating an environment conducive to basic research.

IV. Building major platforms for scientific and technological innovation

We will support the initiative of making Beijing, Shanghai, and Guangdong-Hong Kong-Macao Greater Bay Area international centers for science and technology innovation, build comprehensive national science centers in Huairou in Beijing, Zhangjiang in Shanghai, Greater Bay Area, and Hefei in Anhui, and support the building of regional science and technology innovation centers in places where conditions permit. We will strengthen the innovation functions of national innovation demonstration zones, new and high-tech industry development zones, and economic and technological development zones. We will adopt an appropriate forward-thinking plan for major national science and technology infrastructure and ensure that it is better shared and more efficiently utilized. We will intensively build repositories of natural science and technology resources, national workstations (networks) for field observation and research and scientific big data centers; strengthen the R&D and manufacture of high-end research instruments and equipment; and build high-end national exchange platforms for research papers and scientific and technological information.

第五章 提升企业技术创新能力

完善技术创新市场导向机制，强化企业创新主体地位，促进各类创新要素向企业集聚，形成以企业为主体、市场为导向、产学研用深度融合的技术创新体系。

第一节 激励企业加大研发投入

Chapter 5 Technological Innovation Capability of Enterprises

Market-oriented mechanisms for technological innovation will be in place to boost the role of enterprises in innovation, encourage the flow of resources to enterprises, and enable enterprises to play a major role in innovation with the support of universities, research institutes, and end-users.

I. Encouraging enterprises to increase R&D spending

More efforts will be made to implement inclusive policies such as granting an extra tax deduction on R&D costs and offering preferential tax treatment to high-tech enterprises. We will expand and improve the insurance compensation and incentive policies for the application of newly developed major technical equipment, give play to the leading and demonstrative roles of major projects, and support innovative products and services with government

实施更大力度的研发费用加计扣除、高新技术企业税收优惠等普惠性政策。拓展优化首台（套）重大技术装备保险补偿和激励政策，发挥重大工程牵引示范作用，运用政府采购政策支持创新产品和服务。通过完善标准、质量和竞争规制等措施，增强企业创新动力。健全鼓励国有企业研发的考核制度，设立独立核算、免于增值保值考核、容错纠错的研发准备金制度，确保中央国有工业企业研发支出年增长率明显超过全国平均水平。完善激励科技型中小企业创新的税收优惠政策。

第二节 支持产业共性基础技术研发

集中力量整合提升一批关键共性技术平台，支持行业龙头企业联合高等院校、科研院所和行业上下游企业共建国家产业创新中心，承担国家重大科技项目。支持有条件企业联合转制科研院所组建行业研究院，提供公益性共性技术服务。

procurement policies. We will enhance the enterprises' motivation for innovation by improving standards, quality, and competition regulations and other measures; build a robust assessment system for encouraging R&D efforts of state-owned enterprises, and establish an R&D reserve system featuring independent accounting, exemption from value increase assessment, and fault tolerance and error correction, to ensure that the annual growth rate of R&D expenditure of central state-owned industrial enterprises is significantly higher than the national average. At the same time, we will enhance preferential tax policies that encourage innovation in small and medium-sized scientific and technological enterprises.

II. Support for research and development of general-purpose technologies

China will focus on integrating and upgrading key general-purpose technology platforms, support leading enterprises in the industry to work with universities, research institutes, and upstream and downstream industrial enterprises in building national centers for industrial innovation and in undertaking major national science and technology projects. Qualified enterprises will be supported to cooperate with research institutes that have been transformed into enterprises, to establish industry research institutes and provide common technology services for public welfare. China will build new general-purpose technology platforms to tackle key problems encountered in multiple industries and fields. We will give play to the leading and supporting roles of large enterprises, support the growth of innovative micro, small, and medium enterprises into important sources of innovation, and promote collaborative innovation among large, medium, and small enterprises in the upstream, mid-stream, and downstream of the industrial chain. We will also encourage the establishment of mixed-ownership industrial technology research institutes on the basis of industrial clusters in places where conditions permit, to facilitate research and development in key generic technologies.

打造新型共性技术平台，解决跨行业跨领域关键共性技术问题。发挥大企业引领支撑作用，支持创新型中小微企业成长为创新重要发源地，推动产业链上中下游、大中小企业融通创新。鼓励有条件地方依托产业集群创办混合所有制产业技术研究院，服务区域关键共性技术研发。

第三节 完善企业创新服务体系

推动国家科研平台、科技报告、科研数据进一步向企业开放，创新科技成果转化机制，鼓励将符合条件的由财政资金支持形成的科技成果许可给中小企业使用。推进创新创业机构改革，建设专业化市场化技术转移机构和技术经理人队伍。完善金融支持创新体系，鼓励金融机构发展知识产权质押融资、科技保险等科技金融产品，开展科技成果转化贷款风险补偿试点。畅通科技型企业国内上市融资渠道，增强科创板“硬科技”特色，提升

III. Innovation services for enterprises

China will give enterprises greater access to national research platforms, scientific and technological reports, and research data, innovate the mechanisms for applying scientific and technological achievements, and encourage the licensing of eligible government-financed scientific and technological achievements to small and medium-sized enterprises (SMEs). We will push forward the institutional reform for innovation and entrepreneurship and build specialized and market-oriented institutions for technology transfer and teams of technology managers. We will improve the financial support system for innovation, encourage financial institutions to develop fintech products such as intellectual property pledge financing and technology insurance, and carry out pilot projects of risk compensation for loans related to the application of scientific and technological achievements. We will also provide smooth financing channels for domestic listing of technology-based enterprises, enhance the "hard technology" characteristics of the Science and Technology Innovation Board as well as the function of the ChiNext stock market in serving growth-oriented innovative enterprises and startups, encourage the development of angel investment and venture capital, and give better play to the role of venture capital guide funds and private equity funds.

创业板服务成长型创新创业企业功能，鼓励发展天使投资、创业投资，更好发挥创业投资引导基金和私募股权基金作用。

第六章 激发人才创新活力

贯彻尊重劳动、尊重知识、尊重人才、尊重创造方针，深化人才发展体制机制改革，全方位培养、引进、用好人才，充分发挥人才第一资源的作用。

第一节 培养造就高水平人才队伍

遵循人才成长规律和科研活动规律，培养造就更多国际一流的战略科技人才、科技领军人才和创新团队，培养具有国际竞争力的青年科技人才后备军，注重依托重大科技任务和重大创新基地培养发现人才，支持设立博士后创新岗位。加强创新型、应用型、技能型人才培养，实施知识更新工程、技能提升行动，壮大高水平工程师和高技能人才队伍。加强基础学科拔尖学生

Chapter 6 Creativity and Talent Development

It is important to foster a culture that respects knowledge, encourages hard work and creativity, and is conducive to talent development. Reform is necessary to improve a full spectrum of talent management practices, including training, recruitment, and placement, thus giving full play to the role of talent, the most essential resource.

I. Building a contingent of high-calibre personnel

China will develop more world-class strategic talents and leading figures in science and technology and innovation teams in accordance with the laws of personnel development and research activities. The country will foster reserves of young scientists and engineers with international competitiveness, pay attention to developing and discovering talents through major scientific and technological tasks and major innovation bases, and support the establishment of post-doctoral innovation posts. The country will strengthen the training of innovative, skilled, and application-oriented personnel, implement knowledge renewal projects and skills upgrade initiatives, and build stronger teams of high-level engineers and highly skilled personnel. Efforts will be made to intensify the training of top students in basic disciplines, and build bases and frontier science centers for mathematics, physics, chemistry, biology, and other basic disciplines. We will implement a more open talent policy and build a research and innovation center that brings together excellent personnel at home and abroad. We will improve the policies for foreign high-calibre personnel and professionals who stay or reside in China for work, research, and exchange, improve the permanent residence system

培养，建设数理化生等基础学科基地和前沿科学中心。实行更加开放的人才政策，构筑集聚国内外优秀人才的科研创新高地。完善外籍高端人才和专业人才来华工作、科研、交流的停居留政策，完善外国人在华永久居留制度，探索建立技术移民制度。健全薪酬福利、子女教育、社会保障、税收优惠等制度，为海外科学家在华工作提供具有国际竞争力和吸引力的环境。

第二节 激励人才更好发挥作用

完善人才评价和激励机制，健全以创新能力、质量、实效、贡献为导向的科技人才评价体系，构建充分体现知识、技术等创新要素价值的收益分配机制。选好用好领军人才和拔尖人才，赋予更大技术路线决定权和经费使用权。全方位为科研人员松绑，拓展科研管理“绿色通道”。实行以增加知识价值为导向的分配政策，完善科研人员职务发明成果权益分享机制，探索赋

for foreigners in China, and explore the establishment of a skilled migration system. We will also improve the systems concerning salary and welfare, children's education, social security, and tax incentives to provide an internationally competitive and attractive environment for overseas scientists to work in China.

II. Incentives for researchers

We will improve the evaluation and incentive mechanism, build a robust system to evaluate scientists and engineers based on the criteria of innovation ability, quality, effectiveness and contribution, and develop an income distribution mechanism that fully reflects the value of knowledge, technology, and other elements in innovation. We will carefully select leading and top-notch personnel, leverage their expertise and give them a greater say on technological routes and fund use. We will free up more space for researchers in an all-round manner and expand the "green channel" for research management. We will adopt a distribution policy oriented towards rewarding knowledge and improve the mechanism for researchers to share the benefits from their on-the-job inventions, vest in them the ownership or long-term right of use of their research results on a pilot basis, and increase their share of benefits. We will also deepen the reform of the academician system.

III. An ecosystem for innovation, entrepreneurship, and creativity

We will vigorously carry forward the spirit of scientists in the new era, strengthen research integrity, and improve the ethical system in science and technology. We will protect the property rights and innovation income of entrepreneurs according to law and give full play to the important role of entrepreneurs in steering innovation in the right direction, bringing together competent personnel and raising funds. We will promote the in-depth development of innovation, entrepreneurship, and creativity, and optimize the layout of the innovation and entrepreneurship demonstration bases. We will advocate an innovation and entrepreneurship culture of dedication, seeking better from best, concentration and

予科研人员职务科技成果所有权或长期使用权，提高科研人员收益分享比例。深化院士制度改革。

第三节 优化创新创业创造生态

大力弘扬新时代科学家精神，强化科研诚信建设，健全科技伦理体系。依法保护企业家的财产权和创新收益，发挥企业家在把握创新方向、凝聚人才、筹措资金等方面重要作用。推进创新创业创造向纵深发展，优化双创示范基地建设布局。倡导敬业、精益、专注、宽容失败的创新创业文化，完善试错容错纠错机制。弘扬科学精神和工匠精神，广泛开展科学普及活动，加强青少年科学兴趣引导和培养，形成热爱科学、崇尚创新的社会氛围，提高全民科学素质。

tolerance of failure, and improve the trial-and-error mechanism that allows errors to be tolerated and corrected. To create a social climate that values science and innovation, and improve the scientific literacy of the people, we will uphold the spirit of scientists and craftsmanship, extensively carry out science popularization activities, and foster an interest in science among young people.

第七章 完善科技创新体制机制

Chapter 7 Mechanisms for Scientific and Technological Innovation

深入推进科技体制改革，完善国家科技治理体系，优化国家科技

Institutional reforms will proceed at a deeper level to improve the national science and technology governance system and national planning for the development of science and technology, and allow a holistic approach to deploying projects, facilities, personnel, and

计划体系和运行机制，推动重点领域项目、基地、人才、资金一体化配置。

第一节 深化科技管理体制改革

加快科技管理职能转变，强化规划政策引导和创新环境营造，减少分钱分物定项目等直接干预。整合财政科研投入体制，重点投向战略性关键性领域，改变部门分割、小而散的状态。改革重大科技项目立项和组织管理方式，给予科研单位和科研人员更多自主权，推行技术总师负责制，实行“揭榜挂帅”、“赛马”等制度，健全奖补结合的资金支持机制。健全科技评价机制，完善自由探索型和任务导向型科技项目分类评价制度，建立非共识科技项目的评价机制，优化科技奖励项目。建立健全科研机构现代院所制度，支持科研事业单位试行更灵活的编制、岗位、薪酬等管理制度。建立健全高等院校、科研机构、企业间创新资源自由有序

funds in key sectors.

I. Deeper reforms in the science and technology management system

We will accelerate the transformation of government functions in science and technology management, enhance the guiding role of planning and policies and the creation of an innovative environment, and reduce direct interventions in financial and physical resources and in projects. The government funding system for research will be consolidated, with an increased focus on strategic and key sectors, and the problems of compartmentalization and small and scattered funding will be effectively addressed. The approval, organization, and management of major scientific and technological projects will be reformed to grant more decision-making rights to research institutions and researchers. To this end we will implement a system of chief technology officers assuming responsibilities, implement a ranking system and a strong and open competition mechanism for selecting the best candidates to lead key research projects, and improve the funding mechanism to combine awards and subsidies. We will improve the evaluation mechanism of science and technology and the classified evaluation system for free exploration and task-oriented science and technology projects, establish an evaluation mechanism for science and technology projects on which a consensus is not yet achieved, and optimize science and technology award projects. We will establish and improve the modern research institution system and support the institutions to try out more flexible systems for human resources, post, and salary management. We will establish and improve the mechanism of free and orderly flow of innovation resources among institutions of higher learning, research institutions, and enterprises. In addition to these efforts, we will further promote pilot reforms for comprehensive innovation.

II. Protection of intellectual property rights

We will implement a strategy to make China strong on intellectual

流动机制。深入推进全面创新改革试验。

第二节 健全知识产权保护运用体制

实施知识产权强国战略，实行严格的知识产权保护制度，完善知识产权相关法律法规，加快新领域新业态知识产权立法。加强知识产权司法保护和行政执法，健全仲裁、调解、公证和维权援助体系，健全知识产权侵权惩罚性赔偿制度，加大损害赔偿力度。优化专利资助奖励政策和考核评价机制，更好保护和激励高价值专利，培育专利密集型产业。改革国有知识产权归属和权益分配机制，扩大科研机构和高等院校知识产权处置自主权。完善无形资产评估制度，形成激励与监管相协调的管理机制。构建知识产权保护运用公共服务平台。

第三节 积极促进科技开放合

property rights, implement a strict intellectual property protection system, improve the related laws and regulations, and accelerate the legislation in emerging fields and new forms of business. We will strengthen judicial protection and administrative enforcement related to intellectual property rights, improve relevant systems of arbitration, mediation, notarization, and assistance in the protection of rights, build a better system of punitive damages for intellectual property infringements, and increase the compensation. We will optimize the patent subsidy and incentive policies and evaluation mechanisms to better protect and encourage high-value patents and develop patent-intensive industries. By reforming the ownership and distribution mechanism of state-owned intellectual property rights, we will give research institutions and institutions of higher learning a greater say in the disposition of intellectual properties. The intangible assets evaluation system will be improved, a management mechanism that combines incentives and supervision will be established, and public service platforms will be built for intellectual property protection and application.

III. Openness and cooperation in the field of science and technology

We will implement a more open, inclusive, mutually beneficial, and shared international strategy for cooperation in science and technology and more actively integrate ourselves into the global innovation network. We will pragmatically promote international cooperation in the fields of global epidemic prevention and control and public health, boost joint research and development with researchers from various countries focusing on climate change, human health, and other issues, take the lead in designing and initiating international big science programs and projects, and give play to the unique role of science funds. We will step up the opening-up of the national science and technology programs, launch a group of major science and technology cooperation projects, explore and establish a global research fund, and implement scientist exchange programs. We will also support the establishment of international scientific and technological organizations in China, and welcome foreign scientists to serve in

scientific and technological academic organizations in China.

实施更加开放包容、互惠共享的国际科技合作战略，更加主动融入全球创新网络。务实推进全球疫情防控和公共卫生等领域国际科技合作，聚焦气候变化、人类健康等问题加强同各国科研人员联合研发。主动设计和牵头发起国际大科学计划和大科学工程，发挥科学基金独特作用。加大国家科技计划对外开放力度，启动一批重大科技合作项目，研究设立面向全球的科学研究基金，实施科学家交流计划。支持在我国境内设立国际科技组织、外籍科学家在我国科技学术组织任职。

第三篇 加快发展现代产业体系 巩固壮大实体经济根基

坚持把发展经济着力点放在实体经济上，加快推进制造强国、质量强国建设，促进先进制造业和现代服务业深度融合，强化基础设施支撑引领作用，构建实体经济、科

Part III Industrial Modernization and the Foundation of Real Economy

The focus of economic growth should be on the development of the real economy. Building national strength requires, in particular, strengthening manufacturing and improving product quality. Further integration of advanced manufacturing and modern services is called for. Improving infrastructure provides support and paves the way for new growth. It is important to strengthen institutional support for symbiotic interaction between the real economy, scientific and technological innovation, financial services, and talent development.

技创新、现代金融、人力资源协同发展的现代产业体系。

第八章 深入实施制造强国战略

坚持自主可控、安全高效，推进产业基础高级化、产业链现代化，保持制造业比重基本稳定，增强制造业竞争优势，推动制造业高质量发展。

第一节 加强产业基础能力建设

实施产业基础再造工程，加快补齐基础零部件及元器件、基础软件、基础材料、基础工艺和产业技术基础等瓶颈短板。依托行业龙头企业，加大重要产品和关键核心技术攻关力度，加快工程化产业化突破。实施重大技术装备攻关工程，完善激励和风险补偿机制，推动首台（套）装备、首批次材料、首版次软件示范应用。健全产业基础支撑体系，在重点领域布局一批国家制造业创新中心，完善国家质量基

Chapter 8 Strengthening Manufacturing

It is crucial to build more secure, resilient, and efficient modern supply chains not subject to disruptions and outside interference. It is also crucial to ensure that the share of manufacturing in the economy remains stable, and to enhance the competitive advantages of the manufacturing sector with a focus on quality improvement.

I. Strengthening basic industrial capacities

We will carry out projects to rebuild industrial foundation and promptly resolve bottlenecks and weaknesses in basic spare parts and components, basic software, basic materials, basic processes, and fundamental industrial technology. Leveraging the leading enterprises in relevant sectors, we will step up efforts to make major breakthroughs in important products and core technologies in key fields and work quickly to make groundbreaking progress in engineering and industrialization. We will ensure the success of projects launched to achieve breakthroughs in key technical equipment, improve the incentive and risk compensation mechanisms, and promote the demonstration and application of newly developed equipment, materials, and software. We will improve the basic industrial infrastructure support system, establish a group of national centers for manufacturing innovation in key sectors, improve national quality infrastructure, build production application demonstration platforms and standard measurement, certification and accreditation, inspection and testing, test verification, and other industrial technology public service platforms, and improve the industrial database for technology and processes.

II. Modernization of industrial chains and supply chains

To establish more innovative, higher value-added, safer, and more

础设施，建设生产应用示范平台和标准计量、认证认可、检验检测、试验验证等产业技术基础公共服务平台，完善技术、工艺等工业基础数据库。

第二节 提升产业链供应链现代化水平

坚持经济性和安全性相结合，补齐短板、锻造长板，分行业做好供应链战略设计和精准施策，形成具有更强创新力、更高附加值、更安全可靠的产业链供应链。推进制造业补链强链，强化资源、技术、装备支撑，加强国际产业安全合作，推动产业链供应链多元化。立足产业规模优势、配套优势和部分领域先发优势，巩固提升高铁、电力装备、新能源、船舶等领域全产业链竞争力，从符合未来产业变革方向的整机产品入手打造战略性全局性产业链。优化区域产业链布局，引导产业链关键环节留在国内，强化中西部和东北地区承接产业转移能力建设。实施应急产品生

reliable industrial chains and supply chains, we will pursue both economic efficiency and security, shore up our weaknesses, play to our strengths and do a good job in strategically designing supply chains and adopt targeted policies for different sectors. We will consolidate and improve the manufacturing chains, strengthen the support of resources, technology, and equipment, enhance international cooperation in industrial security, and drive the diversification of industrial and supply chains. Leveraging the industrial scale, supporting facilities, and first mover advantages in certain fields, we will consolidate and enhance the competitiveness of the whole industrial chain in sectors such as high-speed railway, electronic equipment, new energy, and shipbuilding, and create an industrial chain of overall strategic importance starting from complete machines that are in line with the direction of future industrial transformation. The plan for the regional industrial chains will be optimized to guide the key links in the chains to remain in China, and further enhance the capacity of the central and western regions and the northeast region as destinations of industrial relocation. We will implement production capacity reserve projects for emergency products and build regional bases for ensuring emergency material production. We will carry out programs to build leading enterprises that possess core competitiveness and can dominate in their respective ecosystems, support small and medium-sized enterprises to enhance their professional advantages, and foster "little giant" enterprises with high growth potential, advanced technology and strong market competitive edge as well as single-product specialists in the manufacturing industry. Technical and economic security assessment will be reinforced, and an industrial competitiveness investigation and evaluation program will be put into practice.

III. Upgrading the manufacturing industry

We will further implement intelligent manufacturing and green manufacturing projects, develop new service-oriented manufacturing models, and promote high-end, intelligent, and green manufacturing. We will foster advanced manufacturing clusters and promote the innovation and development of industries

产能力储备工程，建设区域性应急物资生产保障基地。实施领航企业培育工程，培育一批具有生态主导力和核心竞争力的龙头企业。推动中小企业提升专业化优势，培育专精特新“小巨人”企业和制造业单项冠军企业。加强技术经济安全评估，实施产业竞争力调查和评价工程。

第三节 推动制造业优化升级

深入实施智能制造和绿色制造工程，发展服务型制造新模式，推动制造业高端化智能化绿色化。培育先进制造业集群，推动集成电路、航空航天、船舶与海洋工程装备、机器人、先进轨道交通装备、先进电力装备、工程机械、高端数控机床、医药及医疗设备等产业创新发展。改造提升传统产业，推动石化、钢铁、有色、建材等原材料产业布局优化和结构调整，扩大轻工、纺织等优质产品供给，加快化工、造纸等重点行业企业改造升级，完善绿色制造体系。深入实施

such as integrated circuits, aerospace equipment, high-tech ships and ocean engineering equipment, robots, advanced railway equipment, advanced power equipment, engineering machinery, high-end CNC machine tools, medicine and medical equipment. To transform and upgrade traditional industries, we will improve the layout and adjust the structure of petrochemical, iron and steel, nonferrous metals, building materials, and other raw material industries, expand the supply of high-quality products in light and textile industries, expedite the transformation and upgrade of enterprises in chemical, papermaking, and other key industries, and improve the green manufacturing system. We will continue to implement special projects to enhance the core competitiveness and technological transformation of the manufacturing industry, encourage enterprises to adopt advanced and readily applicable technologies, and strengthen equipment upgrading and large-scale application of new products. In terms of intelligent manufacturing, we will build demonstration factories and a better system of standards. Intensified efforts will be made to enhance quality, and to encourage manufacturers to increase the variety of products, raise their quality, and build the brands.

IV. Policy support for manufacturing cost reduction

We will intensify efforts to ensure the supply of factors of production, provide efficient services, consolidate and expand the results of tax and fee cuts, reduce the production and operating costs of enterprises, and enhance the embeddedness and competitiveness of the manufacturing industry. We will work to increase the plot ratio and use efficiency of industrial land and promote new industrial land use models. We will increase medium- and long-term loans and lines of credit for manufacturing, increase loans for technological transformation, and make sure equity investment and bond financing are more heavily weighted towards manufacturing. We will permit manufacturing enterprises to participate in market-oriented electricity transaction, regulate and reduce logistics charges in port shipping, road and railway transportation, and review and standardize charges related to enterprises. We will establish a mechanism to provide full cycle

增强制造业核心竞争力和技术改造专项，鼓励企业应用先进适用技术、加强设备更新和新产品规模化应用。建设智能制造示范工厂，完善智能制造标准体系。深入实施质量提升行动，推动制造业产品“增品种、提品质、创品牌”。

第四节 实施制造业降本减负行动

强化要素保障和高效服务，巩固拓展减税降费成果，降低企业生产经营成本，提升制造业根植性和竞争力。推动工业用地提容增效，推广新型产业用地模式。扩大制造业中长期贷款、信用贷款规模，增加技改贷款，推动股权投资、债券融资等向制造业倾斜。允许制造业企业全部参与电力市场化交易，规范和降低港口航运、公路铁路运输等物流收费，全面清理规范涉企收费。建立制造业重大项目全周期服务机制和企业家参与涉企政策制定制度，支持建设中小企业信息、技术、进出口和数字化转型综合性服

第九章 发展壮大战略性新兴产业

着眼于抢占未来产业发展先机，培育先导性和支柱性产业，推动战略性新兴产业融合化、集群化、生态化发展，战略性新兴产业增加值占GDP比重超过17%。

第一节 构筑产业体系新支柱

聚焦新一代信息技术、生物技术、新能源、新材料、高端装备、新能源汽车、绿色环保以及航空航天、海洋装备等战略性新兴产业，加快关键核心技术创新应用，增强要素保障能力，培育壮大产业发展新动能。推动生物技术和信息技术融合创新，加快发展生物医药、生物育种、生物材料、生物能源等产业，做大做强生物经济。深化北斗系统推广应用，推动北斗产业高质量发展。深入推进国家战略性新兴

Chapter 9 Emerging Industries of Strategic Importance

In response to emerging technology trends, it is essential to foster pioneering and pillar industries, and promote the integrated development of emerging technology clusters of strategic importance, so that the contribution of such industries to GDP will exceed 17%.

I. New pillars of the industrial system

China will focus on the new generation of information technology, biotechnology, new energy, new materials, high-end equipment, new energy vehicles, environmental protection, aerospace, marine equipment, and other emerging industries of strategic importance, and accelerate the innovation and application of core technologies in key fields to enhance the country's capacity of ensuring supply of productive factors and foster new drivers for industrial development. We will promote the integration and innovation of biotechnology and information technology, accelerate the development of biomedicine, biological breeding, biomaterials, bioenergy, and other industries, to enhance bioeconomy in size and strength. We will continue to promote and adopt the BeiDou Navigation Satellite System and facilitate its high-quality industrial development. We will further promote projects to develop China's strategic emerging industry clusters, improve the mechanisms for organization, management, and professional promotion of industrial clusters, build public service complexes for innovation, and create growth drivers for emerging industries of strategic importance which have different characteristics, complementary advantages, and a reasonable structure. We will encourage technological innovation and the merger and restructuring of enterprises and avoid low-level replication. We will give full play to the guiding role of industrial investment funds and increase

产业集群发展工程，健全产业集群组织管理和专业化推进机制，建设创新和公共服务综合体，构建一批各具特色、优势互补、结构合理的战略性新兴产业增长引擎。鼓励技术创新和企业兼并重组，防止低水平重复建设。发挥产业投资基金引导作用，加大融资担保和风险补偿力度。

financing guarantee and risk compensation.

第二节 前瞻谋划未来产业

II. Forward-looking technology planning

在类脑智能、量子信息、基因技术、未来网络、深海空天开发、氢能与储能等前沿科技和产业变革领域，组织实施未来产业孵化与加速计划，谋划布局一批未来产业。在科教资源优势突出、产业基础雄厚的地区，布局一批国家未来产业技术研究院，加强前沿技术多路径探索、交叉融合和颠覆性技术供给。实施产业跨界融合示范工程，打造未来技术应用场景，加速形成若干未来产业。

In brain-like intelligence, quantum information, genetic technology, future network, deep-sea and aerospace exploration, hydrogen energy and energy storage, and other areas of cutting-edge technology and industrial transformation, we will organize and implement the plan for incubating and accelerating industries of the future, and plan and create a layout for such industries. In areas where we have prominent advantages in science and education resources and strong industrial foundation, we will establish a number of national research institutes on industrial technology of the future to strengthen multi-path exploration and multidisciplinary integration of cutting-edge technology and supply of disruptive technology, implement cross-sector industry integration demonstration projects, create future technology application scenarios, and accelerate the formation of industries of the future.

第十章 促进服务业繁荣发展

Chapter 10 Development of the Service Sector

聚焦产业转型升级和居民消费升级需要，扩大服务业有效供给，提高服务效率和服务品质，构建优质高效、结构优化、竞争力强的服务产业新体系。

第一节 推动生产性服务业融合化发展

以服务制造业高质量发展为导向，推动生产性服务业向专业化和价值链高端延伸。聚焦提高产业创新力，加快发展研发设计、工业设计、商务咨询、检验检测认证等服务。聚焦提高要素配置效率，推动供应链金融、信息数据、人力资源等服务创新发展。聚焦增强全产业链优势，提高现代物流、采购分销、生产控制、运营管理、售后服务等发展水平。推动现代服务业与先进制造业、现代农业深度融合，深化业务关联、链条延伸、技术渗透，支持智能制造系统解决方案、流程再造等新型专业化服务机构发展。培育具有国际竞争力的服务企

In tandem with industrial transformation, and in response to increased needs of consumers, expansion of the service sector is envisaged, requiring a major increase in service delivery, as well as in the efficiency and quality of services to build a new service sector system that is optimized and competitive.

I. Integrated development of producer services

With the aim of developing high-quality manufacturing, we will promote the specialization of producer services and their movement towards the high-end of the value chain. Focusing on industrial innovation, we will accelerate the development of R&D design, industrial design, business consulting, inspection, testing, and certification services. To allocate factors of production more efficiently, we will promote the innovative development of supply chain finance, information and data, human resources, and other services. We will strengthen the complete industrial chain and improve modern logistics, procurement and distribution, production control, operation management, and after-sales service. We will promote the in-depth integration of modern services with advanced manufacturing and modern agriculture, deepen business connections, chain extension, and technology penetration, support the development of new professional organizations offering services such as intelligent manufacturing system and process re-engineering solutions, and foster internationally competitive service enterprises.

II. Development of consumer services

To enhance convenience and improve the service experience, we will push a shift of consumer services towards higher quality and greater diversity; accelerate the development of health, elderly care, child care, culture, tourism, sports, property management, and other services; strengthen the supply of basic services oriented towards public interests; expand the supply of all kinds of services covering the whole life cycle; and continue to improve the quality and expand the scale of domestic services, to integrate them into the development of smart communities, elderly care, and

业。

第二节 加快生活性服务业品质化发展

以提升便利度和改善服务体验为导向，推动生活性服务业向高品质和多样化升级。加快发展健康、养老、托育、文化、旅游、体育、物业等服务业，加强公益性、基础性服务业供给，扩大覆盖全生命期的各类服务供给。持续推动家政服务业提质扩容，与智慧社区、养老托育等融合发展。鼓励商贸流通业态与模式创新，推进数字化智能化改造和跨界融合，线上线下全渠道满足消费需求。加快完善养老、家政等服务标准，健全生活性服务业认证认可制度，推动生活性服务业诚信化职业化发展。

第三节 深化服务领域改革开放

扩大服务业对内对外开放，进一步放宽市场准入，全面清理不合

child care. We will encourage innovation of commercial circulation and business forms and models, promote the upgrade of digital and smart technologies and cross-border integration, and fulfillment of consumer demand through online and offline omni-channel services. We will work faster to improve the standards for elderly care, domestic services, and other services, improve the certification and accreditation system for consumer services and promote the integrity and professional development of the services.

III. Reform and opening-up in the service sector

We will further open the service sector to the domestic and international markets, relax market access, comprehensively reduce unreasonable restrictions and encourage social forces to expand the provision of diversified service at various levels. We will improve the policy system supporting the development of the service sector, and develop new policies on land, taxation, finance, and pricing, which can adapt to the needs of new service business formats and models and industrial integration. We will improve the service quality standards and systems, push the implementation and promotion of the standards, accelerate the development of regulatory catalogs, processes and standards for key service industries, and build an efficient and collaborative regulatory system for the service sector. We will improve the system for appraisal of professional titles for people in the service sector, encourage employees to participate in vocational skills training and appraisal, and push forward the comprehensive pilot reform and opening-up of the service sector.

理的限制条件，鼓励社会力量扩大多元化多层次服务供给。完善支持服务业发展的政策体系，创新适应服务新业态新模式和产业融合发展需要的土地、财税、金融、价格等政策。健全服务质量标准体系，强化标准贯彻执行和推广。加快制定重点服务领域监管目录、流程和标准，构建高效协同的服务业监管体系。完善服务领域人才职称评定制度，鼓励从业人员参加职业技能培训和鉴定。深入推进服务业综合改革试点和扩大开放。

第十一章 建设现代化基础设施体系

统筹推进传统基础设施和新型基础设施建设，打造系统完备、高效实用、智能绿色、安全可靠的现代化基础设施体系。

第一节 加快建设新型基础设施

围绕强化数字转型、智能升级、融合创新支撑，布局建设信息

Chapter 11 Modern Infrastructure

A holistic approach will be adopted to infrastructure development, which covers traditional and new types of infrastructure, so as to build a modern network of infrastructure that is efficient, practical, smart, eco-friendly, safe, and reliable.

I. Construction of new types of infrastructure

With the aim of strengthening the support for digital transformation, intelligent upgrade, and integrated innovation, we will build new types of infrastructure in such areas as information technology, integration, and innovation. We will build high-speed, ubiquitous, secure, and efficient information infrastructure with a space-ground integrated network and integrated interconnection, and enhance the capabilities of data sensing, transmission, storage, and computing. We will accelerate the large-scale deployment of 5G network with the user penetration rate increasing to 56%, promote

基础设施、融合基础设施、创新基础设施等新型基础设施。建设高速泛在、天地一体、集成互联、安全高效的信息基础设施，增强数据感知、传输、存储和运算能力。加快5G网络规模化部署，用户普及率提高到56%，推广升级千兆光纤网络。前瞻布局6G网络技术储备。扩容骨干网互联节点，新设一批国际通信出入口，全面推进互联网协议第六版（IPv6）商用部署。实施中西部地区中小城市基础网络完善工程。推动物联网全面发展，打造支持固移融合、宽窄结合的物联接入能力。加快构建全国一体化大数据中心体系，强化算力统筹智能调度，建设若干国家枢纽节点和大数据中心集群，建设E级和10E级超级计算中心。积极稳妥发展工业互联网和车联网。打造全球覆盖、高效运行的通信、导航、遥感空间基础设施体系，建设商业航天发射场。加快交通、能源、市政等传统基础设施数字化改造，加强泛在感知、终端联网、智能调度体系建

the upgrade of gigabit optical network, and make arrangement for the 6G network technology reserve with foresight. We will expand the backbone network interconnection nodes, set up new international communication passageways, fully advance the commercial deployment of Internet Protocol version 6 (IPv6), and implement projects for improving basic networks in small and medium-sized cities in the central and western regions. We will promote the all-round development of the Internet of Things (IoT) and build IoT access capability that supports fixed-mobile convergence with a combination of broad and narrow bands. We will accelerate the building of an integrated national system of big data centers, strengthen the overall planning and intelligent scheduling of computing power, build national hub nodes and big data center clusters as well as E-level and 10E-level supercomputing centers. We will dynamically and stably develop the Industrial Internet and Internet of Vehicles; build a highly efficient communications, navigation, and remote sensing space infrastructure network with a global coverage, as well as establish commercial space launch sites. We will accelerate the digital transformation of traditional infrastructure for transportation, energy, and urban utilities, and intensify our efforts in developing ubiquitous sensing, terminal networking, and intelligent scheduling system. We will give full play to the leading role of the market, open up diverse channels for investment, and create a system of standards for new types of infrastructure.

II. Improving transportation

China will build a modern comprehensive transportation system, promote the integrated development of various modes of transportation, and improve the network effect and operational efficiency. We will improve the comprehensive transportation corridors, intensify the construction of strategic trunk corridors with improved access to Xinjiang and Tibet, the central and western regions, and regions along the coast, rivers, and border areas, promote in an orderly manner the upgrade and expansion of corridors in congested sections, and strengthen interconnectivity with neighboring countries. We will build a network of

设。发挥市场主导作用，打通多元化投资渠道，构建新型基础设施标准体系。

第二节 加快建设交通强国

建设现代化综合交通运输体系，推进各种运输方式一体化融合发展，提高网络效应和运营效率。完善综合运输大通道，加强出疆入藏、中西部地区、沿江沿海沿边战略骨干通道建设，有序推进能力紧张通道升级扩容，加强与周边国家互联互通。构建快速网，基本贯通“八纵八横”高速铁路，提升国家高速公路网络质量，加快建设世界级港口群和机场群。完善干线网，加快普速铁路建设和既有铁路电气化改造，优化铁路客货布局，推进普通国省道瓶颈路段贯通升级，推动内河高等级航道扩能升级，稳步建设支线机场、通用机场和货运机场，积极发展通用航空。加强邮政设施建设，实施快递“进村进厂出海”工程。推进城市群都市圈交通一体化，加快城际铁路、市域

expressways, complete the network of "eight vertical and eight horizontal" high-speed railways, improve the quality of the national highway network, and accelerate the construction of world-class port and airport clusters. We will improve the network of trunk railways, accelerate the construction of standard rail lines and the electrification of existing railways, optimize the distribution of passenger and freight railways, make progress in breaking through and upgrading bottleneck sections in normal national and provincial highways, make progress in the expansion and upgrade of high-grade inland waterways, steadily build feeder airports, general airports, and freight airports, and actively develop the general aviation industry. China will strengthen the construction of postal facilities and implement the express delivery project to ensure villages' access to the service, promote the integration between express delivery and manufacturing, and to encourage the development of international delivery service. We will promote the integration of transportation in city clusters and metropolitan areas, accelerate the construction of intercity and suburban railways, build systems of ring expressways, and develop urban rail transit in an orderly manner. We will improve the coverage of transportation services, promote the construction of regional railways and roads along the borders and leading to border areas, continue to ensure that rural roads are well built, managed, maintained, and operated, and improve road safety facilities. China will build a multi-tier and integrated transportation hub system, optimize the hub station layout, promote intensive and comprehensive development, improve the collection and distribution system, develop intermodal passenger and cargo transport, and promote the one-stop and "one bill of lading" services for the entire trip. We will also promote the construction of China-Europe Railway Express assembly centers. In addition, reforms will be thoroughly carried out in railway enterprises, the air traffic control system, and the highway toll system and maintenance mechanism.

III. Building a modern energy system

We will promote the energy revolution and build a clean, low-

（郊）铁路建设，构建高速公路环线系统，有序推进城市轨道交通发展。提高交通通达深度，推动区域性铁路建设，加快沿边抵边公路建设，继续推进“四好农村路”建设，完善道路安全设施。构建多层级、一体化综合交通枢纽体系，优化枢纽场站布局、促进集约综合开发，完善集疏运系统，发展旅客联程运输和货物多式联运，推广全程“一站式”、“一单制”服务。推进中欧班列集结中心建设。深入推进铁路企业改革，全面深化空管体制改革，推动公路收费制度和养护体制改革。

第三节 构建现代能源体系

推进能源革命，建设清洁低碳、安全高效的能源体系，提高能源供给保障能力。加快发展非化石能源，坚持集中式和分布式并举，大力提升风电、光伏发电规模，加快发展东中部分布式能源，有序发

carbon, safe, and efficient energy system to enhance energy supply capabilities. We will accelerate the development of non-fossil energy by balancing centralization and distribution, vigorously enhance the scale of wind power and photovoltaic power generation, accelerate the development of distributed energy in the central and eastern regions, ensure orderly development of offshore wind power, accelerate the construction of the southwest hydropower base, safely and steadily promote the construction of coastal nuclear power facilities, and build a number of clean energy bases featuring integrated energy development, and increase the proportion of non-fossil energy in total energy consumption to about 20%. We will promote the concentration of coal production in resource rich areas and reasonably control the scale and development pace of coal power projects to promote the replacement of coal with electricity. We will liberalize market access for petroleum and natural gas exploration and development in an orderly manner, accelerate the utilization of deep-sea, deep-seated, and unconventional petroleum and natural gas resources, and promote the increase of petroleum and natural gas reserves and production. We will develop and utilize geothermal energy according to local conditions and improve the utilization rate of UHV power transmission channels. We will accelerate the transformation of power grid infrastructure into smart infrastructure as well as the construction of smart microgrids. We will improve power system complementarity and intelligent regulation capabilities, strengthen the coordination of power source, grid, load and storage, enhance clean energy consumption and storage capabilities, and enhance transmission and distribution capacities to remote areas. We will promote flexible transformation of coal power, and accelerate the construction of pumped storage hydroelectric plants and large-scale application of new energy storage technology. We will improve cross-regional coal transportation channels and collection and distribution systems and accelerate the construction of the main natural gas pipelines and the petroleum and natural gas interconnection network.

Five-Year Plan period

IV. Construction of water conservancy infrastructure

Based on the overall and spatially balanced allocation of water resources in the drainage basins, we will strengthen the coordination between administrative divisions in river system management and protection and key project construction, and strengthen the coordination of small, medium, and large water conservancy facilities to enhance the optimal allocation of water resources as well as flood and drought disaster prevention capabilities. By prioritizing water conservation, we will improve the water resources allocation system, build key water resource allocation projects, and strengthen the development of key water sources and urban emergency backup water projects. We will implement flood control improvement projects to solve weak links, accelerate the construction of pivotal flood control projects, enhance the management of small and medium rivers, reinforce dilapidated reservoirs, and fully advance the construction of dikes and flood storage and detention basins. We will strengthen the protection and restoration of water conservation areas and the protection and comprehensive management of key rivers and lakes and restore the water ecosystem to ensure clear waters and green shores.

第四篇 形成强大国内市场 构建新发展格局

Part IV A Robust Domestic Market and a New Development Paradigm

Expanding domestic demand is of strategic importance, and

坚持扩大内需这个战略基点，加快培育完整内需体系，把实施扩大内需战略同深化供给侧结构性改革有机结合起来，以创新驱动、高质量供给引领和创造新需求，加快构建以国内大循环为主体、国内国际双循环相互促进的新发展格局。

should occur in lockstep with supply-side structural reforms, with innovation and quality improvement driving new demand. A new "dual circulation" development paradigm will assign a central role to the domestic market, with domestic and overseas markets complementing each other.

第十二章 畅通国内大循环

Chapter 12 Greater Domestic Circulation

依托强大国内市场，贯通生产、分配、流通、消费各环节，形成需求牵引供给、供给创造需求的更高水平动态平衡，促进国民经济良性循环。

More reliance on the strong domestic market, and more seamless connection of economic processes, such as production, distribution, circulation, and consumption, will help remove impediments to rational flows of factors of production, and contribute to supply-demand equilibrium, conducive to creating a virtuous economic circle.

第一节 提升供给体系适配性

I. Supply chain adaptability

深化供给侧结构性改革，提高供给适应引领创造新需求能力。适应个性化、差异化、品质化消费需求，推动生产模式和产业组织方式创新，持续扩大优质消费品、中高端产品供给和教育、医疗、养老等服务供给，提升产品服务质量和客户满意度，推动供需协调匹配。优化提升供给结构，促进农业、制造

China will deepen the supply-side structural reform and improve the ability of supply to adapt to and lead the creation of new demand. By adapting to the customized, differentiated, and quality consumption demand, and by promoting innovation in production models and industrial organization models, the country will continue to expand the supply of high-quality consumer goods, medium and high-end products, and services in education, medical care, and elderly care, and improve product service quality and customer satisfaction to promote supply and demand coordination and matching. By optimizing and improving the supply structure, we will facilitate the coordinated development of agriculture, manufacturing, services, energy resources, and other industries; accelerate the marketization of competitive links in naturally monopolistic industries and achieve effective convergence of upstream and downstream industries in production, supply, and marketing by completing the industry support system. We will

业、服务业、能源资源等产业协调发展。完善产业配套体系，加快自然垄断行业竞争性环节市场化，实现上下游、产供销有效衔接。健全市场化法治化化解过剩产能长效机制，完善企业兼并重组法律法规和配套政策。建立健全质量分级制度，加快标准升级迭代和国际标准转化应用。开展中国品牌创建行动，保护发展中华老字号，提升自主品牌影响力和竞争力，率先在化妆品、服装、家纺、电子产品等消费品领域培育一批高端品牌。

第二节 促进资源要素顺畅流动

破除制约要素合理流动的堵点，矫正资源要素失衡错配，从源头上畅通国民经济循环。提高金融服务实体经济能力，健全实体经济中长期资金供给制度安排，创新直达实体经济的金融产品和服务，增强多层次资本市场融资功能。实施房地产市场平稳健康发展长效机制，促进房地产与实体经济均衡发

improve the long-term mechanism of marketization and the rule of law to resolve excess capacity, as well as the laws, regulations, and supporting policies for enterprise mergers and acquisitions as well as restructuring; establish and improve the quality classification system, accelerate the upgrade and iteration of standards and transformation and application of international standards; and launch the Chinese brands program, including the protection and development of China Time-Honored Brands, enhance the influence and competitiveness of our own brands, take the lead to foster a number of high-end brands in cosmetics, clothing, home textiles, electronic products, and other consumer goods.

II. Smooth flows of resources

China will remove impediments to the rational flow of the factors of production, rectify the imbalance and mismatch of resource factors, and facilitate the circulation of national economy at the source. We will improve the ability of financial services serving the real economy and the institutional arrangements for medium- and long-term capital supply in the real economy, innovate financial products and services that directly impact the real economy, and enhance the financing function of the multi-tier capital market. We will implement a long-term mechanism for the steady and healthy development of the real estate market and promote the balanced development of real estate and the real economy. We will effectively improve the skills of workers, improve the quality of employment and income level, and form a virtuous circle of human capital promotion and industrial transformation and upgrade. We will improve the mechanism of free flow of factors in urban and rural areas, build a cross-region industrial transfer pattern, and promote positive interaction between urban and rural areas.

III. Strengthening the supporting role of the circulation system

We will deepen the reform of the circulation system, improve the circulation channels of goods and services, increase the circulation efficiency, and reduce the transaction costs of the whole society.

展。有效提升劳动者技能，提高就业质量和收入水平，形成人力资本提升和产业转型升级良性循环。健全城乡要素自由流动机制，构建区域产业梯度转移格局，促进城乡区域良性互动。

第三节 强化流通体系支撑作用

深化流通体制改革，畅通商品服务流通渠道，提升流通效率，降低全社会交易成本。加快构建国内统一大市场，对标国际先进规则和最佳实践优化市场环境，促进不同地区和行业标准、规则、政策协调统一，有效破除地方保护、行业垄断和市场分割。建设现代物流体系，加快发展冷链物流，统筹物流枢纽设施、骨干线路、区域分拨中心和末端配送节点建设，完善国家物流枢纽、骨干冷链物流基地设施条件，健全县乡村三级物流配送体系，发展高铁快运等铁路快捷货运产品，加强国际航空货运能力建设，提升国际海运竞争力。优化国

We will accelerate the development of a unified domestic market, optimize the market environment according to internationally advanced rules and best practices, promote the coordination and unification of standards, rules, and policies of different regions and industries, and effectively break down local protection, industry monopolies, and market segmentation. We will build a modern logistics system, accelerate the development of cold chain logistics, coordinate the construction of logistics hub facilities, key lines, regional distribution centers, and terminal distribution nodes, improve the facilities of national logistics hubs and key cold chain logistics bases, improve the logistics distribution system at county, township, and village levels, develop high-speed rail express and other railway express freight products, and strengthen the development of international air freight capacity and the competitiveness of international ocean shipping. We will optimize the international logistics channels and accelerate the formation of an interconnected, safe and efficient logistics network. We will improve the modern commercial circulation system, foster globally competitive modern circulation enterprises, support the transformation and upgrade of commercial circulation facilities such as convenience stores and farmers' markets, develop contactless trading services, and strengthen the standardization and green development of commercial circulation. We will accelerate the establishment of a resilient emergency logistics system featuring sufficient reserves and rapid responses.

IV. Policies to facilitate domestic circulation

China will maintain a reasonable level of fiscal expenditure and deficit ratio, improve tax and fee reduction policies, and build a tax system that is conducive to increasing investment by enterprises, increasing R&D investment, adjusting income distribution, and reducing the burden on consumers. We will maintain reasonably adequate liquidity, ensure the increases in money supply and aggregate financing are generally in step with economic growth in nominal terms, innovate structural policy tools to guide financial institutions in increasing support for key areas and weak links, and standardize the development of consumer credit. We will develop

际物流通道，加快形成内外联通、安全高效的物流网络。完善现代商贸流通体系，培育一批具有全球竞争力的现代流通企业，支持便利店、农贸市场等商贸流通设施改造升级，发展无接触交易服务，加强商贸流通标准化建设和绿色发展。加快建立储备充足、反应迅速、抗冲击能力强的应急物流体系。

第四节 完善促进国内大循环的政策体系

保持合理的财政支出力度和赤字率水平，完善减税降费政策，构建有利于企业扩大投资、增加研发投入、调节收入分配、减轻消费者负担的税收制度。保持流动性合理充裕，保持货币供应量和社会融资规模增速同名义经济增速基本匹配，创新结构性政策工具，引导金融机构加大对重点领域和薄弱环节支持力度，规范发展消费信贷。推动产业政策向普惠化和功能性转型，强化竞争政策基础性地位，支持技术创新和结构升级。健全与经

more inclusive industry policies with a greater emphasis on functions, strengthen the fundamental role of competition policies, and support technological innovation and structural upgrade. We will improve the systems of income distribution, social security, and public services to be commensurate with the level of economic growth.

济发展水平相适应的收入分配、社会保障和公共服务制度。

第十三章 促进国内国际双循环

立足国内大循环，协同推进强大国内市场和贸易强国建设，形成全球资源要素强大引力场，促进内需和外需、进口和出口、引进外资和对外投资协调发展，加快培育参与国际合作和竞争新优势。

第一节 推动进出口协同发展

完善内外贸一体化调控体系，促进内外贸法律法规、监管体制、经营资质、质量标准、检验检疫、认证认可等相衔接，推进同线同标同质。降低进口关税和制度性成本，扩大优质消费品、先进技术、重要设备、能源资源等进口，促进进口来源多元化。完善出口政策，优化出口商品质量和结构，稳步提高出口附加值。优化国际市场布局，引导企业深耕传统出口市场、拓展新兴市场，扩大与周边国家贸

Chapter 13 Domestic and International Circulation

Greater domestic circulation creates a dynamic domestic market, spurs trade, attracts global resources, and stimulates internal and external demand, import and export, and inbound and outbound investment. It contributes to international cooperation and helps sharpen China's competitive edge.

I. Import and export

We will improve the integrated regulatory system for internal and external trade, and better coordinate the laws and regulations, regulatory systems, business qualifications, quality standards, inspection and quarantine, certification, and accreditation in both areas. We will ensure that products sold in the home market have been produced on the same production lines, meet the same standards, and are of the same quality as those exported. We will reduce import tariffs and institutional costs, expand imports of high-quality consumer goods, advanced technology, important equipment, and energy resources, and promote the diversification of import sources; and improve export policies, optimize the quality and structure of exports, and steadily increase the added-value of exports. We will optimize the plan for the international market, guide enterprises to better explore traditional export markets, expand their presence in emerging markets and boost trade with neighboring countries, and stabilize their international market share. We will promote the transformation and upgrade of processing trade, enhance the construction of foreign trade transformation and upgrade bases, special customs supervision areas, trade promotion platforms, and international marketing service networks, accelerate the development of new models such as cross-border e-commerce and market procurement, and encourage the construction of overseas warehouses to ensure the smooth operation of the industrial and supply chains for foreign

trade. We will innovatively develop service trade, promote the pilot creation of an open platform for innovative development of service trade, and improve trade digitization. We will implement trade and investment integration projects, and ensure the success of China International Import Expo, China Import and Export Fair, China International Fair for Trade in Services (CIFTIS), and other exhibitions.

第二节 提高国际双向投资水平

II. International two-way investment

坚持引进来和走出去并重，以高水平双向投资高效利用全球资源要素和市场空间，完善产业链供应链保障机制，推动产业竞争力提升。更大力度吸引和利用外资，有序推进电信、互联网、教育、文化、医疗等领域相关业务开放。全面优化外商投资服务，加强外商投资促进和保护，发挥重大外资项目

China will continue to place equal emphasis on bringing in foreign investments and going global, make efficient use of global resources and market space with high-level two-way investment, improve the industrial and supply chain support mechanism as well as industry competitiveness, make greater efforts to attract and utilize foreign investment, and promote the opening of related businesses in the fields of telecommunications, internet, education, culture, and medical care in an orderly manner. We will comprehensively optimize foreign investment services, strengthen the promotion and protection of foreign investment, give full play to the demonstration effect of major foreign investment projects, support an increase of foreign capital investment in high-end manufacturing, high-tech, traditional manufacturing transformation and upgrade, modern services, and other fields in the central and western regions, as well as support foreign-funded enterprises to set up R&D centers and participate in national science and technology projects. We will encourage foreign-funded enterprises to reinvest their profits, innovate overseas investment methods, optimize the structure and layout of overseas investment with enterprises as the main players, and improve the risk prevention capacity and income level. We will improve the overseas producer services network and circulation system, accelerate the international development of producer services in finance, consulting, accounting, and law, and promote Chinese products, services, technologies, brands, and standards to go global. We will support enterprises to integrate into the global industrial and supply chain, improve the transnational operation capacity and level, and guide enterprises to strengthen compliance

示范效应，支持外资加大中高端制造、高新技术、传统制造转型升级、现代服务等领域和中西部地区投资，支持外资企业设立研发中心和参与承担国家科技计划项目。鼓励外资企业利润再投资。坚持企业主体，创新境外投资方式，优化境外投资结构和布局，提升风险防范能力和收益水平。完善境外生产服务网络和流通体系，加快金融、咨询、会计、法律等生产性服务业国际化发展，推动中国产品、服务、技术、品牌、标准走出去。支持企业融入全球产业链供应链，提高跨国经营能力和水平。引导企业加强合规管理，防范化解境外政治、经济、安全等各类风险。推进多双边投资合作机制建设，健全促进和保障境外投资政策和服务体系，推动境外投资立法。

management so they can prevent and resolve overseas political, economic, security, and other risks. We will promote the development of multilateral and bilateral investment cooperation mechanisms and improve policies and service systems for promoting and protecting overseas investments, as well as the legislation on overseas investment.

第十四章 加快培育完整内需体系

深入实施扩大内需战略，增强消费对经济发展的基础性作用和投

Chapter 14 Strategies to Boost Domestic Demand

Strategies to expand domestic demand will be implemented to enhance the role of consumption in economic growth and allow investment to play a key role in improving the supply structure. This shift is expected to lead to a stronger domestic market and

资对优化供给结构的关键性作用，建设消费和投资需求旺盛的强大国内市场。

第一节 全面促进消费

顺应居民消费升级趋势，把扩大消费同改善人民生活品质结合起来，促进消费向绿色、健康、安全发展，稳步提高居民消费水平。提升传统消费，加快推动汽车等消费品由购买管理向使用管理转变，健全强制报废制度和废旧家电、消费电子等耐用消费品回收处理体系，促进住房消费健康发展。培育新型消费，发展信息消费、数字消费、绿色消费，鼓励定制、体验、智能、时尚消费等新模式新业态发展。发展服务消费，放宽服务消费领域市场准入，推动教育培训、医疗健康、养老托育、文旅体育等消费提质扩容，加快线上线下融合发展。适当增加公共消费，提高公共服务支出效率。扩大节假日消费，完善节假日制度，全面落实带薪休假制度。培育建设国际消费中心城

stronger demand for consumption and investment.

I. Expanding consumption

In line with the public consumption upgrade trend, we will combine the expansion of consumption with the improvement in people's living standards, promote the green, healthy, and safe development of consumption, and steadily improve people's consumption. We will upgrade traditional consumption, accelerate the shift from purchase management to usage management for automobiles and other consumer goods, improve the mandatory end-of-life system and recycling system for used home appliances, consumer electronics, and other durables, and promote the healthy development of housing consumption. We will foster new consumption patterns, develop information consumption, digital consumption, and green consumption, and encourage the development of customization, experience, intelligence, and fashion consumption and other new business formats and models. We will develop service consumption, relax restrictions on market access in the field of service consumption, promote the improvement and expansion of consumption in education and training, medical and health care, elderly care, child care, culture, tourism, and sports, and accelerate the integration and development of online and offline consumption. We will appropriately increase public consumption and improve the efficiency of public service expenditure, and expand holiday consumption, improve the holiday system, and fully implement the paid holiday system. We will foster and build international consumption center cities, create a group of regional consumption centers, improve the integrated urban-rural consumption network, expand the coverage of e-commerce in rural areas, improve the consumption environment in counties, and promote the upgrade of rural consumption. We will improve the policy for duty-free shops in cities and build duty-free shops with Chinese characteristics. We will take measures to increase people's income and alleviate their burdens, to continuously expand the middle-income groups and release their consumption potential. We will better safeguard consumers' rights and interests, improve the quality standards and

第二节 拓展投资空间

优化投资结构，提高投资效率，保持投资合理增长。加快补齐基础设施、市政工程、农业农村、公共安全、生态环保、公共卫生、物资储备、防灾减灾、民生保障等领域短板，推动企业设备更新和技术改造，扩大战略性新兴产业投资。推进既促消费惠民生又调结构增后劲的新型基础设施、新型城镇化、交通水利等重大工程建设。面

post evaluation system as well as the systems for defective product recall, product-related injury monitoring, and product quality guarantee, and improve the diversified consumer rights protection mechanism and dispute resolution mechanism.

II. Expanding investment opportunities

We will optimize the investment structure, improve the investment efficiency, and maintain reasonable investment growth. We will move faster to strengthen weak areas in infrastructure, urban utilities, agriculture and rural areas, public safety, ecological and environmental protection, public health, material reserves, disaster prevention and mitigation, people's livelihood, and other fields, promote the upgrade of enterprise equipment and technological transformation, and expand investment in emerging industries of strategic importance. We will promote major projects concerning new infrastructure, new urbanization, transportation, and water conservancy that will not only boost consumption and benefit people's livelihood, but also help adjust the structure to gain more momentum. To serve the major national strategies, we will implement major projects such as the Sichuan-Tibet Railway, the new western land-sea corridor, the national water network, hydropower development in the lower reaches of the Yarlung Zangbo River, interstellar exploration, and the industrial development of BeiDou Navigation Satellite System, and promote major research facilities and projects in the areas of ecosystem protection and restoration, public health emergency response, water diversion, flood control, disaster reduction, power and gas transmission, and transportation along the coast, rivers, and border areas, thereby providing a solid foundation, increased functions, and long-term benefits. We will deepen investment and financing reforms, leverage the government's role in investment to stimulate private investments, and establish a market-oriented endogenous growth mechanism for investment. We will improve project planning, reserve and promotion mechanism, increase the support for capital, land, and other factors of production, and accelerate the implementation of investment projects. We will standardize and promote public-private partnership (PPP) in an orderly manner,

第五篇 加快数字化发展 建设数字中国

迎接数字时代，激活数据要素潜能，推进网络强国建设，加快建

Part V An Initiative to Build a Digital China

We will embrace the digital era, unlock the potential of big data, build China's strength in cyberspace, accelerate the development of a digital economy, a digital society, and a digital government, and transform the pattern of production, lifestyle, and governance models through digital transformation.

设数字经济、数字社会、数字政府，以数字化转型整体驱动生产方式、生活方式和治理方式变革。

第十五章 打造数字经济新优势

充分发挥海量数据和丰富应用场景优势，促进数字技术与实体经济深度融合，赋能传统产业转型升级，催生新产业新业态新模式，壮大经济发展新引擎。

第一节 加强关键数字技术创新应用

聚焦高端芯片、操作系统、人工智能关键算法、传感器等关键领域，加快推进基础理论、基础算法、装备材料等研发突破与迭代应用。加强通用处理器、云计算系统和软件核心技术一体化研发。加快布局量子计算、量子通信、神经芯片、DNA存储等前沿技术，加强信息科学与生命科学、材料等基础学科的交叉创新，支持数字技术开源社区等创新联合体发展，完善开源

Chapter 15 Pole Position in the Digital Economy

We cannot afford not to tap into the huge potential big data and its innumerable use cases. Greater integration of digital technology and the real economy will power the transformation and upgrading of traditional industries, and the development of new industries, new forms of business, and new models, which can be new drivers of economic growth.

I. Key digital technologies: innovation and application

Our focus will be on high-end chips, operating systems, key artificial intelligence algorithms, sensors, and other key fields. We will gather pace in making breakthroughs in the research and development of basic theories, basic algorithms and equipment materials and promoting their iterative application. The integrated research and development of general-purpose processors, cloud computing systems, and core software technologies will be pushed forward. Cutting-edge technologies will be developed faster, including quantum computing, quantum communications, neuro-chips, and DNA storage. Innovation will be boosted across information science, life science, materials and other basic disciplines, along with support for the development of innovation consortia including open source communities, improve open source intellectual property rights and legal systems. Enterprises will be encouraged to make available open source codes, hardware design, and application services.

II. Development of digital industries

Emerging digital industries including artificial intelligence, big data, blockchain, cloud computing, and cybersecurity will be grown stronger, and the quality of such industries as communications

知识产权和法律体系，鼓励企业开放软件源代码、硬件设计和应用服务。

第二节 加快推动数字产业化

培育壮大人工智能、大数据、区块链、云计算、网络安全等新兴数字产业，提升通信设备、核心电子元器件、关键软件等产业水平。构建基于5G的应用场景和产业生态，在智能交通、智慧物流、智慧能源、智慧医疗等重点领域开展试点示范。鼓励企业开放搜索、电商、社交等数据，发展第三方大数据服务产业。促进共享经济、平台经济健康发展。

第三节 推进产业数字化转型

实施“上云用数赋智”行动，推动数据赋能全产业链协同转型。在重点行业和区域建设若干国际水准的工业互联网平台和数字化转型促进中心，深化研发设计、生产制造、经营管理、市场服务等环节的

equipment, core electronic components, and key software will be improved. Efforts will be made to develop 5G-based application scenarios and industrial ecosystems, and carry out pilot and demonstration projects in smart transportation, smart logistics, smart energy, smart medical care, and other key fields. Enterprises will be encouraged to provide open access to search, e-commerce, social, and other data. Third-party big data services will be developed, and the healthy growth of the sharing economy and the platform economy will be boosted.

III. Digital transformation of traditional industries

We will press ahead with cloud-based big data and AI initiatives and promote the data-based collaborative transformation of the entire industrial chain. A number of industrial internet platforms and digital transformation promotion centers up to international standards will be built in key industries and regions. Digital applications will be promoted in R&D and design, manufacturing, operation and management, and market services, new models including customization and flexible manufacturing will developed, and the digital transformation of industrial parks will be accelerated. Digital transformation will be pushed through in the service sector, identify and new sources of growth will be identified, such as crowdsourcing design, smart logistics, and new retail. We will move faster in developing smart agriculture and transform agricultural production, operations, management, and services with digital technologies.

数字化应用，培育发展个性定制、柔性制造等新模式，加快产业园区数字化改造。深入推进服务业数字化转型，培育众包设计、智慧物流、新零售等新增长点。加快发展智慧农业，推进农业生产经营和管理服务数字化改造。

第十六章 加快数字社会建设步伐

适应数字技术全面融入社会交往和日常生活新趋势，促进公共服务和社会运行方式创新，构筑全民畅享的数字生活。

第一节 提供智慧便捷的公共服务

聚焦教育、医疗、养老、抚幼、就业、文体、助残等重点领域，推动数字化服务普惠应用，持续提升群众获得感。推进学校、医院、养老院等公共服务机构资源数字化，加大开放共享和应用力度。

Chapter 16 A Digital Society

Greater integration of digital technologies into social interactions and people's daily life calls for innovation in public services to ensure that the way our society functions better responds to the digital needs of all people.

I. Smart and easily accessible public services

Digital services will be applied widely, especially to education, healthcare, elderly care, childcare, employment, culture and sports, care for people with disabilities, and other key areas, ensuring that people have a growing sense of fulfilment. Resources in schools, hospitals, nursing homes, and other public service institutions will be digitalized to offer easier access to them and boost their application. Online and offline public services will be developed at the same time and their in-depth integration will be promoted. More efforts will be channeled into developing online classrooms, internet-based hospitals, and smart libraries. High-standard public service institutions will be encouraged to reach communities, remote areas, and underdeveloped areas. The coverage of high-quality public service resources will be expanded. Progress will be made in developing smart courts. Non-governmental actors will be encouraged to participate in the

推进线上线下公共服务共同发展、深度融合，积极发展在线课堂、互联网医院、智慧图书馆等，支持高水平公共服务机构对接基层、边远和欠发达地区，扩大优质公共服务资源辐射覆盖范围。加强智慧法院建设。鼓励社会力量参与“互联网+公共服务”，创新提供服务模式和产品。

第二节 建设智慧城市和数字乡村

以数字化助推城乡发展和治理模式创新，全面提高运行效率和宜居度。分级分类推进新型智慧城市建设，将物联网感知设施、通信系统等纳入公共基础设施统一规划建设，推进市政公用设施、建筑等物联网应用和智能化改造。完善城市信息模型平台和运行管理服务平台，构建城市数据资源体系，推进城市数据大脑建设。探索建设数字孪生城市。加快推进数字乡村建设，构建面向农业农村的综合信息服务体系，建立涉农信息普惠服务

"Internet + public services" initiative, and provide innovative service models and products.

II. Smart cities and digital villages

Digital technologies will be used to help develop urban and rural areas and introduce new approaches to governance for better efficiency and livability. New smart cities in different categories will be developed, IoT sensing facilities and communications systems will be incorporated in the overall planning and development of public infrastructure, and municipal utilities and buildings will be transformed with IoT applications. Efforts will be made to improve city information modeling (CIM) platforms and service platforms, and build city data systems to develop city brains. The creation of digital twin cities will be explored and faster progress will be made in the development of digital countryside. A comprehensive information service system will be established for agriculture and rural areas, along with an inclusive agriculture-related information service mechanism, and rural management and services will be digitalized.

III. A new blueprint for digital life

We will promote the digitization of all real-life scenarios such as shopping, home life, tourism, leisure activities, and transportation to create a new digital life based on the sharing of knowledge and co-governance. Smart communities and smart service circles will be developed to benefit the people relying on digital platforms and offline community service institutions, and services online and offline will be integrated, such as community life services, community governance and public services, and smart community services. A richer diversity of digital life experiences will be introduced along with more digital homes. Digital skills education and training will be boosted to promote the digital literacy of the general public, and information accessibility will be improved to help the elderly and people with disabilities embrace the digital life.

机制，推动乡村管理服务数字化。

第三节 构筑美好数字生活新图景

推动购物消费、居家生活、旅游休闲、交通出行等各类场景数字化，打造智慧共享、和睦共治的新型数字生活。推进智慧社区建设，依托社区数字化平台和线下社区服务机构，建设便民惠民智慧服务圈，提供线上线下融合的社区生活服务、社区治理及公共服务、智能小区等服务。丰富数字生活体验，发展数字家庭。加强全民数字技能教育和培训，普及提升公民数字素养。加快信息无障碍建设，帮助老年人、残疾人等共享数字生活。

第十七章 提高数字政府建设水平

将数字技术广泛应用于政府管理服务，推动政府治理流程再造和模式优化，不断提高决策科学性和服务效率。

Chapter 17 Digital Government

Increased integration of digital technologies into government services will help remake governance processes, improve services, and lead to more rational decision-making and greater efficiency.

I. Open access to and sharing of public data

A sound public data resource system will be put in place to ensure the security of public data, and promote the convergence and utilization of data across departments, levels, and regions. The

第一节 加强公共数据开放共享

建立健全国家公共数据资源体系，确保公共数据安全，推进数据跨部门、跨层级、跨地区汇聚融合和深度利用。健全数据资源目录和责任清单制度，提升国家数据共享交换平台功能，深化国家人口、法人、空间地理等基础信息资源共享利用。扩大基础公共信息数据安全有序开放，探索将公共数据服务纳入公共服务体系，构建统一的国家公共数据开放平台和开发利用端口，优先推动企业登记监管、卫生、交通、气象等高价值数据集向社会开放。开展政府数据授权运营试点，鼓励第三方深化对公共数据的挖掘利用。

第二节 推动政务信息化共建共用

加大政务信息化建设统筹力度，健全政务信息化项目清单，持续深化政务信息系统整合，布局建

data resource catalogs and responsibility lists will be improved and the functions of national data sharing and exchange platforms upgraded to advance the sharing and utilization of basic information resources including national population, legal person, and geospatial data. Open access to basic public data will be expanded in a safe and orderly way, public data services will be integrated into the public service system, and an open national public data platform will be built, along with dedicated development and utilization ports. Priority will be given to high-value data sets in the fields of enterprise registration and supervision, health, transportation, and meteorology that are open to the public. Pilot projects on authorized operation of government data will be carried out and third parties will be encouraged to advance the mining and utilization of public data.

II. IT-enabled transformation of government services for all

Intensified efforts will be made to develop an IT-enabled government, improve the list of government information projects, and deepen the integration of government information systems. Major information systems will be developed, including those about governance capacity, rule of law, economic governance, market supervision, public security, and the environment. Cross-sector collaboration will be fostered in governance. China's e-government network will be improved, and cloud platforms and data center system will be built to promote the cloud migration of government information systems which will be upgraded rapidly for a greater capacity to expand flexibly.

III. Digitalization and efficient service delivery

We will work to make sure the government functions, and delivers services in a more digital and smarter way. The "Internet + government services" initiative will be advanced to upgrade the functions of integrated online service platforms. Digital technologies will be used to facilitate government decision-making and improve the quality of accurate dynamic monitoring, prediction, and early warning based on high-frequency big data. They will also

设执政能力、依法治国、经济治理、市场监管、公共安全、生态环境等重大信息系统，提升跨部门协同治理能力。完善国家电子政务网络，集约建设政务云平台和数据中心体系，推进政务信息系统云迁移。加强政务信息化建设快速迭代，增强政务信息系统快速部署能力和弹性扩展能力。

be applied widely in the response to public health emergencies, natural disasters, accidents, public safety incidents, and other public emergencies to increase the capacity for early warning and emergency response.

第三节 提高数字化政务服务效能

全面推进政府运行方式、业务流程和服务模式数字化智能化。深化“互联网+政务服务”，提升全流程一体化在线服务平台功能。加快构建数字技术辅助政府决策机制，提高基于高频大数据精准动态监测预测预警水平。强化数字技术在公共卫生、自然灾害、事故灾难、社会安全等突发公共事件应对中的运用，全面提升预警和应急处置能力。

第十八章 营造良好数字生态

Chapter 18 A Healthy Digital Ecosystem

坚持放管并重，促进发展与规范管理相统一，构建数字规则体系，营造开放、健康、安全的数字生态。

Regulatory overreach should be rolled back where it hurts business dynamism while regulation will be strengthened wherever necessary in our effort to create an open, safe, and healthy rules-based digital ecosystem.

第一节 建立健全数据要素市场规则

I. Data protection regulation

统筹数据开发利用、隐私保护和公共安全，加快建立数据资源产权、交易流通、跨境传输和安全保护等基础制度和标准规范。建立健全数据产权交易和行业自律机制，培育规范的数据交易平台和市场主体，发展数据资产评估、登记结算、交易撮合、争议仲裁等市场运营体系。加强涉及国家利益、商业秘密、个人隐私的数据保护，加快推进数据安全、个人信息保护等领域基础性立法，强化数据资源全生命周期安全保护。完善适用于大数据环境下的数据分类分级保护制度。加强数据安全评估，推动数据跨境安全有序流动。

A balance will be achieved between data development and utilization, privacy protection, and public security, and basic systems and standards concerning data rights, transactions, circulation, cross-border transmission, and security protection will be developed at a faster pace. Sound mechanisms for data rights trading and industry self-regulation will be put in place and well-regulated data trading platforms and business entities will be fostered. The market systems for data asset evaluation, registration and settlement, trading, dispute arbitration, etc. will be developed. The data involving national interests, trade secrets, and personal privacy will be better protected and basic legislation in the fields of data security and personal information protection will be accelerated to strengthen data security protection in the whole life cycle. The classified and multi-level data protection will be improved to adapt to the big data environment. Efforts will be made to strengthen data security assessment and promote the safe and orderly flow of data across borders.

第二节 营造规范有序的政策

II. An enabling policy environment

Policies and regulations favorable for the digital economy will be introduced, along with better rules for managing the sharing economy, the platform economy, and the new individual economy. Improper items requiring administrative approval and qualifications will be cancelled and platform enterprises will be supported in pursuing innovative development and building their international competitiveness. Activities on internet platforms will be overseen in accordance with laws and regulations, the positioning and regulatory rules of platform enterprises will be clarified, and the legal framework of business monopoly identification will be improved, while business monopolies and unfair competition will

第三节 加强网络安全保护

健全国家网络安全法律法规和制度标准，加强重要领域数据资源、重要网络和信息系统安全保障。建立健全关键信息基础设施保护体系，提升安全防护和维护政治安全能力。加强网络安全风险评估和审查。加强网络安全基础设施建设，强化跨领域网络安全信息共享

be fought. Efforts will also be made to explore the possibility of creating regulatory frameworks for unmanned driving, online medical services, financial technology, smart delivery service, etc., improve relevant laws, regulations and ethical review rules, and foster a better statistical monitoring system for the digital economy.

III. Cybersecurity

Efforts will be made to improve national cybersecurity laws, regulations, and standards, and intensify efforts to protect the security of data resources in important fields, important networks, and important information systems. A sound key information infrastructure protection system will be put in place to increase the capacity for security protection and political security maintenance. Cybersecurity risk assessment and review will be advanced, along with the development of cybersecurity infrastructure, cross-sector cybersecurity information sharing and collaboration, and the capacity for cybersecurity threat detection, monitoring and early warning, emergency command, and cyber attack tracing. Efforts will be stepped up to develop key technologies for cybersecurity, accelerate technological innovation in artificial intelligence for security, build the comprehensive competitiveness of the cybersecurity industry, and promote cybersecurity education and related personnel training.

IV. A global cybercommunity with a shared future

International exchanges and cooperation in cyberspace will be promoted, along with the formulation of international digital and cyber rules, and the United Nations will be considered the main channel and the Charter of the United Nations the source of basic principles. More will be done to establish a multilateral, democratic, and transparent global internet governance system and create a fairer and more reasonable cyberspace infrastructure and resource governance mechanism. We will actively participate in the development of international rules and digital technology standards including those on data security, digital currencies, and digital taxes; promote the development of global cyberspace security

和工作协同，提升网络安全威胁发现、监测预警、应急指挥、攻击溯源能力。加强网络安全关键技术研发，加快人工智能安全技术创新，提升网络安全产业综合竞争力。加强网络安全宣传教育和人才培养。

第四节 推动构建网络空间命运共同体

推进网络空间国际交流与合作，推动以联合国为主渠道、以联合国宪章为基本原则制定数字和网络空间国际规则。推动建立多边、民主、透明的全球互联网治理体系，建立更加公平合理的网络基础设施和资源治理机制。积极参与数据安全、数字货币、数字税等国际规则和数字技术标准制定。推动全球网络安全保障合作机制建设，构建保护数据要素、处置网络安全事件、打击网络犯罪的国际协调合作机制。向欠发达国家提供技术、设备、服务等数字援助，使各国共享数字时代红利。积极推进网络文化

cooperation mechanisms, and build an international coordination and cooperation mechanism to protect data factors, handle cybersecurity incidents, and combat cybercrimes; provide digital assistance including technology, equipment, and services to less developed countries, so that all countries can share the dividends of the digital era; and actively promote cultural exchanges and mutual learning on the internet.

交流互鉴。

第六篇 全面深化改革 构建高水平社会主义市场经济体制

坚持和完善社会主义基本经济制度，充分发挥市场在资源配置中的决定性作用，更好发挥政府作用，推动有效市场和有为政府更好结合。

Part VI Comprehensive and In-depth Reform to Develop a Well-functioning Socialist Market Economy

Efforts will be ongoing to improve our socialist economic system to allow the market to play a decisive role in allocating resources while improving government regulation, so as to create synergy between an efficient market and a well-functioning government.

第十九章 激发各类市场主体活力

毫不动摇巩固和发展公有制经济，毫不动摇鼓励、支持、引导非公有制经济发展，培育更有活力、创造力和竞争力的市场主体。

Chapter 19 Market Dynamism

With the public sector as the core of our economy, the government encourages, supports, and guides the development of the non-public sector, and is committed to creating an enabling environment to allow more dynamic, creative, and competitive business entities to thrive.

第一节 加快国有经济布局优化和结构调整

I. State-owned enterprise reform

围绕服务国家战略，坚持有进有退、有所为有所不为，加快国有经济布局优化、结构调整和战略性重组，增强国有经济竞争力、创新

To better serve national strategies, we will make plans on where to advance and where to withdraw, what to do and what not to do, accelerate layout improvement, structural adjustment, and strategic restructuring for the state-owned sector and enhance its competitiveness, innovation, control, influence, and risk resistance capacity. We will also work to strengthen, expand, and increase the returns on state capital and enhance the strength, quality, and size of state-owned enterprises. The strategic support of the state-owned sector will be brought into full play, so that it can focus more on helping to ensure strategic security, promote industry leadership, bolster the national economy, raise people's living

力、控制力、影响力、抗风险能力，做强做优做大国有资本和国有企业。发挥国有经济战略支撑作用，推动国有经济进一步聚焦战略安全、产业引领、国计民生、公共服务等功能，调整盘活存量资产，优化增量资本配置，向关系国家安全、国民经济命脉的重要行业集中，向提供公共服务、应急能力建设和公益性等关系国计民生的重要行业集中，向前瞻性战略性新兴产业集中。对充分竞争领域的国有经济，强化资本收益目标和财务硬约束，增强流动性，完善国有资本优化配置机制。建立布局结构调整长效机制，动态发布国有经济布局优化和结构调整指引。

第二节 推动国有企业完善中国特色现代企业制度

坚持党对国有企业的全面领导，促进加强党的领导和完善公司治理相统一，加快建立权责法定、权责透明、协调运转、有效制衡的公司治理机制。加强董事会建设，

standards, improve public services, and other functions. We will adjust and revitalize stock assets, improve the allocation of incremental capital, and move towards important industries concerning national security and the lifeline of the national economy, industries that provide public services and concern capacity building for emergency response, public welfare, etc. as well as emerging industries of strategic and progressive significance. For the part of the state-owned sector in fully competitive fields, we will give greater emphasis to capital gains targets and financial constraints, enhance liquidity, and improve the mechanism for optimal allocation of state capital. A long-term mechanism will be created for layout improvement and structural adjustment of the state-owned sector, and guidelines in this regard will be issued dynamically.

II. State-owned enterprise modernization with Chinese characteristics

We will uphold the Party's leadership in all spheres of work of state-owned enterprises, balance the endeavor to strengthen the Party's leadership and that to improve corporate governance, and accelerate the establishment of a corporate governance mechanism featuring statutorily-defined and transparent rights and responsibilities, coordinated operations, and effective checks and balances. Efforts will also be made to facilitate the establishment of boards of directors and clearly define their functions and powers, making them the main bodies of business decision-making. In accordance with the requirements of improving governance, strengthening incentives, highlighting the main business and increasing efficiency, we will push ahead with mixed-ownership reform in state-owned enterprises by radically transforming the operation mechanism, and exploring the introduction of governance mechanism and supervision system for mixed-ownership enterprises that are different from those of solely state-owned and wholly owned companies. We will put in practice a tenure system and contractual management for managers, improve the market-oriented salary distribution mechanism, and

落实董事会职权，使董事会成为企业经营决策主体。按照完善治理、强化激励、突出主业、提高效率的要求，深化国有企业混合所有制改革，深度转换经营机制，对混合所有制企业探索实行有别于国有独资、全资公司的治理机制和监管制度。推行经理层成员任期制和契约化管理，完善市场化薪酬分配机制，灵活开展多种形式的中长期激励。

第三节 健全管资本为主的国有资产监管体制

坚持授权与监管相结合、放活与管好相统一，大力推进国资监管理念、重点、方式等多方位转变。优化管资本方式，全面实行清单管理，深入开展分类授权放权，注重通过法人治理结构履职，加强事中事后监管。深化国有资本投资、运营公司改革，科学合理界定政府及国资监管机构，国有资本投资、运营公司和所持股企业的权利边界。健全协同高效的监督机制，严格责

flexibly offer medium- and long-term incentives in various forms.

III. State-owned assets oversight to prevent, in particular, illegal diversion of funds

Ongoing efforts will be made to combine authorization and supervision as well as decentralization and management, and promote the transformation of state-owned asset supervision in terms of concept, focus, and modes. We will improve the approach to capital management, practice list-based management and classified authorization and decentralization, lay emphasis on performing duties through the corporate governance structure and strengthen ongoing and ex post oversight. We will deepen the reform of state capital investment and operation companies, and define the scope of rights of the government and state capital regulatory agencies, state capital investment and operation companies, and their subsidiaries in a scientific and reasonable manner. We will also improve the collaborative and efficient supervision mechanism and enforce accountability to prevent the loss of state-owned assets, and accelerate the centralized and unified supervision of for-profit state-owned assets.

IV. A favorable business environment for private enterprises

Enabling legal, policy, and market environments will be fostered for the development of private enterprises and protect their property rights and the rights and interests of entrepreneurs on an equal basis in accordance with the law. We will ensure that private enterprises have equal access to resource factors in accordance with the law, and that they can compete in an open, fair, and just manner, and enjoy equal legal protection. Market access will be expanded for private enterprises and various barriers in bidding and other fields will be broken down. New policy instruments will be developed to provide financial support for private enterprises, improve the financing and credit enhancement system, treat private enterprises as equals in their credit rating and bond issuance, and lower overall financing costs. The policy system will be improved for promoting the development of micro, small, and

任追究，切实防止国有资产流失。加快推进经营性国有资产集中统一监管。

第四节 优化民营企业发展环境

健全支持民营企业发展的法治环境、政策环境和市场环境，依法平等保护民营企业产权和企业家权益。保障民营企业依法平等使用资源要素、公开公平公正参与竞争、同等受到法律保护。进一步放宽民营企业市场准入，破除招投标等领域各种壁垒。创新金融支持民营企业政策工具，健全融资增信支持体系，对民营企业信用评级、发债一视同仁，降低综合融资成本。完善促进中小微企业和个体工商户发展的政策体系，加大税费优惠和信贷支持力度。构建亲清政商关系，建立规范化政企沟通渠道。健全防范和化解拖欠中小企业账款长效机制。

第五节 促进民营企业高质量

medium enterprises and self-employed individuals, and give more preferential tax treatment and credit support. We will build a cordial and clean relationship between government and business, establish standardized communication channels between government and enterprises, and improve the long-term mechanism for preventing and resolving payment arrears to small and medium enterprises.

V. Policy support for private-sector development with a focus on quality improvement

We will encourage the reform and innovation initiatives of private enterprises to improve their operation and management capacity, and guide qualified private enterprises to adopt a modern enterprise system. Private enterprises will be encouraged to carry out basic research and technological innovation, participate in the research and development of key and core technologies, and undertake key national science and technology projects. A better mechanism will be introduced for private enterprises to participate in the implementation of major national strategies, and they will be encouraged to operate in accordance with laws and regulations, actively fulfill their social responsibilities and participate in charitable initiatives. We will also work to foster entrepreneurship and implement the plan to promote the healthy growth of young entrepreneurs.

发展

鼓励民营企业改革创新，提升经营能力和管理水平。引导有条件的民营企业建立现代企业制度。支持民营企业开展基础研究和科技创新、参与关键核心技术研发和国家重大科技项目攻关。完善民营企业参与国家重大战略实施机制。推动民营企业守法合规经营，鼓励民营企业积极履行社会责任、参与社会公益和慈善事业。弘扬企业家精神，实施年轻一代民营企业家健康成长促进计划。

第二十章 建设高标准市场体系

实施高标准市场体系建设行动，健全市场体系基础制度，坚持平等准入、公正监管、开放有序、诚信守法，形成高效规范、公平竞争的国内统一市场。

第一节 全面完善产权制度

健全归属清晰、权责明确、保

Chapter 20 A Unified Market that Adheres to High Standards

Proactive action will be taken to build an efficient, well-regulated, unified domestic market that adheres to high standards, with necessary institutional support in place to ensure equal access, fair competition, impartial oversight, openness, orderliness, good faith conduct, and legal compliance.

I. Protection of property rights

The modern property rights system will be improved to ensure clear ownership, well-defined rights and obligations, strict protection, and smooth transactions. With the civil code put into implementation, we will formulate laws and regulations on property rights, including real rights, creditor's rights and stock rights, and revise them to clarify the ownership of property rights and improve the powers and functions of property rights. We will improve the

第二节 推进要素市场化配置改革

建立健全城乡统一的建设用地市场，统筹推进农村土地征收、集体经营性建设用地入市、宅基地制度改革。改革土地计划管理方式，赋予省级政府更大用地自主权，探索建立全国性的建设用地、补充耕地指标跨区域交易机制。建立不同产业用地类型合理转换机制，增加

property rights protection system based on the principle of fairness and give equal protection to the property rights of enterprises under all forms of ownership, including state-owned, private, and foreign-funded enterprises, in accordance with the law. Efforts will be made to improve the judicial protection system for property law enforcement and protection mechanisms such as the appeal, review, and retrial of enterprise-related property rights cases. We will make it a normal practice to screen and correct wrongful cases involving enterprises in accordance with the law and develop smooth channels for the reporting and handling of government-related property rights disputes. We will strengthen the development of the property rights system in the fields of data, knowledge, and the environment, and improve the property rights system and laws and regulations related to natural resource assets.

II. Reforms to facilitate market-based allocation of production factors

A sound unified rural-urban market will be created for land designated for construction purposes, and reforms on rural land expropriation, the marketing of rural collectively-owned land designated for business-related construction, and rural land designated for housing will be pushed forward. Efforts will also be made to reform land-use planning and management practices, grant provincial-level governments more decision-making power over the development of land, and explore the establishment of a nationwide mechanism for cross-regional trading of land for construction and newly-added cropland quotas. A mechanism will be created for the proper conversion of different types of land designated for industrial purposes and increase the supply of land for mixed industries. We will improve the unified and well-regulated human resource market, remove barriers to the flow of workforce and talents between urban and rural areas, between different regions, and between organizations of different types of ownership, and rescind excessive restrictions on personnel file management. Further progress will be made in the efforts to develop technology and data factor markets, improve the operational mechanism of the

第三节 强化竞争政策基础地位

坚持鼓励竞争、反对垄断，完善竞争政策框架，构建覆盖事前、事中、事后全环节的竞争政策实施机制。统筹做好增量审查与存量清理，强化公平竞争审查制度的刚性约束，完善公平竞争审查细则，持续清理废除妨碍全国统一市场和公平竞争的规定及做法。完善市场竞争状况评估制度，建立投诉举报和处理回应机制。加大反垄断和反不正当竞争执法司法力度，防止资本无序扩张。推进能源、铁路、电信、公用事业等行业竞争性环节市场化改革，放开竞争性业务准入，

factor markets as well as trading rules and service system, and deepen the integration and sharing of public resource trading platforms.

III. A pivotal role for competition policies

Continued efforts will be made to encourage competition and guard against monopoly, improve the competition policy framework, and create a competition policy implementation mechanism covering every stage of the whole process. Conduct incremental review and stock clearance will be properly conducted, fair competition reviews will be carried out to strengthen rigid constraints while the detailed rules in this regard will be improved, and more will be done to abolish regulations and practices that impede the development of a unified market and fair competition nationwide. We will improve the market competition evaluation system and establish a complaint filing and handling mechanism. Law enforcement against monopolies and unfair competition will be stepped up and capital expansion will be regulated. We will promote market-oriented reforms in competitive operations in such sectors as energy, railways, telecommunications, and public utilities, expand market access for competitive operations, introduce more market competition mechanisms, and strengthen oversight over natural monopoly industries.

IV. Social credit system

A sound system of credit-related laws, regulations, and standards will be put in place, together with a catalog of public credit information and a list of disciplinary measures for dishonest practices, and the credit repair mechanism for defaulters will be improved. Efforts will be made to promote the credit commitment system, boost the collection, sharing, disclosure, and application of credit information, promote credit products and services that benefit people and enterprises, and establish a mechanism for the sharing and integration of public credit information and financial information. More will be done to foster internationally competitive enterprise credit reference agencies and credit rating agencies,

进一步引入市场竞争机制，加强对自然垄断业务的监管。

第四节 健全社会信用体系

建立健全信用法律法规和标准体系，制定公共信用信息目录和失信惩戒措施清单，完善失信主体信用修复机制。推广信用承诺制度。加强信用信息归集、共享、公开和应用，推广惠民便企信用产品与服务。建立公共信用信息和金融信息的共享整合机制。培育具有国际竞争力的企业征信机构和信用评级机构，加强征信监管，推动信用服务市场健康发展。加强信用信息安全管理，保障信用主体合法权益。建立健全政府失信责任追究制度。

strengthen supervision over credit investigation, and promote the healthy development of the credit service market. Intensified efforts will be made to manage the security of credit information, protect the legitimate rights and interests of entities whose credit information is gathered, and establish a sound accountability system for government administration dishonesty.

第二十一章 建立现代财税金融体制

更好发挥财政在国家治理中的基础和重要支柱作用，增强金融服务实体经济能力，健全符合高质量发展要求的财税金融制度。

Chapter 21 Fiscal Policy, Taxation, and the Financial System

Fiscal policy should play a fundamental role in state governance. Financial services should better serve the real economy. Fiscal policy, taxation, and the financial system should respond to the need for development with a focus on quality improvement.

I. Fiscal policy

Efforts will be made to deepen reform of the budget management system, strengthen the macro guidance, review, and supervision of budget compilation, promote the overall planning of financial

resources, standardization of financial expenditure, budget constraints and performance management. The multi-year budget balancing mechanism will be improved, along with medium-term financial planning management, to bolster financial support for major strategic tasks of the country. We will establish a fiscal relationship between central and local governments built on clearly defined powers and responsibilities, appropriate financial resource allocation, and greater balance between regions; appropriately strengthen the central government's authority over intellectual property protection, pension insurance and cross-regional environmental protection; and reduce and regulate the common authority of central and local governments. We will improve the financial system at and below the provincial level and enhance the capacity to provide public services at the community level; create a better financial transfer payment system and a better transfer payment structure, and regulate the transfer payment items; improve the system for comprehensive government financial reporting based on accrual accounting; and establish a well-regulated government debt financing mechanism.

II. Taxation

We will seek to improve the structure of the tax system and the direct tax system, appropriately increase the proportion of direct taxes, create a better personal income tax system, expand the scope of comprehensive collection, and improve the tax rate structure. More will be done to improve the value-added tax (VAT) system by stabilizing the manufacturing industry and consolidating the industry and supply chains. We will also adjust and improve the scope of excise tax collection and the excise tax rate, make moves towards collecting excise tax at a point further downstream in the production-to-consumption process and hand it over to local governments in a stable way. Progress will be made in the endeavor to regulate and improve tax preferences, step up legislation on real estate taxation, improve local tax systems, and hand over more tax-related administrative powers to local governments step by step. 第三节 深化金融供给侧结构性改革

健全具有高度适应性、竞争力、普惠性的现代金融体系，构建金融有效支持实体经济的体制机制。建设现代中央银行制度，完善货币供应调控机制。稳妥推进数字货币研发。健全市场化利率形成和传导机制，完善央行政策利率体系，更好发挥贷款市场报价利率基准作用。优化金融体系结构，深化国有商业银行改革，加快完善中小银行和农村信用社治理结构，规范

The modern financial system that is adaptive, competitive, and inclusive will be improved and institutions and mechanisms will be put in place for the financial sector to effectively support the real economy. Efforts will be made to build a modern central bank system and improve the money supply regulation mechanism and steadily promote the research and development of digital currency. More will be done to improve the market-based interest rate mechanism and the transmission mechanism, the central bank's policy interest rate system, and give better play to the benchmark role of the loan prime rate (LPR) mechanism. A better structure of the financial system will be defined and the reform of state-owned commercial banks will be deepened. We will move faster to improve the governance structure of small and medium-sized banks and rural credit cooperatives, regulate the development of non-banking financial institutions, and enhance the inclusiveness of financial services. Efforts will be made to reform and improve policy-backed finance, increase its capacity to serve national strategies and planning efforts, deepen the reform of insurance companies and build the ability of commercial insurance to offer protection. We will improve corporate governance in financial institutions and strengthen the oversight of shareholders' equity and related party transactions. We will also improve the underlying systems of the capital market and the system of multi-level capital markets, make a major push to develop institutional investors, and increase the proportion of direct financing, equity financing in particular; fully implement the registration-based IPO system, make delisting a normal practice, and improve the quality of listed companies. We will deepen reform of the New Third Board, improve the market-based bond issuance mechanism, steadily expand the scale of the bond market, enrich bond varieties, and issue long-term government bonds and long-term infrastructure bonds. We will improve the investor protection system and deposit insurance system, as well as the modern financial regulatory system; shore up our weaknesses in the regulatory system;

We will steadily develop financial technology and accelerate the digital transformation of financial institutions; boost the application of regulatory technology and financial innovation risk assessment; and explore the establishment of an innovative mechanism for product rectification and suspension.

第二十二章 提升政府经济治理能力

加快转变政府职能，建设职责明确、依法行政的政府治理体系，创新和完善宏观调控，提高政府治理效能。

第一节 完善宏观经济治理

健全以国家发展规划为战略导向，以财政政策和货币政策为主要手段，就业、产业、投资、消费、环保、区域等政策紧密配合，目标优化、分工合理、高效协同的宏观经济治理体系。增强国家发展规划对公共预算、国土开发、资源配置等政策的宏观引导、统筹协调功能，健全宏观政策制定和执行机制，重视预期管理和引导，合理把握经济增长、就业、价格、国际收支等调控目标，在区间调控基础上加强定向调控、相机调控和精准调控。完善宏观调控政策体系，搞好跨周期政策设计，提高逆周期调节能力，促进经济总量平衡、结构优

Chapter 22 The Government's Economic Governance Capacity

The transformation of government functions will be accelerated to build a rules-based governance system with clearly defined duties and responsibilities, and improve macro-level regulation and the effectiveness and efficiency of governance.

I. Macroeconomic governance

Guided by the national development plan, we will improve the macroeconomic governance system by taking fiscal and monetary policies as the main instruments, better coordinating policies on employment, industries, investment, consumption, environmental protection, specific regions, etc., setting better-defined objectives, ensuring reasonable division of functions, and boosting efficient collaboration. Efforts will be made to strengthen the role of national development planning in providing macro guidance for and coordinating public budget, land development, resource allocation, and other policies; improve the macro policy formulation and implementation mechanism; attach importance to expectation management and guidance; set proper macro-regulation targets concerning economic growth, employment, prices, balance of payments, etc.; and strengthen targeted, well-timed, and precision regulation on the basis of range-based regulation. We will improve the macro-regulation policy system, appropriately design cross-cyclical policies, improve the capacity for counter-cyclical adjustment, and promote the balance between total supply and demand, structural improvement, and internal and external balance for the economy. We will step up the development of macroeconomic governance databases, enhance the supplementary governance capacity of modern technological means including big data, and modernize the statistical system. We will improve the macroeconomic policy evaluation system as well as major risk identification and early warning mechanisms, keep the channels for participation in policy-making open, and ensure decisions are made in a sound, democratic, and law-based

II. A favorable business environment

Reforms will be intensified to streamline administration and delegate power, improve regulation, and upgrade services, promote the system for listing the powers and obligations of government departments across the board, and continue to improve the market-based international business environment that respects the rule of law. We will implement the negative list system across the board for market access, remove hidden barriers to market access beyond the list, and further ease access restrictions mainly in the services sector. We will reduce government permits, merge some qualification permits, cancel unnecessary registrations and annual inspections, and regulate enterprise-related inspections. We will fully carry out the reform to separate permits from business licenses and reduce permits after granting licenses, as well as the reform of the construction project approval system. We will reform the production permit system, simplify the approval procedures for industrial products, and practice list-based management for all items related to enterprises that require administrative approval. We will establish a convenient, efficient, and orderly exit system for market entities, simplify ordinary deregistration procedures, and establish a sound bankruptcy system for enterprises and natural persons. We will develop new ways to deliver government services and streamline the approval services for the convenience of the people. We will promote the application of single-window document processing for international trade and improve the business environment assessment system.

III. Better regulation

We will improve the new regulatory mechanism featuring the random selection of both inspectors and inspection targets, the prompt release of results and the Internet Plus Oversight initiative, focusing on key targets and credit supervision to promote the integration of online and offline supervision. We will strengthen market supervision, quality supervision, safety supervision, the

展 全面推进乡村振兴

走中国特色社会主义乡村振兴道路，全面实施乡村振兴战略，强化以工补农、以城带乡，推动形成工农互促、城乡互补、协调发展、共同繁荣的新型工农城乡关系，加快农业农村现代化。

Revitalization

A uniquely Chinese approach to rural revitalization will be adopted with strategies that encourage the manufacturing sector and urban entities to support agriculture and rural development, a move that will help create industry-agriculture and urban-rural synergies, beneficial to both urban and rural areas and allow coordinated development leading to shared prosperity and accelerated modernization of agriculture and rural areas.

第二十三章 提高农业质量效益和竞争力

持续强化农业基础地位，深化农业供给侧结构性改革，强化质量导向，推动乡村产业振兴。

第一节 增强农业综合生产能力

夯实粮食生产能力基础，保障粮、棉、油、糖、肉、奶等重要农产品供给安全。坚持最严格的耕地保护制度，强化耕地数量保护和质量提升，严守18亿亩耕地红线，遏制耕地“非农化”、防止“非粮化”，规范耕地占补平衡，严禁占优补劣、占水田补旱地。以粮食生

Chapter 23 Quality Issues and Competitiveness in the Agricultural Sector

The fundamental role of agriculture should never be underestimated. Supply-side structural reform in the agricultural sector is necessary to spur the growth of rural industries, with special attention to improving the quality of their products.

I. Boosting the overall agricultural production capacity

We will consolidate the foundation of grain production capacity and ensure the supply of important agricultural products such as grain, cotton, cooking oil, sugar, meat, and milk. We will enforce the strictest possible system for protecting farmland, strengthen the protection of farmland quantity and enhance its quality, ensure the total area of China's farmland stay above the red line of 120 million hectares, prevent the use of farmland for non-agricultural and non-grain purposes, regulate the balance between the occupation and replenishment of farmland, and strictly prohibit the replacement of superior land with inferior land and irrigable land with to non-irrigable land. Focusing on functional zones for grain production and protective areas for the production of major agricultural products, we will build a national food security industrial belt, implement high-quality farmland development projects, and build contiguous high-quality farmland of more than 71.67 million hectares. We will carry out chernozem soil conservation projects

优化农业生产布局，建设优势

and strengthen the conservation of chernozem soils and restoration of soil fertility in northeast China. We will promote water-saving transformation and lean management in large and medium-sized irrigation areas and build key water-saving irrigation projects while promoting comprehensive water pricing reform. We will step up the research, development and application of large and medium-sized, smart and multifunctional agricultural machinery so that the overall level of mechanization in plowing, sowing, and harvesting can be increased to 75%. We will boost the protection and utilization of germplasm resources and the development of seed banks to ensure the security of seed sources; step up efforts to break bottlenecks in developing technology to improve agricultural varieties; steadily advance the industrial application of biological breeding; and foster leading enterprises in the seed industry with international competitiveness. We will improve the agricultural science and technology innovation system, employ new ways to promote agricultural technologies, and develop smart agriculture. We will channel more efforts into animal epidemic prevention and control of crop diseases and insect pests, as well as agrometeorological services.

Figure 2. Layout of functional zones for grain production and protective areas for the production of major agricultural products

II. Structural adjustment in the agricultural sector

We will improve the distribution of agricultural production, and build industrial belts for advantageous agricultural products and advantageous areas of featured agricultural products. We will promote the overall planning of grain, cash crops, and feed, as well as the coordination of agriculture, forestry, animal husbandry, and fishery; improve the farming structure; vigorously develop modern animal husbandry and healthy aquaculture; and actively develop protected agriculture as well as forestry and fruit industry according to local conditions. We will further promote high-quality grain projects, drive the green transformation of agriculture, boost environmental protection in production areas, develop water-saving and dry-farming techniques, advance the initiative of

We will improve the green agriculture standard system and the certification of green food, organic agricultural products, and agricultural products with geographical indications; intensify whole-process quality and safety supervision over agricultural products and improve the traceability system; and build industrial parks of modern agriculture and agricultural modernization demonstration zones.

III. Diversification of the rural economy

We will develop county economy, promote the integrated development of primary, secondary, and tertiary industries in rural areas, extend the agricultural industrial chain, and develop featured modern industries to ensure rural prosperity. We will boost the combination of farming, breeding, and processing and the reengineering of industrial chain, advance the development of agricultural products processing industry and agricultural producer service industry, and expand characteristic industries such as leisure agriculture, rural tourism, and homestay economy. We will step up the development of storage and preservation as well as cold chain logistics facilities for agricultural products, improve rural property rights trading, commercial circulation, inspection, testing, and certification platforms, as well as smart standard plants and other facilities, and encourage the development of clusters in rural secondary and tertiary industries. We will improve the interest linkage mechanism, and ensure farmers share more benefits from the growth of industries by "turning resources into assets, funds into shares, and farmers into shareholders".

第二十四章 实施乡村建设行动

把乡村建设摆在社会主义现代化建设的重要位置，优化生产生活生态空间，持续改善村容村貌和人居环境，建设美丽宜居乡村。

第一节 强化乡村建设的规划引领

统筹县域城镇和村庄规划建设，通盘考虑土地利用、产业发展、居民点建设、人居环境整治、生态保护、防灾减灾和历史文化传承。科学编制县域村庄布局规划，因地制宜、分类推进村庄建设，规

Chapter 24 Rural Development Initiatives

Rural development is high on our socialist modernization agenda. Rural development initiatives aim to increase production, conserve and protect ecosystems, and improve the living environment.

I. Rural development planning

We will coordinate the planning and development of towns and villages in counties while considering all relevant factors, including land use, industrial development, development of residential areas, improvement of the living environment, ecological conservation, disaster prevention and reduction, and conservation of cultural heritage. We will design sound layout plans for villages in counties, develop villages of different categories according to different local conditions, regulate the comprehensive improvement of land in the whole region, protect traditional villages, ethnic villages, and rural styles and features, and strictly prohibit the willful removal and merger of villages to build large communities or large-scale demolition and construction against the wishes of farmers. We will improve the layout of rural living spaces, strictly preserve the spaces for agricultural production and rural ecological conservation, and delineate suitable, restrained, and forbidden areas for breeding industry. We will also encourage areas to draw

第二节 提升乡村基础设施和公共服务水平

以县域为基本单元推进城乡融合发展，强化县城综合服务能力和乡镇服务农民功能。健全城乡基础设施统一规划、统一建设、统一管护机制，推动市政公用设施向郊区乡村和规模较大中心镇延伸，完善乡村水、电、路、气、邮政通信、广播电视、物流等基础设施，提升农房建设质量。推进城乡基本公共服务标准统一、制度并轨，增加农村教育、医疗、养老、文化等服务供给，推进县域内教师医生交流轮岗，鼓励社会力量兴办农村公益事业。提高农民科技文化素质，推动

up practical village plans, where conditions permit.

II. Upgrading infrastructure and public services in rural areas

We will drive the integrated development of urban and rural areas by taking counties as the basic units, and enhance counties' capacity to provide comprehensive services and townships' functions to serve farmers. We will improve the mechanism for unified planning, development, management, and protection of urban and rural infrastructure, promote the extension of municipal utilities to suburban villages and large-scale central towns, improve rural infrastructure relating to water, electricity, roads, gas, postal communications, radio and television, and logistics, as well as the quality of rural housing construction. We will promote the adoption of the same standards for basic public services and the same systems in urban and rural areas; increase the provision of services in education, healthcare, old-age care, culture, and other fields in rural areas; promote the exchange and job rotation of teachers and doctors in counties; and encourage non-governmental actors to launch charitable initiatives in rural areas. We will improve farmers' literacy in science, technology, and culture, and promote the revitalization of rural talents.

III. Better living environment in rural areas

We will work on redeveloping the rural living environment, and steadily resolve outstanding environmental issues such as the "villages surrounded by garbage" and dirty and odorous water bodies in rural areas. We will promote the on-site sorting and recycling of household waste and steadily advance household sewage treatment in rural areas, while focusing on seats of township governments and central villages. We will promote the toilet revolution in line with local conditions, boost comprehensive improvement of rural water systems, and organize in-depth village cleaning and greening activities to make public spaces, courtyards, and houses in villages, as well as their surrounding areas clean and tidy.

乡村人才振兴。

第三节 改善农村人居环境

开展农村人居环境整治提升行动，稳步解决“垃圾围村”和乡村黑臭水体等突出环境问题。推进农村生活垃圾就地分类和资源化利用，以乡镇政府驻地和中心村为重点梯次推进农村生活污水治理。支持因地制宜推进农村厕所革命。推进农村水系综合整治。深入开展村庄清洁和绿化行动，实现村庄公共空间及庭院房屋、村庄周边干净整洁。

第二十五章 健全城乡融合发展体制机制

建立健全城乡要素平等交换、双向流动政策体系，促进要素更多向乡村流动，增强农业农村发展活力。

第一节 深化农业农村改革

Chapter 25 Integrated Urban-Rural Development

Favorable policies will be rolled out to facilitate two-way flows of urban and rural production factors, and encourage, in particular, channeling more resources towards rural areas to boost rural dynamism.

I. Agricultural and rural reforms

We will consolidate and improve the basic rural management system, implement the policy of extending the second round of land contracts for another 30 years upon expiration, improve the system of separating the ownership right, contract right, and management right of rural contracted land, and further reduce

巩固完善农村基本经营制度，落实第二轮土地承包到期后再延长30年政策，完善农村承包地所有权、承包权、经营权分置制度，进一步放活经营权。发展多种形式适度规模经营，加快培育家庭农场、农民合作社等新型农业经营主体，健全农业专业化社会化服务体系，实现小农户和现代农业有机衔接。深化农村宅基地制度改革试点，加快房地一体的宅基地确权颁证，探索宅基地所有权、资格权、使用权分置实现形式。积极探索实施农村集体经营性建设用地入市制度。允许农村集体在农民自愿前提下，依法把有偿收回的闲置宅基地、废弃的集体公益性建设用地转变为集体经营性建设用地入市。建立土地征收公共利益认定机制，缩小土地征收范围。深化农村集体产权制度改革，完善产权权能，将经营性资产量化到集体经济组织成员，发展壮大新型农村集体经济。切实减轻村级组织负担。发挥国家城乡融合发展试验区、农村改革试验区示范带

restrictions on the management right. We will develop various types of appropriately scaled agribusiness operations, accelerate the fostering of new agricultural business entities such as family farms and farmers' cooperatives, improve the system of specialized and commercial services for agriculture, and introduce small rural households to modern agriculture. We will further carry out trial reforms on rural land designated for housing, accelerate the confirmation and certification of both land and house rights, and explore the approach to achieving the separation of ownership, entitlement, and right to use of rural land designated for housing. We will vigorously explore and implement a system for putting rural collective land for development purposes on the market, allow rural collectives to convert idled land designated for housing that has been recovered after paying compensation, and disused collective land designated for public good into collective land for development purposes and put the land on the market according to law based on the premise of farmers' willingness. We will establish a mechanism for determining public interests in rural land requisition and narrow the scope of requisitioned land. We will deepen the reform of the rural collective property rights system, improve the powers and functions of property rights, quantify for-profit assets for the members of the collective economic organizations, and develop a new rural collective economy to effectively alleviate the burden of village-level organizations. We will give play to the exemplary role of national pilot zones for integrated urban-rural development and rural reform pilot zones.

II. Supply of production factors for agricultural and rural development

We will improve the system for guaranteeing government funding for agriculture and rural areas and increase support to them from the central government's financial transfer payments, proceeds from sale of land-use rights, and local government bonds. We will improve the agricultural support and protection system, as well as the interest compensation mechanism for major grain-producing areas, develop a new system of agricultural subsidy policies, and refine the policy for setting minimum prices for state grain

动作用。

第二节 加强农业农村发展要素保障

健全农业农村投入保障制度，加大中央财政转移支付、土地出让收入、地方政府债券支持农业农村力度。健全农业支持保护制度，完善粮食主产区利益补偿机制，构建新型农业补贴政策体系，完善粮食最低收购价政策。深化供销合作社改革。完善农村用地保障机制，保障设施农业和乡村产业发展合理用地需求。健全农村金融服务体系，完善金融支农激励机制，扩大农村资产抵押担保融资范围，发展农业保险。允许入乡就业创业人员在原籍地或就业创业地落户并享受相关权益，建立科研人员入乡兼职兼薪和离岗创业制度。

purchases. We will deepen the reform of supply and marketing cooperatives and improve the support mechanism for rural land use, to ensure that the reasonable land-use needs in developing protected agriculture and rural industries are met. We will improve the rural financial service system and the incentive mechanism of financial support to agriculture, expand the scope of financing guaranteed by rural asset collateral, and develop agricultural insurance. We will allow people who seek employment or who want to start businesses in the countryside to register their household and enjoy relevant rights and interests in their native places or the locations of their jobs or businesses, and establish a system for scientific researchers to engage in secondary jobs and off-post entrepreneurship in rural areas.

第二十六章 实现巩固拓展脱贫攻坚成果同乡村振兴有效衔接

建立完善农村低收入人口和欠发达地区帮扶机制，保持主要帮扶

Chapter 26 Rural Revitalization to Be Pursued by Building on Success in Poverty Alleviation

Support will continue to be provided to rural low-income groups and underdeveloped areas. The level of government funding for this purpose will stay stable and assistance programs will continue to be implemented even after the target communities have been

政策和财政投入力度总体稳定，接续推进脱贫地区发展。

第一节 巩固提升脱贫攻坚成果

严格落实“摘帽不摘责任、摘帽不摘政策、摘帽不摘帮扶、摘帽不摘监管”要求，建立健全巩固拓展脱贫攻坚成果长效机制。健全防止返贫动态监测和精准帮扶机制，对易返贫致贫人口实施常态化监测，建立健全快速发现和响应机制，分层分类及时纳入帮扶政策范围。完善农村社会保障和救助制度，健全农村低收入人口常态化帮扶机制。对脱贫地区继续实施城乡建设用地增减挂钩节余指标省内交易政策、调整完善跨省域交易政策。加强扶贫项目资金资产管理和监督，推动特色产业可持续发展。推广以工代赈方式，带动低收入人口就地就近就业。做好易地扶贫搬迁后续帮扶，加强大型搬迁安置区新型城镇化建设。

lifted out of poverty, a move that is intended to keep the momentum going and prevent the vulnerable from slipping back into poverty.

I. Building on poverty alleviation achievements

We will work to meet the requirements of "continuing poverty alleviation responsibility, policies, and assistance and oversight for areas that have been removed from the poverty list", and establish a robust long-term mechanism for consolidating and expanding poverty alleviation achievements. We will improve the dynamic monitoring and targeted assistance mechanisms for preventing people from falling back into poverty, regularly monitor groups who are liable to return to or fall into poverty, establish a sound mechanism for rapid detection and response, and bring people who can potentially return to poverty into the scope of assistance policies in a timely manner, considering different types at different levels. We will improve the social security and assistance system in rural areas, and improve the mechanism for regular assistance of low-income rural residents. For areas that have been lifted out of poverty, we will continue to implement the policy for intra-provincial trading of the surplus quotas under the policy of linking newly-added cropland quotas with the amount of land used for urban and rural construction, and adjust and improve the policy of inter-provincial trading of the same. We will step up the management and supervision of funds and assets in poverty alleviation projects, and promote the sustainable development of characteristic industries. By rolling out work-relief programs, we will drive low-income population to get jobs locally or in nearby regions. We will effectively provide follow-up support for people relocated from inhospitable areas, and promote a new type of urbanization in large-scale resettlement areas.

II. A continued upward trajectory for communities recently out of poverty

We will encourage the areas that have got rid of poverty to develop featured farming and breeding industries, extensively organize

第二节 提升脱贫地区整体发展水平

实施脱贫地区特色种养业提升行动，广泛开展农产品产销对接活动，深化拓展消费帮扶。在西部地区脱贫县中集中支持一批乡村振兴重点帮扶县，从财政、金融、土地、人才、基础设施、公共服务等方面给予集中支持，增强其巩固脱贫成果及内生发展能力。坚持和完善东西部协作和对口支援、中央单位定点帮扶、社会力量参与帮扶等机制，调整优化东西部协作结对帮扶关系和帮扶方式，强化产业合作和劳务协作。

activities to ensure better linkage between production and sales of agricultural products, and expand the assistance by boosting the consumption of goods produced by the areas lifted out of poverty. A number of counties lifted out of poverty in western China will be designated as key counties for receiving assistance for rural revitalization and receive focused support in terms of government funding, financial services, land, manpower, infrastructure, and public services, so as to increase their capacity to consolidate their achievements in poverty alleviation and boost internal forces driving development. We will carry on and improve the mechanisms for collaboration between the eastern and western regions, for providing paired assistance, for designated assistance by central departments and organizations, and for the participation of non-governmental entities. We will adjust and improve the collaboration between eastern and western regions in offering paired assistance and the way of offering such assistance and give greater emphasis to industrial and labor service cooperation.

第八篇 完善新型城镇化战略 提升城镇化发展质量

坚持走中国特色新型城镇化道路，深入推进以人为核心的新型城镇化战略，以城市群、都市圈为依托促进大中小城市和小城镇协调联动、特色化发展，使更多人民群众享有更高品质的城市生活。

Part VIII New Urbanization Strategy with a Focus on Quality Development

A uniquely Chinese approach to urbanization will continue to guide the new urbanization process. The process should be people-centered. It aims to promote coordinated development of large, medium-sized, and small cities and small towns that make up urban clusters and metropolitan areas, while helping local cultural traditions and industries and services with local characteristics thrive. The goal is to allow more people to enjoy better city life.

第二十七章 加快农业转移人口市民化

坚持存量优先、带动增量，统筹推进户籍制度改革和城镇基本公共服务常住人口全覆盖，健全农业转移人口市民化配套政策体系，加快推动农业转移人口全面融入城市。

第一节 深化户籍制度改革

放开放宽除个别超大城市外的落户限制，试行以经常居住地登记户口制度。全面取消城区常住人口300万以下的城市落户限制，确保外地与本地农业转移人口进城落户标准一视同仁。全面放宽城区常住人口300万至500万的Ⅰ型大城市落户条件。完善城区常住人口500万以上的超大特大城市积分落户政策，精简积分项目，确保社会保险缴纳年限和居住年限分数占主要比例，鼓励取消年度落户名额限制。健全以居住证为载体、与居住年限等条件相挂钩的基本公共服务提供

Chapter 27 Urban Residency Status for Rural Residents

The household registration system will undergo an overhaul to ensure full access to basic urban public services for all urban residents, and allow rural residents who have moved to urban areas, especially those who have been living for a long time in cities to gain urban residency, so as to facilitate their integration into city life.

I. Reform of the household registration system

We will lift or reduce the restrictions on household registration, except in certain mega cities, and pilot the household registration system based on places of one's habitual residence. We will lift all restrictions on household registration in cities with a permanent urban population of less than 3 million, and ensure that the people who have moved from other and local rural areas enjoy equal treatment with respect to urban household registration. For Type-I large cities with a permanent urban population of 3 to 5 million, we will fully relax the conditions for granting urban residency. For mega cities with a permanent urban population of more than 5 million, we will improve the points-based household registration policy by streamlining the points categories, to ensure that the number of years of social insurance payment and the number of years of residence carry the most weight, and we will encourage the cancellation of the annual quota for household registration. We will improve the mechanism for providing basic public services based on the residence permit and linked to the length of residence and other conditions, encourage local governments to provide more basic public services and more convenient access to government services, and improve the urban compulsory education, housing, and other services actually enjoyed by residence permit holders.

II. Urban residency status for rural migrants

We will improve the policies related to the linkage between the fiscal transfer payments and the granting of urban residency to the

机制，鼓励地方政府提供更多基本公共服务和办事便利，提高居住证持有人城镇义务教育、住房保障等服务的实际享有水平。

第二节 健全农业转移人口市民化机制

完善财政转移支付与农业转移人口市民化挂钩相关政策，提高均衡性转移支付分配中常住人口折算比例，中央财政市民化奖励资金分配主要依据跨省落户人口数量确定。建立财政性建设资金对吸纳落户较多城市的基础设施投资补助机制，加大中央预算内投资支持力度。调整城镇建设用地年度指标分配依据，建立同吸纳农业转移人口落户数量和提供保障性住房规模挂钩机制。根据人口流动实际调整人口流入流出地区教师、医生等编制定额和基本公共服务设施布局。依法保障进城落户农民农村土地承包权、宅基地使用权、集体收益分配权，建立农村产权流转市场体系，健全农户“三权”市场化退出机制

people with rural household registration living in urban areas, raise the conversion ratio of the permanent population in the balanced distribution of the transfer payments, and determine the distribution of the central fiscal incentive funds for urban residency primarily based on the number of the people who have moved from other provinces. For cities that have taken in a large number of people who have relocated from rural areas, we will set up a mechanism for subsidizing their infrastructure construction with part of fiscal construction funds, and increase central funding budgetary support. We will adjust the basis for the annual allotment of land designated for construction in urban areas, and establish a mechanism to link the allotment with the number of people with rural household registration living in urban areas granted with urban residency and the scale of government-subsidized housing. We will adjust the quota of teachers and doctors and the layout of basic public service facilities for areas with inflow and outflow population according to the actual population flow. We will protect the rights of rural migrants who have settled in cities in accordance with the law with respect to farmland contracting, residential land use, and proceeds from rural collective undertakings, establish a market system for transferring rural property rights, and improve the mechanism and supporting policies for market-based abdication from the abovementioned "three rights" of rural households.

和配套政策。

第二十八章 完善城镇化空间布局

发展壮大城市群和都市圈，分类引导大中小城市发展方向和建设重点，形成疏密有致、分工协作、功能完善的城镇化空间格局。

第一节 推动城市群一体化发展

以促进城市群发展为抓手，全面形成“两横三纵”城镇化战略格局。优化提升京津冀、长三角、珠三角、成渝、长江中游等城市群，发展壮大山东半岛、粤闽浙沿海、中原、关中平原、北部湾等城市群，培育发展哈长、辽中南、山西中部、黔中、滇中、呼包鄂榆、兰州－西宁、宁夏沿黄、天山北坡等城市群。建立健全城市群一体化协调发展机制和成本共担、利益共享机制，统筹推进基础设施协调布局、产业分工协作、公共服务共享、生态共建环境共治。优化城市

Chapter 28 Spatial Distribution of Urban Centers

With the expansion of urban clusters and metropolitan areas, better coordination is essential for the development of large, medium-sized, and small cities that make up clusters, each with its own priorities and areas of focus, taking into account the need for proper density, coordination in service delivery, and rational distribution of services and amenities.

I. Integrated development of urban clusters

We will take promoting the development of urban clusters as the starting point to all-roundly form a strategic pattern of urbanization featuring "two horizontal and three vertical axes", by upgrading the urban clusters of the Beijing-Tianjin-Hebei region, Yangtze River Delta, Pearl River Delta, Chengdu-Chongqing region, and the middle reaches of Yangtze River; developing the urban clusters of Shandong Peninsula, the coastal areas of Guangdong, Fujian, and Zhejiang, the Central Plains, the Guanzhong Plain, and the Beibu Gulf; and fostering the urban clusters of Harbin-Changchun, Central and Southern Liaoning, Central Shanxi, Central Guizhou, Central Yunnan, Huhhot-Baotou-Ordos-Yulin, Lanzhou-Xining, Ningxia along the Yellow River, and the north slope of Tianshan Mountains. We will establish and improve the mechanisms for integrated and coordinated development of urban clusters and for cost and benefit sharing, and comprehensively promote the coordinated layout of infrastructure, industrial division of labor and cooperation, public service sharing, ecological co-construction, and environmental co-governance. We will also optimize the internal spatial structure of urban clusters and build them into a multi-center, multi-level, and multi-nodal network with improved ecological and security shields.

II. Modern metropolitan areas

We will improve the coordinated development of one-hour

群内部空间结构，构筑生态和安全屏障，形成多中心、多层级、多节点的网络型城市群。

第二节 建设现代化都市圈

依托辐射带动能力较强的中心城市，提高1小时通勤圈协同发展水平，培育发展一批同城化程度高的现代化都市圈。以城际铁路和市域（郊）铁路等轨道交通为骨干，打通各类“断头路”、“瓶颈路”，推动市内市外交通有效衔接和轨道交通“四网融合”，提高都市圈基础设施连接性贯通性。鼓励都市圈社保和落户积分互认、教育和医疗资源共享，推动科技创新券通兑通用、产业园区和科研平台合作共建。鼓励有条件的都市圈建立统一的规划委员会，实现规划统一编制、统一实施，探索推进土地、人口等统一管理。

第三节 优化提升超大特大城市中心城区功能

commute circles by relying on the central cities with strong capacity to facilitate the development of surrounding areas, and foster several modern metropolitan areas with a high degree of urban integration. With intercity railways, suburban railways, and other rail transits as the backbone, we will eliminate all kinds of "dead end roads" and "bottleneck roads", promote effective connection of intra-city and inter-city traffic and integration of "the four networks" - trunk, intercity, suburban, and urban railways, and improve the connectivity of infrastructure in metropolitan areas. We will encourage mutual recognition of social security and household registration points, sharing of educational and medical resources in metropolitan areas, and promote the exchange and circulation of scientific and technological innovation coupons as well as the co-construction of industrial parks and scientific research platforms. Where conditions permit, metropolitan areas will be encouraged to establish unified planning committees to achieve unified formulation and implementation of plans, and ways will be sought to promote unified management of land and population.

III. Functions of the central areas in mega cities reimagined

We will take into account the multiple needs of economy, life, ecology, and security to transform the development model of mega cities, and strengthen their risk prevention and control in terms of governance, so as to promote their high-quality and sustainable development. In order to appropriately reduce the development intensity and population density in central urban areas of mega cities, we will relieve in an orderly manner the areas of general manufacturing industries, regional logistics bases and professional markets as well as related functions and facilities, and avoid excessive concentration of public service resources including medical services and higher education. We will enhance the roles of mega cities in global resource allocation, in driving scientific and technological innovation, and in leading the development of high-end industries, ensure that mega cities take the lead in forming an industrial structure with modern service industry as the mainstay and advanced manufacturing as the prop, and enhance their overall capacity and international competitiveness. We will

统筹兼顾经济、生活、生态、安全等多元需要，转变超大特大城市开发建设方式，加强超大特大城市治理中的风险防控，促进高质量、可持续发展。有序疏解中心城区一般性制造业、区域性物流基地、专业市场等功能和设施，以及过度集中的医疗和高等教育等公共服务资源，合理降低开发强度和人口密度。增强全球资源配置、科技创新策源、高端产业引领功能，率先形成以现代服务业为主体、先进制造业为支撑的产业结构，提升综合能级与国际竞争力。坚持产城融合，完善郊区新城功能，实现多中心、组团式发展。

第四节 完善大中城市宜居宜业功能

充分利用综合成本相对较低的优势，主动承接超大特大城市产业转移和功能疏解，夯实实体经济发展基础。立足特色资源和产业基础，确立制造业差异化定位，推动制造业规模化集群化发展，因地制

continue the integration of urban areas and industries and improve the functions of new suburban cities to realize multi-center and cluster development.

IV. Livability and better working conditions in large and medium-sized cities

We will make full use of the relatively low comprehensive cost advantages of large and medium-sized cities, and actively undertake the transfer of industries and functions of mega cities, to lay a solid foundation for the development of the real economy. Based on these cities' featured resources and industrial foundation, we will have differentiated positioning in manufacturing to promote the development of the manufacturing sector on a large scale or in clusters, and build advanced manufacturing bases, commercial and trading logistics centers, and regional professional service centers according to local conditions. We will improve the layout and functions of municipal public facilities, support the presence of tertiary hospitals and universities in large and medium-sized cities, increase the supply of cultural and sports resources, and create a modern and fashionable consumption environment, to make cities better places for living.

V. County-level urbanization

We will step up efforts to shore up weak links in counties, upgrade and expand their public services, environmental sanitation, municipal utilities, and industrial supporting facilities, and enhance their overall carrying capacity and governance capacity. We will support the development of the counties with a good foundation in the eastern regions, focus on the development of counties in the urbanized areas of central and western regions as well as northeastern regions, and appropriately support the development of counties in major production areas of agricultural products and key eco-function zones. We will improve the funding and financing mechanism for development of counties, to give better play to the role of fiscal funds, and guide financial and non-governmental capital to increase funding. We will steadily and in an orderly

宜建设先进制造业基地、商贸物流中心和区域专业服务中心。优化市政公用设施布局和功能，支持三级医院和高等院校在大中城市布局，增加文化体育资源供给，营造现代时尚的消费场景，提升城市生活品质。

第五节 推进以县城为重要载体的城镇化建设

加快县城补短板强弱项，推进公共服务、环境卫生、市政公用、产业配套等设施提级扩能，增强综合承载能力和治理能力。支持东部地区基础较好的县城建设，重点支持中西部和东北城镇化地区县城建设，合理支持农产品主产区、重点生态功能区县城建设。健全县城建设投融资机制，更好发挥财政性资金作用，引导金融资本和社会资本加大投入力度。稳步有序推动符合条件的县和镇区常住人口20万以上的特大镇设市。按照区位条件、资源禀赋和发展基础，因地制宜发展小城镇，促进特色小镇规范健康

第二十九章 全面提升城市品质

加快转变城市发展方式，统筹城市规划建设管理，实施城市更新行动，推动城市空间结构优化和品质提升。

第一节 转变城市发展方式

按照资源环境承载能力合理确定城市规模和空间结构，统筹安排城市建设、产业发展、生态涵养、基础设施和公共服务。推行功能复合、立体开发、公交导向的集约紧凑型发展模式，统筹地上地下空间利用，增加绿化节点和公共开敞空间，新建住宅推广街区制。推行城市设计和风貌管控，落实适用、经济、绿色、美观的新时期建筑方针，加强新建高层建筑管控。加快推进城市更新，改造提升老旧小区、老旧厂区、老旧街区和城中村

Chapter 29 Quality of Urban Living

A paradigm shift in urban development is necessary to better coordinate urban planning and city development management, including initiatives for urban renewal and for more rational use of urban space, with a view to improving the quality of urban living.

I. A paradigm shift in urban development

We will logically determine the scale and spatial structure of cities in accordance with the carrying capacity of resources and the environment and make overall arrangements for urban construction, industrial development, ecological conservation, infrastructure, and public services. We will adopt an intensive and compact development model that enables multi-functional, three-dimensional, and transit-oriented development, coordinate the utilization of above-ground and underground space, increase greening nodes and public open space, and promote the block system for new residential buildings. We will promote management and control of urban design and landscape, put into effect guidelines for building applicable, economic, green, and beautiful cityscape in the new era, and strengthen control over new high-rise buildings. We will accelerate urban renewal by redeveloping and upgrading the functions of old residential areas, old factory areas, old blocks and urban villages among other idle zones, promote the renovation of old buildings, and actively expand new parking lots and charging piles.

II. New city centers

In line with the new vision and trend of urban development, we will carry out pilot and demonstration projects to modernize cities, and make them livable, innovative, smart, green, civil, and resilient. We will build smarter cities and practice the "one map" digital

等存量片区功能，推进老旧楼宇改造，积极扩建新建停车场、充电桩。

第二节 推进新型城市建设

顺应城市发展新理念新趋势，开展城市现代化试点示范，建设宜居、创新、智慧、绿色、人文、韧性城市。提升城市智慧化水平，推行城市楼宇、公共空间、地下管网等“一张图”数字化管理和城市运行一网统管。科学规划布局城市绿环绿廊绿楔绿道，推进生态修复和功能完善工程，优先发展城市公共交通，建设自行车道、步行道等慢行网络，发展智能建造，推广绿色建材、装配式建筑和钢结构住宅，建设低碳城市。保护和延续城市文脉，杜绝大拆大建，让城市留下记忆、让居民记住乡愁。建设源头减排、蓄排结合、排涝除险、超标应急的城市防洪排涝体系，推动城市内涝治理取得明显成效。增强公共设施应对风暴、干旱和地质灾害的能力，完善公共设施和建筑应急避

management of urban buildings, public space, and underground pipe network as well as the unified network management of urban operations. We will make sound plans for developing the green ring, green corridor, green wedge, and green lane in urban areas, promote ecological restoration and functional improvement, prioritize the development of urban transit, develop a slow-traffic network of bicycle lanes and pedestrian paths, develop smart construction, and build low-carbon cities by popularizing the use of eco-friendly building materials, prefabricated buildings, and steel structure housing. We will keep cultural heritage alive and put an end to large-scale demolition and construction so that cities can evoke the nostalgia of residents. We will build an urban flood control and drainage system featuring combination of storage and drainage for the source emission reduction, elimination of the waterlogging risk and emergency response, so as to achieve substantial results in promoting urban waterlogging control. We will enhance the ability of public facilities to cope with storms, droughts, and geological disasters, and improve the functions of public facilities and buildings as emergency shelters. We will strengthen the building of an accessible environment, expand the sources of urban construction funds, and establish a financially sustainable financing mechanism that involves appropriate terms and supports diversified channels.

III. Urban governance

We will uphold Party building measures, shift the focus downward, and ensure empowerment by science and technology, continue to make urban governance more effective, meticulous, and intelligent, and promote the modernization of social governance in urban areas. We will reform and improve the urban management system, promote the experience of community-level management mechanisms as represented by "all departments responding to the call of the sub-district and township governments to process public complaints without delay", channel more resources, management, and services down to sub-districts and communities, and accelerate the building of modern communities. We will promote innovation in urban management methodology, model, and

难功能。加强无障碍环境建设。拓展城市建设资金来源渠道，建立期限匹配、渠道多元、财务可持续的融资机制。

第三节 提高城市治理水平

坚持党建引领、重心下移、科技赋能，不断提升城市治理科学化精细化智能化水平，推进市域社会治理现代化。改革完善城市管理体制。推广“街乡吹哨、部门报到、接诉即办”等基层管理机制经验，推动资源、管理、服务向街道社区下沉，加快建设现代社区。运用数字技术推动城市管理手段、管理模式、管理理念创新，精准高效满足群众需求。加强物业服务监管，提高物业服务覆盖率、服务质量和标准化水平。

第四节 完善住房市场体系和住房保障体系

坚持房子是用来住的、不是用来炒的定位，加快建立多主体供

concept with digital technology and meet the exact needs of the people with high efficiency. We will strengthen property service oversight and improve the coverage, quality, and standardization of property services.

IV. Housing market and housing support

We will uphold the principle that housing is for living rather than for speculation, and accelerate the establishment of a housing system with diverse suppliers, multiple channels of support, and combined renting and purchase, to ensure access to housing and balanced job and housing provisions for all people. We will implement a host of measures based on local conditions and ensure that urban governments have the primary responsibility for keeping land and housing prices and expectations stable. We will establish a linkage mechanism between housing and land, strengthen financial regulation of real estate, give full play to the regulatory role of housing tax, support reasonable demand for owner-occupied housing, and curb speculative and investment-related demand for housing. We will work faster to foster and develop the housing rental market, effectively revitalize idle housing resources, expand the supply of urban rental housing in an effective and orderly manner, improve the long-term rental housing policy, and gradually endow renters and purchasers of housing with equal rights in terms of access to public services. We will step up the development of housing rental laws and regulations and strengthen the supervision of the rental market to protect the legitimate rights and interests of lessees and lessors. We will effectively increase the supply of government-subsidized housing and improve the basic system and supporting policies for guaranteeing access to housing. We will expand the supply of government-subsidized rental housing with a focus put on cities with large population inflows and high housing prices, and step up efforts to solve the housing problems of people in difficulties and new residents. We will formulate a separate land use plan for rental housing, explore the use of collective construction land and idle land owned by enterprises and public institutions to build rental housing, and support the conversion of non-residential housing

给、多渠道保障、租购并举的住房制度，让全体人民住有所居、职住平衡。坚持因地制宜、多策并举，夯实城市政府主体责任，稳定地价、房价和预期。建立住房和土地联动机制，加强房地产金融调控，发挥住房税收调节作用，支持合理自住需求，遏制投资投机性需求。加快培育和发展住房租赁市场，有效盘活存量住房资源，有力有序扩大城市租赁住房供给，完善长租房政策，逐步使租购住房在享受公共服务上具有同等权利。加快住房租赁法规建设，加强租赁市场监管，保障承租人和出租人合法权益。有效增加保障性住房供给，完善住房保障基础性制度和支持政策。以人口流入多、房价高的城市为重点，扩大保障性租赁住房供给，着力解决困难群体和新市民住房问题。单列租赁住房用地计划，探索利用集体建设用地和企事业单位自有闲置土地建设租赁住房，支持将非住宅房屋改建为保障性租赁住房。完善土地出让收入分配机制，加大财

into affordable rental housing. We will improve the mechanism for distribution of income from land transfer, and increase fiscal, taxation, and financial support. We will develop shared ownership housing in line with local conditions, properly handle the relationship between basic guarantee and non-basic guarantee and improve the way of housing guarantee and the policies on the targets, threshold, and exit management concerning housing guarantee. We will reform and improve the housing provident fund system in terms of mechanisms for deposit, use, management, and operation.

第九篇 优化区域经济布局 促进区域协调发展

深入实施区域重大战略、区域协调发展战略、主体功能区战略，健全区域协调发展体制机制，构建高质量发展的区域经济布局和国土空间支撑体系。

Part IX Improving Regional Economic Structures and Promoting Coordinated Regional Development

A strategic approach to coordinated regional development will guide major initiatives to strengthen coordination at the regional level, rationalize land use planning through functional zoning, and improve institutional support for an integrated regional economic structure conducive to coordinated development with a focus on quality improvement.

第三十章 优化国土空间开发保护格局

立足资源环境承载能力，发挥各地区比较优势，促进各类要素合理流动和高效集聚，推动形成主体功能明显、优势互补、高质量发展的国土空间开发保护新格局。

Chapter 30 Land Use Planning and Environmental Protection

Land use planning will be based on the carrying capacity of a particular environment in question, the comparative advantages of various regions, and the need for environmental protection, in a way that promotes rational flows and efficient concentration of production factors, conducive to creating synergy by leveraging complementary strengths while enhancing distinctive main functions of each area. The goal of land use planning is to promote development with quality improvement top of mind.

第一节 完善和落实主体功能区制度

顺应空间结构变化趋势，优化重大基础设施、重大生产力和公共资源布局，分类提高城市化地区发展水平，推动农业生产向粮食生产功能区、重要农产品生产保护区和特色农产品优势区集聚，优化生态安全屏障体系，逐步形成城市化地区、农产品主产区、生态功能区三大空间格局。细化主体功能区划分，按照主体功能定位划分政策单元，对重点开发地区、生态脆弱地区、能源资源富集地区等制定差异化政策，分类精准施策。加强空间发展统筹协调，保障国家重大发展战略落地实施。

第二节 开拓高质量发展的重要动力源

以中心城市和城市群等经济发展优势区域为重点，增强经济和人口承载能力，带动全国经济效率整体提升。以京津冀、长三角、粤港

I. Functional zoning

In line with the changing trend of the spatial structure, we will optimize the layout of major infrastructure, major productive forces, and public resources, improve the development of urbanized areas by category, promote the agglomeration of agricultural production to functional zones for grain production, protected areas for the production of major agricultural products, and advantageous areas of featured agricultural products, and optimize the system of defense for ecological security, to gradually form a spatial pattern consisting of three major areas—urbanized zones, main agricultural production zones, and ecosystem service zones. We will classify policies into units according to different functional orientations, and introduce differentiated policies for key development areas, ecologically fragile areas, and areas rich in energy resources, so as to adopt targeted policies for different areas. We will strengthen the overall planning and coordination of space development and ensure the implementation of national major development strategies.

II. Key drivers of quality-oriented development

Focusing on areas that possess economic development advantages, such as central cities and city clusters, we will enhance the economic and population carrying capacity and drive the overall improvement of national economic efficiency. With the focus laid on the Beijing-Tianjin-Hebei region, Yangtze River Delta, and Guangdong-Hong Kong-Macao Greater Bay Area, we will enhance the capacity of driving innovation and allocating resources at a global level, and move faster to build the top echelon to lead high-quality development. In the central and western regions, where conditions permit, we will improve the functions of city clusters, accelerate industrialization and urbanization, and build key areas for high-quality development, with the central cities as the driving force. We will remove the obstacles of resource flow, improve administrative divisions, and enhance the comprehensive carrying capacity and the ability of optimal resource allocation of central cities so as to give better play

第三节 提升重要功能性区域的保障能力

以农产品主产区、重点生态功能区、能源资源富集地区和边境地区等承担战略功能的区域为支撑，切实维护国家粮食安全、生态安全、能源安全和边疆安全，与动力源地区共同打造高质量发展的动力系统。支持农产品主产区增强农业生产能力，支持生态功能区把发展重点放到保护生态环境、提供生态产品上，支持生态功能区人口逐步有序向城市化地区转移并定居落户。优化能源开发布局和运输格

to their roles in driving regional development.

III. Key functional zones: capacity upgrading

Supported by zones that are undertaking strategic functions, such as the main agricultural production zones, key ecosystem service zones, areas rich in energy resources, and border areas, we will safeguard the national food security, ecological security, energy security, and border security, and work together with areas with impetus for growth to build a power engine driving high-quality development. We will support main agricultural production zones to enhance their agricultural production capacity, eco-functional zones to lay their focus on protecting the ecological environment and providing ecological products, and the population in the eco-functional zones to relocate and settle in urbanized areas in a gradual and orderly manner. We will improve the energy development and transportation layout, strengthen the construction of bases for comprehensive development and utilization of energy resources, and improve domestic energy supply support. We will strengthen the development capacity of border areas, offer them more support in terms of population and economy, and promote national unity and border stability in these areas. We will improve the public resource allocation mechanism and provide effective transfer payments for key eco-functional zones, major agricultural production zones, and border areas.

第三十一章 深入实施区域重大战略

聚焦实现战略目标和提升引领带动能力，推动区域重大战略取得新的突破性进展，促进区域间融合互动、融通补充。

第一节 加快推动京津冀协同发展

紧抓疏解北京非首都功能“牛鼻子”，构建功能疏解政策体系，实施一批标志性疏解项目。高标准高质量建设雄安新区，加快启动区和起步区建设，推动管理体制创新。高质量建设北京城市副中心，促进与河北省三河、香河、大厂三

Chapter 31 Major Regional Development Strategies

Major regional development strategies focus on strategic objectives that are likely to have spillover effects and will spur action or drive growth in neighboring areas or in related fields. These strategies promote regional integration, interaction, connectivity, and complementarity.

I. Coordinated development of the Beijing-Tianjin-Hebei region

We will prioritize relieving Beijing of functions that are non-essential to its role as the capital city, structure a corresponding policy system, and implement several landmark projects to relieve the city of such non-essential functions. We will ensure Xiong'an New Area is developed up to the highest standards, accelerate the construction of the Pilot Area and the Initial Development Zone, and promote innovation of the management system. We will ensure high-quality development of Beijing Municipality's administrative center in Tongzhou and promote integrated development of Tongzhou with Sanhe, Xianghe, and Dachang in Hebei Province. We will promote the high-quality development of Tianjin Binhai New Area and support the development in Zhangjiakou of the water conservation functional zone and the ecological buffer zone for the capital. We will improve the basic research and original innovation capacity of Beijing Science and

第二节 全面推动长江经济带发展

坚持生态优先、绿色发展和共抓大保护、不搞大开发，协同推动生态环境保护和经济发展，打造人与自然和谐共生的美丽中国样板。持续推进生态环境突出问题整改，推动长江全流域按单元精细化分区管控，实施城镇污水垃圾处理、工业污染治理、农业面源污染治理、船舶污染治理、尾矿库污染治理等

Technology Innovation Center, give full play to the role of Zhongguancun National Independent Innovation Demonstration Zone in piloting and testing new initiatives, and promote the in-depth integration of the industrial chain and innovation chain in the Beijing-Tianjin-Hebei region. We will ensure the basic completion of the highly connected rail transit in the region and improve the coordination among airport and port clusters. We will enhance the joint efforts for prevention, control, and treatment of air pollution, and strengthen the comprehensive treatment of groundwater overexploitation and land subsidence in North China.

Figure 4. Map of Beijing-Tianjin-Hebei region rail transit plan

II. The Yangtze River Economic Belt

We will consistently prioritize ecological conservation, boost green development, ensure well-coordinated environmental protection, prevent overdevelopment, and adopt a holistic approach to pursue both ecological and environmental protection and economic development, to create a model of Beautiful China where humanity and nature harmoniously co-exist. We will continue to promote the rectification of prominent problems in the ecological environment, promote meticulous region-specific management and control of the Yangtze River Basin and implement projects for urban sewage and garbage treatment, industrial pollution control, agricultural non-point source pollution control, ship pollution control, tailing pond pollution control, etc. We will carry out demonstrative projects for green development and promote ecological conservation and environmental protection in Chishui River Basin. We will enforce a 10-year fishing ban in the waters of the Yangtze River. Focusing on the construction of the Yangtze River artery, we will design a comprehensive transportation system to ease the bottleneck of the Three Gorges Project and accelerate the construction of high-speed railway and freight railway along the Yangtze River. We will give full play to the overall advantages of industrial coordination and connectivity to build a green industrial system, and make every effort to protect the cultural relics and heritage of the

III. Guangdong-Hong Kong-Macao Greater Bay Area

We will strengthen collaborative development among enterprises, universities, and research institutions in Guangdong, Hong Kong, and Macao, improve the framework system consisting of "two corridors" (Guangzhou-Shenzhen-Hong Kong and Guangzhou-Zhuhai-Macao) and "two pivots" (Shenzhen-Hong Kong Science and Technology Innovation Cooperation Zone in Hetao and Guangdong-Macao Cooperation Area in Hengqin) for science and technology innovation, to promote the development of comprehensive national science centers and facilitate the cross-border flow of innovation factors. We will accelerate the construction of intercity railways, coordinate the functional layout of ports and airports, and optimize the allocation of shipping and aviation resources. We will deepen the reform of customs clearance models, and promote the convenient and efficient flow of personnel, goods, and vehicles. We will expand the scope of professional qualifications of mutual recognition between the Mainland and Hong Kong and Macao, and further promote the convergence of rules and mechanisms in key areas. We will facilitate the youth from Hong Kong and Macao to study, work, and start business in Mainland cities of the Greater Bay Area (GBA), and create top-notch youth exchange brands among Guangdong, Hong Kong, and Macao.

driving national development. We will accelerate infrastructure interconnection, achieve full coverage of high-speed rail in the cities at the prefecture level and above in the Yangtze River Delta and promote the integrated governance of port clusters. We will develop the Hongqiao International Airport as an opening hub, strengthen the role of Lingang New Area of the Shanghai Pilot Free Trade Zone (FTZ) in intensive development of an open economy, and deepen the joint development of the pilot FTZs in Shanghai, Jiangsu, Zhejiang, and Anhui. We will accelerate the sharing of public services and optimize the distribution of high-quality education and healthcare resources. We will promote the joint protection and governance of the ecological environment and build a high-level demonstration zone for integrated ecological and green development in the Yangtze River Delta.

Figure 6. Yangtze River Delta rail transit plan map

V. Ecological protection and quality-oriented development in the Yellow River Basin

We will intensify the protection and restoration of key ecosystems in the upper reaches of the Yellow River, take appropriate steps to protect Sanjiangyuan (Source of Yangtze, Yellow, and Lancang rivers) as "China's Water Tower", and enhance the water conservation capacity of Gannan, Ruoergai (Zoige), and other areas. We will seek new methods for addressing soil erosion in the middle reaches of the river in the Loess Plateau, and actively carry out comprehensive management of small watersheds, and construction of dry land terraces and silt dams. In the lower reaches, we will advance efforts to comprehensively address secondary suspended rivers and floodplains, and strengthen the protection and restoration of wetlands in the Yellow River Delta. We will tackle agricultural pollution from non-point sources in the Fen-Wei Plains and Hetao Irrigation Area, check up and rectify industrial enterprises along the Yellow River shoreline, and strengthen the construction of urban sewage treatment facilities and supporting pipe networks along the Yellow River. We will implement intensive water conservation and control initiatives to

reduce the intensity of water resource development and utilization, rationally control the intensity of coal development, and promote integrated development and utilization of energy resources and the ecological restoration of mines. We will improve the development pattern of central cities and city clusters, and coordinate the development of counties and villages along the Yellow River. We will also implement systematic conservation projects related to the Yellow River cultural heritage, create an internationally influential Yellow River cultural tourism belt, and build a pilot area for ecological protection and high-quality development in the Yellow River Basin.

第三十二章 深入实施区域协调发展战略

深入推进西部大开发、东北全面振兴、中部地区崛起、东部率先发展，支持特殊类型地区加快发展，在发展中促进相对平衡。

第一节 推进西部大开发形成新格局

强化举措推进西部大开发，切实提高政策精准性和有效性。深入实施一批重大生态工程，开展重点区域综合治理。积极融入“一带一路”建设，强化开放大通道建设，构建内陆多层次开放平台。加大西部地区基础设施投入，支持发展特色优势产业，集中力量巩固脱贫攻坚成果，补齐教育、医疗卫生等民生领域短板。推进成渝地区双城经济圈建设，打造具有全国影响力的重要经济中心、科技创新中心、改革开放新高地、高品质生活宜居地，提升关中平原城市群建设水平，促进西北地区与西南地区合作

Chapter 32 Coordinated Regional Development Strategies

The focus of coordinated regional development is on relative balance and coordination. Development efforts in the western region will be in full swing. Revitalization of the northeast remains an ongoing process. The central region is expected to witness a new takeoff. The eastern region will lead the charge. Development support will be provided to areas with special features.

I. A new stage of development in the western region

We will intensify efforts and implement more targeted and effective policies to promote large-scale development in the western region. We will implement several major ecological projects in key areas, actively integrate the regional development into the pursuit of the Belt and Road Initiative, strengthen the development of the large opening-up corridors, and build multi-level platforms for opening up interior areas. We will increase investment in infrastructure construction in the western region, support the development of competitive industries that take advantage of local strengths, pool efforts to consolidate the achievements of poverty alleviation, and shore up the weaknesses in the fields of education, health care, and people's livelihood. We will promote the development of Chengdu-Chongqing economic circle and make it an economic center, a center for science and technology innovation, a new highland of reform and opening-up, and a livable place for high-quality life of national influence. We will upgrade the city clusters in the Central Shaanxi Plain to promote cooperation and interaction between the northwest and southwest regions. We will support Xinjiang in building "three bases and one corridor" (national bases for large-scale oil and gas production and storage, for coal production, thermal power generation and coal chemical industry, and for wind power generation, as well as the national energy and resources corridor) and we will support Tibet in building an important corridor that opens to South Asia. We will promote the protection and development of the areas west of the 400 mm precipitation line.

互动。支持新疆建设国家“三基地一通道”，支持西藏打造面向南亚开放的重要通道。促进400毫米降水线西侧区域保护发展。

第二节 推动东北振兴取得新突破

从维护国家国防、粮食、生态、能源、产业安全的战略高度，加强政策统筹，实现重点突破。加快转变政府职能，深化国有企业改革攻坚，着力优化营商环境，大力发展民营经济。打造辽宁沿海经济带，建设长吉图开发开放先导区，提升哈尔滨对俄合作开放能级。加快发展现代农业，打造保障国家粮食安全的“压舱石”。加大生态资源保护力度，筑牢祖国北疆生态安全屏障。改造提升装备制造等传统优势产业，培育发展新兴产业，大力发展寒地冰雪、生态旅游等特色产业，打造具有国际影响力的冰雪旅游带，形成新的均衡发展产业结构和竞争优势。实施更具吸引力的人才集聚措施。深化与东部地区对

II. Revitalization of northeast China

From the strategic perspective of safeguarding national defense, food, ecology, energy, and industrial security, we will strengthen efforts to coordinate policies to achieve breakthroughs in prioritized areas. We will quicken our pace in shifting government functions, deepen reform of state-owned enterprises, step up efforts to improve the business environment, and vigorously develop the private economy. We will build Liaoning Coastal Economic Belt and Changchun-Jilin-Tumen Development and Opening-up Pilot Zone and improve Harbin's cooperation with and opening-up to Russia. We will accelerate the development of modern agriculture and make it a "ballast" to ensure national food security. We will intensify the protection of ecological resources and build a strong ecological security shield in northern China. We will transform and upgrade traditionally competitive industries such as equipment manufacturing, foster and develop emerging industries, vigorously develop characteristic industries including ice and snow and eco-tourism in cold regions, and build an internationally influential ice and snow tourism belt, so as to develop a new industrial structure for balanced development and competitive advantages. We will implement measures more attractive to talents, and deepen paired cooperation with the eastern region.

III. The rise of the central region

We will step up efforts to build important and advanced manufacturing bases, improve the ability of independent innovation in key areas, build a highland for opening-up of interior areas, consolidate the ecological and green development model, and promote the rapid growth of central China. We will strive for bigger and stronger advanced manufacturing, build mid-to-high-end industrial clusters along the Yangtze River and along the Beijing-Guangzhou, Lanzhou-Lianyungang, and Beijing-Kowloon railway lines, and actively undertake the deployment and transfer of emerging industries. We will promote the coordinated development of city clusters in the middle reaches of the Yangtze River, accelerate the development of Wuhan and Changsha-Zhuzhou-

口合作。

第三节 开创中部地区崛起新局面

着力打造重要先进制造业基地、提高关键领域自主创新能力、建设内陆地区开放高地、巩固生态绿色发展格局，推动中部地区加快崛起。做大做强先进制造业，在长江、京广、陇海、京九等沿线建设一批中高端产业集群，积极承接新兴产业布局和转移。推动长江中游城市群协同发展，加快武汉、长株潭都市圈建设，打造全国重要增长极。夯实粮食生产基础，不断提高农业综合效益和竞争力，加快发展现代农业。加强生态环境共保联治，着力构筑生态安全屏障。支持淮河、汉江生态经济带上下游合作联动发展。加快对外开放通道建设，高标准高水平建设内陆地区开放平台。提升公共服务保障特别是应对公共卫生等重大突发事件能力。

Xiangtan metropolitan areas, and make them important growth poles in China. We will build up the foundation for grain production, keep up efforts to improve the comprehensive benefits and competitiveness of agriculture, and accelerate the development of modern agriculture. We will enhance joint protection and governance of the ecosystem and environment and strive to build protective barriers for eco-security. We will support the inter-connected development of the upper and lower reaches of the Huaihe River and Hanjiang River ecological economic belts, accelerate the construction of corridors for opening-up, and build high-level platforms for opening up interior areas. We will improve public service support, and especially the ability to respond to public health and other major emergencies.

IV. Accelerated pace of modernization in the eastern region

We will give full play to the advantages of the eastern region in bringing together innovative factors, help the region to make faster breakthroughs in innovation, and push the region to take the lead in achieving high-quality development. We will move faster to foster world-class advanced manufacturing clusters, spearhead the development of emerging industries and modern service sectors, improve the output efficiency of production factors, and take the lead in upgrading industries. We will ensure the region can participate in international economic cooperation and competition at a higher level, create new advantages in opening-up, and take the lead in establishing a system for an all-round open economy. We will support Shenzhen to build a leading demonstration zone of socialism with Chinese characteristics, Pudong to build a leading zone of socialist modernization, and Zhejiang to build a demonstration zone of common prosperity and high-quality development. We will further promote the development of the comprehensive pilot zone to replace the old growth drivers in Shandong Province.

V. Support for development in areas with special features

We will coordinate and promote the revitalization of the old

第四节 鼓励东部地区加快推进现代化

发挥创新要素集聚优势，加快在创新引领上实现突破，推动东部地区率先实现高质量发展。加快培育世界级先进制造业集群，引领新兴产业和现代服务业发展，提升要素产出效率，率先实现产业升级。更高层次参与国际经济合作和竞争，打造对外开放新优势，率先建立全方位开放型经济体系。支持深圳建设中国特色社会主义先行示范区、浦东打造社会主义现代化建设引领区、浙江高质量发展建设共同富裕示范区。深入推进山东新旧动能转换综合试验区建设。

第五节 支持特殊类型地区发展

统筹推进革命老区振兴，因地制宜发展特色产业，传承弘扬红色文化，支持赣闽粤原中央苏区高质量发展示范，推进陕甘宁、大别山、左右江、川陕、沂蒙等革命老

revolutionary base areas, develop characteristic industries according to local conditions, inherit and carry forward the "red" culture, support the demonstration of high-quality development in the former Central Soviet Area of Jiangxi, Fujian, and Guangdong, and promote the green innovation and development of the old revolutionary base areas of Shaanxi-Gansu-Ningxia, Dabie Mountains, Zuoyoujiang, Sichuan-Shaanxi, Yimeng, etc. We will comprehensively address ecologically degraded areas, protect and restore ecologically fragile areas, and support the development of the Bijie pilot area. We will promote the development of demonstration areas for sustainable development and pilot zones for transformation and innovation in resource-based areas, comprehensively address subsidence in coal mining areas, and implement projects to upgrade independent industrial and mining areas. We will reshape the competitive advantages of manufacturing in the old industrial bases and build demonstration areas for industrial transformation and upgrade. We will improve the infrastructure of state-owned forest farms and forest regions and implement multiple measures to solve production and living difficulties faced by the people living in high altitude areas. We will vigorously boost development in border areas, improve the living standards and maintain stability and security in the region; to this end, we will improve the conditions for production and living in border areas and the urban system along the borders, support the construction of border ports, and accelerate the construction of villages and towns on the border and roads leading to border areas. We will promote innovative development of the border trade and increase targeted support for the development of key border areas.

VI. Coordinated regional development

We will establish and improve mechanisms for regional strategic planning, market-based integrated development, regional cooperation and mutual assistance, and interregional interest compensation, to better boost the common growth of developed and underdeveloped regions, eastern, central, and western regions, and the northeast of the country. We will raise the level

第六节 健全区域协调发展体制机制

建立健全区域战略统筹、市场一体化发展、区域合作互助、区际利益补偿等机制，更好促进发达地

and standards of regional cooperation, and support the provincial border areas to establish new cooperation mechanisms characterized by unified planning and management, co-construction, and benefit sharing. We will improve the mechanism of financial transfer payments to support underdeveloped areas, gradually realize equal access to basic public services, and guide talent flow to the western regions and the border and remote areas facing hardships. We will improve the regional cooperation and benefit adjustment mechanism, support various forms of benefit compensation between the upper and lower reaches of the river basins, the main grain producing and marketing areas, and the resource exporting and importing areas, and encourage the exploration of benefit sharing models via co-construction parks and enclave economy. We will foster a strong sense of community for the Chinese nation, increase support for the development of areas with concentrations of ethnic minorities, and carry out comprehensive, in-depth, and sustained publicity and education on ethnic unity and progress, to promote exchanges and interaction among all ethnic groups.

区和欠发达地区、东中西部和东北地区共同发展。提升区域合作层次和水平，支持省际交界地区探索建立统一规划、统一管理、合作共建、利益共享的合作新机制。完善财政转移支付支持欠发达地区的机制，逐步实现基本公共服务均等化，引导人才向西部和艰苦边远地区流动。完善区域合作与利益调节机制，支持流域上下游、粮食主产区主销区、资源输出地输入地之间开展多种形式的利益补偿，鼓励探索共建园区、飞地经济等利益共享模式。聚焦铸牢中华民族共同体意识，加大对民族地区发展支持力度，全面深入持久开展民族团结进步宣传教育和创建，促进各民族交往交流交融。

第三十三章 积极拓展海洋经济发展空间

坚持陆海统筹、人海和谐、合作共赢，协同推进海洋生态保护、海洋经济发展和海洋权益维护，加

Chapter 33 Development of the Marine Economy

Coordinated development is the key. Coordination is required for activities on land and at sea to protect the health and integrity of marine ecosystems and the harmony between people and the sea while developing the marine economy. International cooperation is important in the search for win-win solutions. We will not falter in our efforts to protect our maritime rights and interests, and to build China into a strong maritime country.

快建设海洋强国。

第一节 建设现代海洋产业体系

围绕海洋工程、海洋资源、海洋环境等领域突破一批关键核心技术。培育壮大海洋工程装备、海洋生物医药产业，推进海水淡化和海洋能规模化利用，提高海洋文化旅游开发水平。优化近海绿色养殖布局，建设海洋牧场，发展可持续远洋渔业。建设一批高质量海洋经济发展示范区和特色化海洋产业集群，全面提高北部、东部、南部三大海洋经济圈发展水平。以沿海经济带为支撑，深化与周边国家涉海合作。

第二节 打造可持续海洋生态环境

探索建立沿海、流域、海域协同一体的综合治理体系。严格围填海管控，加强海岸带综合管理与滨海湿地保护。拓展入海污染物排放

I. Development of marine industries

We will make several breakthroughs in core technologies related to marine engineering, marine resources, and marine environment. We will foster and expand marine engineering equipment and marine biomedical industry, promote seawater desalination and large-scale utilization of marine energy, and enhance the development of marine cultural tourism. We will optimize the distribution of green aquaculture in coastal areas, build marine pastures, and develop sustainable pelagic fisheries. We will build several demonstration zones for high-quality development of marine economy and characteristic marine industrial clusters, and comprehensively boost the development of the three major marine economic circles in the north, east, and south. We will deepen sea-related cooperation with neighboring countries based on coastal economic belts.

II. Sustainability of marine ecosystems and habitats

We will explore the establishment of a coordinated system for comprehensive management that covers coastal areas, river basins, and sea areas. We will impose stricter management and control on sea reclamation, and step up comprehensive management of coastal zones and coastal wetland protection. We will expand the control range of total discharge volume of pollutants into the sea to ensure good water quality of the sections of the rivers flowing into the sea. We will accelerate comprehensive treatment of key sea areas, build a mechanism for coordinated pollution prevention and control of river basins, estuaries, and coastal waters, and promote the protection and construction of beautiful bays. We will guard against major environmental risks such as oil spills and hazardous chemical leakage and improve our ability to cope with maritime natural disasters and environmental emergencies. We will improve the systems for coastline protection and paid use of sea areas and uninhabited islands, and explore the regulation of the retraction line of coastal buildings and compensation for damages to marine ecosystem and environment, to ensure the natural coastline

总量控制范围，保障入海河流断面水质。加快推进重点海域综合治理，构建流域－河口－近岸海域污染防治联动机制，推进美丽海湾保护与建设。防范海上溢油、危险化学品泄露等重大环境风险，提升应对海洋自然灾害和突发环境事件能力。完善海岸线保护、海域和无居民海岛有偿使用制度，探索海岸建筑退缩线制度和海洋生态环境损害赔偿制度，自然岸线保有率不低于35%。

第三节 深度参与全球海洋治理

积极发展蓝色伙伴关系，深度参与国际海洋治理机制和相关规则制定与实施，推动建设公正合理的国际海洋秩序，推动构建海洋命运共同体。深化与沿海国家在海洋环境监测和保护、科学研究和海上搜救等领域务实合作，加强深海战略性资源和生物多样性调查评价。参与北极务实合作，建设“冰上丝绸之路”。提高参与南极保护和利用

retention rate is no less than 35%.

III. Participation in global marine governance

We will actively develop the blue partnership, fully participate in the formulation and implementation of mechanisms and rules for international maritime governance, and promote the building of a just and equitable international maritime order and development of a marine community with a shared future. We will increase practical cooperation with coastal countries in the fields of marine environmental monitoring and protection, scientific research and maritime search and rescue, and intensify the investigation and evaluation of deep-sea strategic resources and biodiversity. We will join in practical cooperation in the Arctic and build the "Silk Road on Ice". We will enhance our ability to participate in the Antarctic conservation and utilization. We will step up efforts to study and evaluate situations, prevent risks, and handle legal issues, and strengthen maritime judicial system building, to resolutely safeguard China's maritime rights and interests and promote the formulation of the basic marine law in an orderly manner.

能力。加强形势研判、风险防范和法理斗争，加强海事司法建设，坚决维护国家海洋权益。有序推进海洋基本法立法。

第十篇 发展社会主义先进文化 提升国家文化软实力

坚持马克思主义在意识形态领域的指导地位，坚定文化自信，坚持以社会主义核心价值观引领文化建设，围绕举旗帜、聚民心、育新人、兴文化、展形象的使命任务，促进满足人民文化需求和增强人民精神力量相统一，推进社会主义文化强国建设。

Part X Socialist Cultural Development and China's Soft Power

Marxism guides all activities in our ideological space. Reflecting confidence in our culture, cultural development informed by our core socialist values promotes moral ideals, forges cohesion, helps the younger generation grow and thrive, enriches tradition, and shapes our national image. It helps meet the people's cultural needs and provides emotional support. It is therefore essential to enhance socialist cultural development.

第三十四章 提高社会文明程度

加强社会主义精神文明建设，培育和践行社会主义核心价值观，推动形成适应新时代要求的思想观念、精神面貌、文明风尚、行为规范。

第一节 推动理想信念教育常

Chapter 34 Ethical Behavior

Efforts will be ongoing to promote ethical standards informed by core socialist values in response to the needs in the new era. Character development is especially relevant in this respect to foster a positive ethos, civility, and ethical behavior.

I. Moral education as a regular activity

We will strengthen efforts to carry out education in Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era and improve the work system of arming the whole Party and educating people with the Party's innovation theory. We will establish and improve the system and long-term mechanism of "remaining true to our original intention and keeping our mission

深入开展习近平新时代中国特色社会主义思想学习教育，健全用党的创新理论武装全党、教育人民的工作体系。建立健全“不忘初心、牢记使命”的制度和长效机制，加强和改进思想政治工作，持续开展中国特色社会主义和中国梦宣传教育，加强党史、新中国史、改革开放史、社会主义发展史教育，加强爱国主义、集体主义、社会主义教育，加强革命文化研究阐释和宣传教育，弘扬党和人民在各个历史时期奋斗中形成的伟大精神。完善弘扬社会主义核心价值观的法律政策体系，把社会主义核心价值观要求融入法治建设和社会治理，体现到国民教育、精神文明创建、文化产品创作生产全过程。完善青少年理想信念教育齐抓共管机制。

第二节 发展中国特色哲学社会科学

firmly in mind", strengthen and improve our ideological and political work, continue the publicity and education on socialism with Chinese characteristics and the Chinese Dream, intensify education on the history of the Party, the history of new China, the history of reform and opening-up, and the history of socialist development, as well as the education on patriotism, collectivism, and socialism. We will strengthen research, interpretation, publicity, and education on revolutionary heritage and carry forward the great spirit of the Party and the people that was formed during various historical struggles. We will improve the legal and policy system for promoting the socialist core values, incorporate the requirements of the socialist core values into the improvement of the rule of law and social governance, and embody them in the whole process of national education, improvement of public civility, as well as the creation and production of cultural products. We will improve the mechanism for coordination and cooperation in the education of young people on ideals and convictions.

II. Philosophical studies and social sciences with Chinese characteristics

We will strengthen comprehensive and systematic research, publication, dissemination, publicity, and interpretation of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and work to adapt Marxism to China's conditions, keep it up-to-date, and enhance its popular appeal. We will carry out the Marxist Theory Research and Development Project, build centers (institutions) for the study of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era and the theories of Socialism with Chinese Characteristics, and establish and make good use of learning platforms such as "xuexi.cn". We will build a discipline system, academic system, and discourse system of philosophy and social sciences with Chinese characteristics, further implement philosophy and social science innovation projects, and step up efforts to build new think tanks with Chinese characteristics.

加强对习近平新时代中国特色社会主义思想的整体性系统性研究、出版传播、宣传阐释，推进马克思主义中国化、时代化、大众化。深入实施马克思主义理论研究和建设工程，推进习近平新时代中国特色社会主义思想研究中心（院）、中国特色社会主义理论体系研究中心等建设，建好用好“学习强国”等学习平台。构建中国特色哲学社会科学学科体系、学术体系和话语体系，深入实施哲学社会科学创新工程，加强中国特色新型智库建设。

第三节 传承弘扬中华优秀传统文化

深入实施中华优秀传统文化传承发展工程，强化重要文化和自然遗产、非物质文化遗产系统性保护，推动中华优秀传统文化创造性转化、创新性发展。加强文物科技创新，实施中华文明探源和考古中国工程，开展中华文化资源普查，加强文物和古籍保护研究利用，推

III. Building on fine traditional Chinese culture

We will implement programs to carry on the best of Chinese cultural traditions and heritage, improve the systematic protection of important cultural and natural heritage and intangible cultural heritage, and promote the creative conversion and development of fine traditional Chinese culture. We will strengthen scientific and technological innovation related to cultural relics, implement projects that explore the origin of Chinese civilization and archaeology in China, carry out general surveys of Chinese cultural resources, strengthen the conservation, research, and utilization of cultural relics and ancient books, promote the protection of revolutionary cultural relics and "red" sites, and improve the system of recourse and retrieval of lost cultural relics. We will build national cultural parks themed on the Great Wall, the Grand Canal, the Long March, the Yellow River, and so on, and better conserve world cultural heritage, cultural relics protection units, archaeological site parks, as well as China's renowned historic and cultural cities, towns, and villages. We will improve the system for conservation and inheritance of intangible cultural heritage and better protect and inherit the excellent traditional handicrafts of all ethnic groups.

IV. Ethical values and civility

We will advance civic morality and vigorously promote social morality, professional ethics, family values, and integrity of individuals. We will publicize and learn from the winners of national medals and national honorary titles, models of the times, models of high morality, the most beautiful people, and good people around us. We will implement initiatives to improve public etiquette and ethical standards, build more Chinese cultural centers in the new era, do a good job in the election and commendation of exemplary cities, villages, towns, entities, campuses, and families in a sound and standardized manner, and further raise the intellectual and moral standards of children and the youth. We will improve social norms including civic conventions, village regulations and agreements, student rules and regulations, as well as provisions of

第四节 持续提升公民文明素养

推进公民道德建设，大力开展社会公德、职业道德、家庭美德、个人品德建设。开展国家勋章、国家荣誉称号获得者和时代楷模、道德模范、最美人物、身边好人的宣传学习。实施文明创建工程，拓展新时代文明实践中心建设，科学规范做好文明城市、文明村镇、文明单位、文明校园、文明家庭评选表彰，深化未成年人思想道德建设。完善市民公约、乡规民约、学生守则、团体章程等社会规范，建立惩戒失德行为机制。弘扬诚信文化，建设诚信社会。广泛开展志愿服务

organizations, and establish a mechanism for punishing immoral behavior. We will promote the culture of integrity throughout the society; extensively carry out volunteer services campaigns to help those in need; encourage hard work, diligence, and frugality; and carry out publicity and education on the theme of creating happiness through work. We will also improve ethical standards and advance civility in cyberspace and develop a positive and healthy cyberspace culture.

关爱行动。提倡艰苦奋斗、勤俭节约，开展以劳动创造幸福为主题的宣传教育。加强网络文明建设，发展积极健康的网络文化。

第三十五章 提升公共文化服务水平

坚持为人民服务、为社会主义服务的方向，坚持百花齐放、百家争鸣的方针，加强公共文化服务体系建设和体制机制创新，强化中华文化传播推广和文明交流互鉴，更好保障人民文化权益。

第一节 加强优秀文化作品创作生产传播

把提高质量作为文艺作品的生命线，提高文艺原创能力。实施文艺作品质量提升工程，健全重大现实、重大革命、重大历史题材创作规划组织机制，加强农村、少儿等题材创作，不断推出反映时代新气象、讴歌人民新创造的文艺精品。建立健全文化产品创作生产、传播引导、宣传推广的激励机制和评价

Chapter 35 Public Cultural Services

Culture should serve the needs of the people and contribute to the socialist cause. Through cultural activities, we "let a hundred flowers bloom and a hundred schools of thought contend". Public cultural services and the institutional framework for these services should be strengthened in an innovative manner to better protect the people's cultural rights and interests, help disseminate Chinese cultural products, and facilitate cultural exchanges.

I. Creation, production, and dissemination of quality cultural products

We will take quality improvement as the lifeline of literary and artistic works and improve our ability to create original literature and arts. To this end we will carry out projects to improve the quality of literary and artistic works, improve the planning and organization mechanism for the creation of works on major realistic, revolutionary, and historical themes, strengthen the creation of works on rural and children's themes, and continue to launch high-quality literary and artistic works that reflect the new ethos of the times and eulogize the innovation and creativity of the people. We will establish and improve the incentive mechanism and evaluation system for the conception, production, dissemination, guidance, and promotion of cultural products, and promote the formation of a healthy and clean literary and artistic ecosystem. We will strengthen the building of cultural teams, and train high-level creative talents, and promote eminent figures of moral integrity and outstanding artistic competence.

II. Public cultural services

体系，推动形成健康清朗的文艺生态。加强文化队伍建设，培养造就高水平创作人才和德艺双馨的名家大师。

第二节 完善公共文化服务体系

优化城乡文化资源配置，推进城乡公共文化服务体系一体建设。创新实施文化惠民工程，提升基层综合性文化服务中心功能，广泛开展群众性文化活动。推进公共图书馆、文化馆、美术馆、博物馆等公共文化场馆免费开放和数字化发展。推进媒体深度融合，做强新型主流媒体。完善应急广播体系，实施智慧广电固边工程和乡村工程。发展档案事业。深入推进全民阅读，建设“书香中国”，推动农村电影放映优化升级。创新公共文化服务运行机制，鼓励社会力量参与公共文化服务供给和设施建设运营。

We will optimize the allocation of urban and rural cultural resources, and promote integrated development of urban and rural public cultural services. We will launch new public cultural projects, improve the functions of community-level multipurpose cultural service centers, and extensively carry out mass cultural activities. We will promote the free admission and digital development of public libraries, cultural centers, art galleries, museums, and other public cultural venues. We will boost the in-depth integration of media and improve new mainstream media. We will improve the emergency broadcast system and implement projects to enhance the functions of smart radio and television in maintaining social order in the border and rural areas. We will develop archiving systems, further promote nationwide reading to build China into a nation of avid readers, and upgrade film screening facilities in rural areas. We will develop new operation mechanisms for public cultural services and encourage social forces to participate in the supply of public cultural services and the construction and operation of relevant facilities.

III. International appeal of Chinese culture

We will strengthen cultural exchanges with foreign countries and multi-level dialogue with global civilizations, innovate and promote international communication to share China's stories, spread China's voice, and promote people-to-people connectivity through both online and offline channels. We will carry out activities such as "Reading China", "Journey around China", and "See and Hear China", and make every effort to hold the Chinese Culture Year (Festival) and China Tourism Year (Festival). We will establish platforms for Chinese language communication and develop a global communication system for Chinese language and culture and an international standard system for Chinese language education.

第三节 提升中华文化影响力

加强对外文化交流和多层次文明对话，创新推进国际传播，利用网上网下，讲好中国故事，传播好中国声音，促进民心相通。开展“感知中国”、“走读中国”、“视听中国”活动，办好中国文化年（节）、旅游年（节）。建设中文传播平台，构建中国语言文化全球传播体系和国际中文教育标准体系。

第三十六章 健全现代文化产业体系

坚持把社会效益放在首位、社会效益和经济效益相统一，健全现代文化产业体系和市场体系。

第一节 扩大优质文化产品供给

实施文化产业数字化战略，加快发展新型文化企业、文化业态、文化消费模式，壮大数字创意、网络视听、数字出版、数字娱乐、线

Chapter 36 Cultural Industries

Social benefits are always the top consideration. Pursuit of economic returns should be aligned with the delivery of social benefits, a requirement that underpins the development of cultural industries and markets.

I. The supply of high-quality cultural products

We will implement the strategy of digitizing cultural industries, accelerate the development of new types of cultural enterprises, forms of cultural business, and modes of cultural consumption, and strengthen digital creativity, online audio-video, digital publishing, digital entertainment, and online broadcasting industries. We will step up efforts to improve the production and broadcasting capacity of ultra-high-definition TV programs, upgrade TV channels for high-definition broadcasting and promote the application of immersive video and cloud broadcasting. We will implement cultural branding strategies and create influential and representative cultural brands, develop leading cultural

上演播等产业。加快提升超高清电视节目制播能力，推进电视频道高清化改造，推进沉浸式视频、云转播等应用。实施文化品牌战略，打造一批有影响力、代表性的文化品牌。培育骨干文化企业，规范发展文化产业园区，推动区域文化产业带建设。积极发展对外文化贸易，开拓海外文化市场，鼓励优秀传统文化产品和影视剧、游戏等数字文化产品“走出去”，加强国家文化出口基地建设。

第二节 推动文化和旅游融合发展

坚持以文塑旅、以旅彰文，打造独具魅力的中华文化旅游体验。深入发展大众旅游、智慧旅游，创新旅游产品体系，改善旅游消费体验。加强区域旅游品牌和服务整合，建设一批富有文化底蕴的世界级旅游景区和度假区，打造一批文化特色鲜明的国家级旅游休闲城市和街区。推进红色旅游、文化遗产旅游、旅游演艺等创新发展，提升

enterprises, standardize the development of cultural industrial parks, and promote the construction of regional cultural industrial belts. We will vigorously develop foreign cultural trade, open up overseas cultural markets, encourage excellent traditional cultural products and digital cultural products such as films, TV dramas, and games to "go global", and strengthen the construction of national cultural export bases.

II. Integrated development of culture and tourism

We will offer a unique Chinese cultural tourism experience by shaping tourism through culture and highlighting culture through tourism. We will further develop mass tourism and smart tourism, innovate tourism products, and offer better tourism consumption experience. We will strengthen the integration of regional tourism brands and services and build world-class tourist attractions and resorts with rich cultural connotations as well as national tourism and leisure cities and blocks with distinctive cultural characteristics. We will promote the innovative development of "red" tourism, cultural heritage tourism, and tourism performance, improve the quality of services for holiday recreation and rural tourism, and adopt better policies for the development of cruises, yachts, and low-altitude tourism. We will improve the tourism infrastructure and distribution system, promote a revolution of public toilets in tourist attractions, and construct smart scenic spots. We will establish a system for evaluating the quality of tourism services, and regulate online tourism business services.

III. Reforms in the cultural sector

We will improve the cultural management system and the mechanism of cultural production and operation, as well as the efficiency of cultural governance. We will improve the institutions and mechanisms for managing state-owned cultural assets, deepen reforms of cultural institutions for public benefit, and promote the reform of public cultural institutions' corporate governance structure. We will advance the reform of different types of state-owned cultural enterprises, and promote the reform of

度假休闲、乡村旅游等服务品质，完善邮轮游艇、低空旅游等发展政策。健全旅游基础设施和集散体系，推进旅游厕所革命，强化智慧景区建设。建立旅游服务质量评价体系，规范在线旅游经营服务。

第三节 深化文化体制改革

完善文化管理体制和生产经营机制，提升文化治理效能。完善国有文化资产管理体制机制，深化公益性文化事业单位改革，推进公共文化机构法人治理结构改革。深化国有文化企业分类改革，推进国有文艺院团改革和院线制改革。完善文化市场综合执法体制，制定未成年人网络保护、信息网络传播视听等领域法律法规。

state-owned literature and art troupes, as well as cinema reform. We will improve the system of comprehensive law enforcement in cultural markets and formulate laws and regulations for protection of minors when it comes to Internet, online information communication and transmission and other fields.

第十一篇 推动绿色发展 促进人与自然和谐共生

Part XI Green Development and Harmonious Co-existence between Humanity and Nature

坚持绿水青山就是金山银山理念，坚持尊重自然、顺应自然、保

We will stay true to the principle that lucid waters and lush mountains are invaluable assets by respecting nature, conforming to nature, and protecting nature. We will prioritize conservation, protection, and natural recovery, implement the sustainable

护自然，坚持节约优先、保护优先、自然恢复为主，实施可持续发展战略，完善生态文明领域统筹协调机制，构建生态文明体系，推动经济社会发展全面绿色转型，建设美丽中国。

development strategy, improve the overall coordination mechanism in the field of ecological civilization, build an ecological civilization system, and promote comprehensive transformation towards green economic and social development to build a beautiful China.

第三十七章 提升生态系统质量和稳定性

坚持山水林田湖草系统治理，着力提高生态系统自我修复能力和稳定性，守住自然生态安全边界，促进自然生态系统质量整体改善。

第一节 完善生态安全屏障体系

强化国土空间规划和用途管控，划定落实生态保护红线、永久基本农田、城镇开发边界以及各类海域保护线。以国家重点生态功能区、生态保护红线、国家级自然保护地等为重点，实施重要生态系统保护和修复重大工程，加快推进青藏高原生态屏障区、黄河重点生态区、长江重点生态区和东北森林

Chapter 37 Improving the Ecosystem

We will continue the systematic governance of mountains, rivers, forests, farmland, lakes, and grassland, strive to improve the self-rehabilitation ability and stability of ecosystems, make sure that the red line of ecological security is not crossed, and improve the overall quality of natural ecosystems.

I. Improving the eco-security shield system

We will strengthen the planning of territorial space and control over its use, draw red lines for ecological protection, boundary lines for permanent basic cropland and land for urban development, and protection lines for all types of sea areas, and ensure that these lines are not crossed. Focusing on the national key ecological areas and red lines for ecological protection, national nature reserves, etc., we will implement major projects for the protection and restoration of important ecosystems, and accelerate the construction of protective barriers for eco-security in the Qinghai-Tibet Plateau, the important ecological areas along the Yellow River and the Yangtze River, the northeast forest belts, the sand control belts in the north, the hilly and mountainous areas in the south, and the coastal zones. We will strengthen ecological protection and governance of the Yangtze River, the Yellow River, and other major rivers, as well as important lakes and wetlands, and put more efforts towards building and protecting important ecological corridors. We will comprehensively strengthen the protection of natural forests and wetlands and increase the wetland

带、北方防沙带、南方丘陵山地带、海岸带等生态屏障建设。加强长江、黄河等大江大河和重要湖泊湿地生态保护治理，加强重要生态廊道建设和保护。全面加强天然林和湿地保护，湿地保护率提高到55%。科学推进水土流失和荒漠化、石漠化综合治理，开展大规模国土绿化行动，推行林长制。科学开展人工影响天气活动。推行草原森林河流湖泊休养生息，健全耕地休耕轮作制度，巩固退耕还林还草、退田还湖还湿、退围还滩还海成果。

第二节 构建自然保护地体系

科学划定自然保护地保护范围及功能分区，加快整合归并优化各类保护地，构建以国家公园为主体、自然保护区为基础、各类自然公园为补充的自然保护地体系。严格管控自然保护地范围内非生态活动，稳妥推进核心区内居民、耕

protection rate to 55%. We will make solid efforts to comprehensively control soil erosion, desertification, and stony desertification, carry out large-scale land afforestation, and introduce the forest-chief system. We will carry out weather modification initiatives based on science; promote the rehabilitation of grasslands, forests, rivers, and lakes; improve the rotation and fallow system of cultivated land; and consolidate the achievements of converting cropland to forests and grasslands, converting farmland to lakes and wetlands and embankments into part of beaches and seas.

Figure 7. Layout of major ecosystem protection and restoration projects

II. The nature reserve system

We will appropriately delimit the scope and functional zones of nature reserves, accelerate their integration and optimization, and build a nature reserve system with national parks as the mainstay, nature reserves as the basis, and nature parks as the supplement. We will strictly control non-ecological activities within nature reserves, and steadily promote the orderly withdrawal of residents, cultivated land, and mining rights from the core areas. We will improve the management institutions and operation mechanisms of national parks and integrate and set up several national parks. We will implement major biodiversity conservation projects, build a biodiversity conservation network, strengthen the protection and restoration of species on the national key list of protected wild plants and animals and rare and endangered wildlife as well as their habitats, and intensify the control of alien species. We will improve policies on land and sea use for ecological protection and restoration as well as the regulatory system of nature reserves and ecological protection red lines, and monitor and evaluate the effectiveness of ecosystem protection.

III. The mechanism of compensation for ecological conservation

We will increase transfer payments to key ecological areas, source

地、矿权有序退出。完善国家公园管理体制和运营机制，整合设立一批国家公园。实施生物多样性保护重大工程，构筑生物多样性保护网络，加强国家重点保护和珍稀濒危野生动植物及其栖息地的保护修复，加强外来物种管控。完善生态保护和修复用地用海等政策。完善自然保护地、生态保护红线监管制度，开展生态系统保护成效监测评估。

第三节 健全生态保护补偿机制

加大重点生态功能区、重要水系源头地区、自然保护地转移支付力度，鼓励受益地区和保护地区、流域上下游通过资金补偿、产业扶持等多种形式开展横向生态补偿。完善市场化多元化生态补偿，鼓励各类社会资本参与生态保护修复。完善森林、草原和湿地生态补偿制度。推动长江、黄河等重要流域建立全流域生态补偿机制。建立生态产品价值实现机制，在长江流域和

areas of important rivers, and nature reserves, and encourage horizontal ecological compensation between benefited areas and protected areas, and between the upper and lower reaches of river basins through various forms including financial compensation and business-driven development support. We will improve market-oriented and diversified ecological compensation and encourage all kinds of private capital to participate in ecological conservation and restoration. We will improve the ecological compensation system for forests, grasslands, and wetlands. We will promote the establishment of a basin-wide ecological compensation mechanism along the Yangtze River, the Yellow River, and other important rivers. We will establish a mechanism to realize the value of ecological products, carry out pilot projects in the Yangtze River Basin and Sanjiangyuan National Park, and formulate and implement regulations on compensation for ecological conservation.

三江源国家公园等开展试点。制定实施生态保护补偿条例。

第三十八章 持续改善环境质量

深入打好污染防治攻坚战，建立健全环境治理体系，推进精准、科学、依法、系统治污，协同推进减污降碳，不断改善空气、水环境质量，有效管控土壤污染风险。

第一节 深入开展污染防治行动

坚持源头防治、综合施策，强化多污染物协同控制和区域协同治理。加强城市大气质量达标管理，推进细颗粒物（PM2.5）和臭氧（O3）协同控制，地级及以上城市PM2.5浓度下降10%，有效遏制O3浓度增长趋势，基本消除重污染天气。持续改善京津冀及周边地区、汾渭平原、长三角地区空气质量，因地制宜推动北方地区清洁取暖、

Chapter 38 Continuous Environmental Improvement

We will increase efforts to prevent and control pollution, establish and improve the environmental governance system, promote accurate, scientific, law-based and systematic pollution control, work together to reduce pollution and carbon emissions, consistently improve air and water environment quality, and effectively control soil pollution risk.

I. Furthering pollution prevention and control

We will continue to prevent and control pollutants at sources, and adopt a comprehensive approach to strengthen coordinated control of multiple pollutants and coordinated treatment among regions. We will improve the management for meeting required air quality standards in urban areas, promote coordinated control of fine particulate matter (PM2.5) and ozone (O3), reduce the PM2.5 concentration in cities at and above the prefectural level by 10%, effectively curb the increase in O3 concentration, and basically eliminate heavy air pollution. We will continue to improve the air quality in Beijing-Tianjin-Hebei region and its surrounding areas, as well as Fen-Wei Plains and Yangtze River Delta; promote clean heating in northern China based on local conditions, promote industrial furnace treatment and transformation of non-electric industries towards ultra-low emission, and accelerate the comprehensive treatment of volatile organic compound (VOCs) emissions, with the total emissions of nitrogen oxides (NOx) and VOCs reduced by more than 10%. We will improve the coordination mechanism for water pollution prevention and control in river basins, intensify the comprehensive treatment of key river basins, key lakes, urban water bodies, and offshore areas, promote the protection and construction of beautiful rivers and

工业窑炉治理、非电行业超低排放改造，加快挥发性有机物排放综合整治，氮氧化物和挥发性有机物排放总量分别下降10%以上。完善水污染防治流域协同机制，加强重点流域、重点湖泊、城市水体和近岸海域综合治理，推进美丽河湖保护与建设，化学需氧量和氨氮排放总量分别下降8%，基本消除劣Ⅴ类国控断面和城市黑臭水体。开展城市饮用水水源地规范化建设，推进重点流域重污染企业搬迁改造。推进受污染耕地和建设用地管控修复，实施水土环境风险协同防控。加强塑料污染全链条防治。加强环境噪声污染治理。重视新污染物治理。

第二节 全面提升环境基础设施水平

构建集污水、垃圾、固废、危废、医废处理处置设施和监测监管能力于一体的环境基础设施体系，形成由城市向建制镇和乡村延伸覆盖的环境基础设施网络。推进城镇污水管网全覆盖，开展污水处理差

lakes by reducing the total chemical oxygen demand (COD) and ammonia nitrogen emissions by 8%, and basically eliminate substandard Grade V surface water sections controlled at the national level and urban black and malodorous water bodies. We will carry out standardized construction of sources of urban drinking water, and promote the relocation and transformation of heavy pollution enterprises in key river basins. We will promote the control and restoration of contaminated land for farming and for construction, and implement coordinated prevention and control of water and soil environmental risks. We will improve the prevention and control against plastic pollution throughout the chain, better control environmental noise pollution, and at the same time, attach importance to the treatment of new pollutants.

II. Comprehensive improvement of environmental infrastructure

We will build a system of environmental infrastructure that integrates sewage, garbage, solid waste, hazardous waste, and medical waste treatment and disposal facilities and monitoring and supervising capabilities, and form an environmental infrastructure network extending from cities to towns and villages. We will promote complete coverage of the urban sewage pipe network, carry out differential and accurate upgrade of sewage treatment, and promote centralized incineration of sludge for harmless treatment, so that the 90% of urban sludge is harmlessly treated and over 25% of sewage is recycled in water-deficient cities at the prefecture level and above. We will set up a household waste treatment system with separate dumping, collection, transportation, and treatment of different types of waste based on waste sorting. We will deploy facilities for centralized recycling and disposal of hazardous waste with emphasis put on major industrial bases. We will accelerate the construction of centralized treatment facilities for medical waste in cities that are at and above the prefecture level, and improve the system for collection, transportation, and disposal of medical waste in counties.

III. Environmental risk prevention and controls

别化精准提标，推广污泥集中焚烧无害化处理，城市污泥无害化处置率达到90%，地级及以上缺水城市污水资源化利用率超过25%。建设分类投放、分类收集、分类运输、分类处理的生活垃圾处理系统。以主要产业基地为重点布局危险废弃物集中利用处置设施。加快建设地级及以上城市医疗废弃物集中处理设施，健全县域医疗废弃物收集转运处置体系。

We will establish and improve the mechanism for evaluation and early warning of and emergency response to key risk sources. We will comprehensively rectify illegal stockpiling of solid waste and improve the regulation and risk prevention capabilities for hazardous waste. We will strengthen the monitoring and early warning of heavy metal pollution in key areas and industries. We will improve the system for managing environmental risks from toxic and hazardous chemicals and complete the relocation and transformation of hazardous chemical production enterprises in key areas. We will rigorously supervise nuclear and radiation safety and promote the prevention and control of radioactive pollution. In terms of ecological and environmental emergencies, we will establish a post-event assessment mechanism and a public health impact assessment system. In high-risk sectors, we will promote compulsory environmental pollution liability insurance.

第三节 严密防控环境风险

建立健全重点风险源评估预警和应急处置机制。全面整治固体废物非法堆存，提升危险废弃物监管和风险防范能力。强化重点区域、重点行业重金属污染监控预警。健全有毒有害化学物质环境风险管理体制，完成重点地区危险化学品生产企业搬迁改造。严格核与辐射安全监管，推进放射性污染防治。建立生态环境突发事件后评估机制和公众健康影响评估制度。在高风险

V. Coping with climate change

We will make sustained efforts to achieve the objectives of China's Intended Nationally Determined Contributions 2030 and formulate an action plan to reach the peak of carbon emissions by 2030. We will improve the double control system of total energy consumption and intensity with a focus put on controlling fossil energy consumption. We will implement a system that focuses on carbon intensity control supplemented by total carbon emission control, and support the key industries and enterprises in the places where conditions permit to take the lead in reaching the peak of carbon emissions. We will promote clean, low-carbon, safe and efficient use of energy, and further promote the transformation of industries, construction, transportation, and other sectors towards low-carbon development. We will increase efforts to control methane, hydrofluorocarbons, perfluorocarbons, and other greenhouse gases, increase the carbon sink capacity of ecosystems, and anchor efforts to achieve carbon neutrality by 2060 by adopting even more robust policies and measures. We will intensify the observation and assessment of the impact of global warming on vulnerable areas in China, and enhance the capacity of urban and rural construction, agricultural production, and infrastructure, to

领域推行环境污染强制责任保险。

第四节 积极应对气候变化

落实2030年应对气候变化国家自主贡献目标，制定2030年前碳排放达峰行动方案。完善能源消费总量和强度双控制度，重点控制化石能源消费。实施以碳强度控制为主、碳排放总量控制为辅的制度，支持有条件的地方和重点行业、重点企业率先达到碳排放峰值。推动能源清洁低碳安全高效利用，深入推进工业、建筑、交通等领域低碳转型。加大甲烷、氢氟碳化物、全氟化碳等其他温室气体控制力度。提升生态系统碳汇能力。锚定努力争取2060年前实现碳中和，采取更加有力的政策和措施。加强全球气候变暖对我国承受力脆弱地区影响的观测和评估，提升城乡建设、农业生产、基础设施适应气候变化能力。加强青藏高原综合科学考察研究。坚持公平、共同但有区别的责任及各自能力原则，建设性参与和引领应对气候变化国际

adapt to climate change. We will exert more efforts on comprehensive scientific research on the Qinghai-Tibet Plateau. On the basis of equity and in accordance with the common but differentiated responsibilities and respective capabilities of all countries, we will play a constructive role and lead international cooperation in responding to climate change, promote the implementation of the United Nations Framework Convention on Climate Change and its Paris Agreement, and actively carry out South-South cooperation on climate change.

V. Modern environmental governance system

We will establish a system for coordinated above-ground and underground ecological and environmental governance on land and at sea. We will implement the emission permit system across the board, ensure that emission permits cover all fixed pollution sources, ensure industrial polluters comply with emission standards within a specified time limit, and facilitate market-based trading of emission rights, energy consumption rights, water use rights, and carbon emission rights. We will improve the management of obligatory targets for environmental protection, energy conservation, and emission reduction, improve the management and protection mechanism of rivers and lakes, and strengthen the river-chief and lake-chief system. We will strengthen audit of natural resource assets at the end of the tenure of leading officials. We will improve the central supervision system for ecological environment protection, as well as the vertical management system for monitoring, supervision, and law enforcement of eco-environmental institutions that are at and below the provincial level, promote the reform of comprehensive law enforcement with respect to eco-environmental protection, and improve the system of eco-environmental public interest litigation. We will increase environmental protection information publicity, step up efforts to build up the environmental governance corporate responsibility system, and improve the mechanisms for public supervision and feedback on complaints, to guide non-governmental organizations and the public to participate in

合作，推动落实联合国气候变化框架公约及其巴黎协定，积极开展气候变化南南合作。

第五节 健全现代环境治理体系

建立地上地下、陆海统筹的生态环境治理制度。全面实行排污许可制，实现所有固定污染源排污许可证核发，推动工业污染源限期达标排放，推进排污权、用能权、用水权、碳排放权市场化交易。完善环境保护、节能减排约束性指标管理。完善河湖管理保护机制，强化河长制、湖长制。加强领导干部自然资源资产离任审计。完善中央生态环境保护督察制度。完善省以下生态环境机构监测监察执法垂直管理制度，推进生态环境保护综合执法改革，完善生态环境公益诉讼制度。加大环保信息公开力度，加强企业环境治理责任制度建设，完善公众监督和举报反馈机制，引导社会组织和公众共同参与环境治理。

environmental governance. (To be continued)

(Note: PM2.5 refers to PM2.5 and O3 refers to O3)

（未完待续）

（注：PM2.5 为PM 右下角加2.5，O3为O右下角加3）

第三十九章 加快发展方式绿色转型

坚持生态优先、绿色发展，推进资源总量管理、科学配置、全面节约、循环利用，协同推进经济高质量发展和生态环境高水平保护。

第一节 全面提高资源利用效率

坚持节能优先方针，深化工业、建筑、交通等领域和公共机构节能，推动5G、大数据中心等新兴领域能效提升，强化重点用能单位节能管理，实施能量系统优化、节能技术改造等重点工程，加快能耗限额、产品设备能效强制性国家标准制修订。实施国家节水行动，建立水资源刚性约束制度，强化农业节水增效、工业节水减排和城镇节水降损，鼓励再生水利用，单位

Chapter 39 Faster Transformation for Green Development

We will prioritize the ecology and pursue green development, promote overall resource management, scientific allocation, comprehensive conservation, and recycling, and coordinate efforts to drive high-quality economic development and high-level ecological environment protection.

I. Higher resource utilization efficiency

We will prioritize and pursue the policy of energy conservation to improve energy conservation in industry, construction, transportation, and public institutions; raise energy use efficiency in emerging fields such as 5G and big data centers; strengthen energy-saving management of key energy users; implement energy system optimization and energy-saving technology transformation and other key projects; and accelerate the formulation and revision of mandatory national standards for energy consumption quota and energy efficiency of products and equipment. By implementing a national water-saving initiative, establishing a rigid constraint system for water resources, strengthening agricultural water conservation for greater use efficiency, industrial water conservation, emission reduction, urban water conservation, and loss reduction, and encouraging the use of recycled water, we will reduce water consumption per unit of GDP by about 16%. We will pursue more economical and intensive use of land, increase efforts to handle the unused and idle land, put inefficiently used land in cities and towns to good use, support the recovery and utilization of abandoned industrial and mining land, improve the policies to support composite use and multi-dimensional development of land, and control the increase of land designated for construction by less than 1.97 million hectares, to

GDP用水量下降16%左右。加强土地节约集约利用，加大批而未供和闲置土地处置力度，盘活城镇低效用地，支持工矿废弃土地恢复利用，完善土地复合利用、立体开发支持政策，新增建设用地规模控制在2950万亩以内，推动单位GDP建设用地使用面积稳步下降。提高矿产资源开发保护水平，发展绿色矿业，建设绿色矿山。

第二节 构建资源循环利用体系

全面推行循环经济理念，构建多层次资源高效循环利用体系。深入推进园区循环化改造，补齐和延伸产业链，推进能源资源梯级利用、废物循环利用和污染物集中处置。加强大宗固体废弃物综合利用，规范发展再制造产业。加快发展种养有机结合的循环农业。加强废旧物品回收设施规划建设，完善城市废旧物品回收分拣体系。推行生产企业“逆向回收”等模式，建立健全线上线下融合、流向可控的

drive the steady decline of construction land use area per unit GDP. We will enhance the development and protection of mineral resources, develop green mining, and build green mines.

II. The resource recycling system

We will comprehensively implement the concept of a circular economy and build a multi-tiered system for efficient resource recycling. We will further promote the transformation of industrial parks towards recycling, improve and extend the industrial chain, and boost the graded utilization of energy and resources, waste recycling, and concentrated disposal of pollutants. We will strengthen the comprehensive utilization of bulk solid waste and standardize the development of remanufacturing industry. We will accelerate the development of circular agriculture that organically combines planting and breeding, enhance the planning and construction of waste recycling facilities, and improve the urban waste recycling and sorting system. We will put in practice "reverse recovery" and other measures for production enterprises, and establish and improve an online-offline integrated resource recovery system where the flow of resources can be controlled. We will expand the coverage of the system for extending producers' responsibilities; and drive the minimization, standardization, and recycling of delivery packaging.

III. Vigorously developing green economy

We will resolutely curb blind development of high energy consumption and high emission projects, and boost transformation towards green development, to achieve positive growth. We will expand the industries covering energy conservation and environmental protection, clean production, clean energy, ecological environment, infrastructure upgrade towards eco-friendliness, and green services, and promote service models such as contract-based energy management, contract-based water conservation, and the third-party treatment of environmental pollution. We will drive the clean and efficient use of fossil fuels such as coal, promote the transformation of industries such as iron

资源回收体系。拓展生产者责任延伸制度覆盖范围。推进快递包装减量化、标准化、循环化。

第三节 大力发展绿色经济

坚决遏制高耗能、高排放项目盲目发展，推动绿色转型实现积极发展。壮大节能环保、清洁生产、清洁能源、生态环境、基础设施绿色升级、绿色服务等产业，推广合同能源管理、合同节水管理、环境污染第三方治理等服务模式。推动煤炭等化石能源清洁高效利用，推进钢铁、石化、建材等行业绿色化改造，加快大宗货物和中长途货物运输“公转铁”、“公转水”。推动城市公交和物流配送车辆电动化。构建市场导向的绿色技术创新体系，实施绿色技术创新攻关行动，开展重点行业和重点产品资源效率对标提升行动。建立统一的绿色产品标准、认证、标识体系，完善节能家电、高效照明产品、节水器具推广机制。深入开展绿色生活

and steel, petrochemical, and building materials towards green development, and accelerate the shift in the transportation of bulk goods and medium and long-distance freight transportation, from highways to railways and waterways. We will boost the electrification of urban public transit and logistics distribution vehicles. We will build a system for market-oriented innovation in green technology, implement initiatives to make breakthroughs in green technology innovation, and carry out benchmarking campaigns to improve the resource use efficiency of key industries and key products. We will establish a unified set of standards for the green product certification and identification system, improve the mechanism for promotion of energy-saving household appliances, efficient lighting products, and water-saving appliances and intensify efforts to promote green living.

IV. A policy system for green development

We will enhance the law and policy support for green development, and implement tax policies conducive to energy conservation, environmental protection, and comprehensive utilization of resources. We will vigorously develop green finance; improve the system of paid use of natural resources; and innovate and improve pricing mechanisms in the fields of natural resources, sewage and garbage treatment, and water and energy use. We will strengthen energy-saving review and supervision over fixed asset investment projects and promote reform of the management system for key energy users, improve the "pacesetter" system for energy and water efficiency, and intensify the water quota management in high water consumption industries. We will further develop ecological civilization experimental sites, and further promote the construction of a national pilot area of comprehensive reform for the transformation of resource-based economy in Shanxi and the pilot project for the comprehensive reform of the energy revolution.

创建行动。

第四节 构建绿色发展政策体系

强化绿色发展的法律和政策保障。实施有利于节能环保和资源综合利用的税收政策。大力发展绿色金融。健全自然资源有偿使用制度，创新完善自然资源、污水垃圾处理、用水用能等领域价格形成机制。推进固定资产投资项目节能审查、节能监察、重点用能单位管理制度改革。完善能效、水效“领跑者”制度。强化高耗水行业用水定额管理。深化生态文明试验区建设。深入推进山西国家资源型经济转型综合配套改革试验区建设和能源革命综合改革试点。

第十二篇 实行高水平对外开放 开拓合作共赢新局面

坚持实施更大范围、更宽领域、更深层次对外开放，依托我国

Part XII Further Opening-up for Win-Win Cooperation

We will continue to open up more sectors, increase the breadth and depth of opening-up, leverage the ultra-large-scale domestic market to promote international cooperation for mutual benefit and win-win outcome, and advance the stable and sustained joint pursuit of the Belt and Road Initiative and the co-building of a

第四十章 建设更高水平开放型经济新体制

全面提高对外开放水平，推进贸易和投资自由化便利化，持续深化商品和要素流动型开放，稳步拓展规则、规制、管理、标准等制度型开放。

第一节 加快推进制度型开放

构建与国际通行规则相衔接的制度体系和监管模式。健全外商投资准入前国民待遇加负面清单管理制度，进一步缩减外资准入负面清单，落实准入后国民待遇，促进内外资企业公平竞争。建立健全跨境服务贸易负面清单管理制度，健全技术贸易促进体系。稳妥推进银行、证券、保险、基金、期货等金融领域开放，深化境内外资本市场互联互通，健全合格境外投资者制

Chapter 40 A New Open Economy System

We will comprehensively improve the level of opening to the outside world, promote liberalization and facilitation of trade and investment, continue to deepen opening-up based on the flow of goods and production factors, and steadily expand institutional opening-up based on rules, regulations, management, and standards.

I. Accelerating institutional opening-up

We will build an institutional system and supervision model in line with the general practice of international trade. We will improve the management system for pre-access national treatment plus a negative list, further shorten the negative list for foreign investment, and implement post-access national treatment, to promote fair competition between domestic and foreign-funded enterprises. We will establish and improve the negative list management system for cross-border trade in services and improve the technology trade promotion system. We will steadily promote the opening of banking, securities, insurance, funds, futures, and other financial sectors, deepen the interconnection of domestic and foreign capital markets, and improve the system of qualified foreign investors. We will steadily promote the internationalization of RMB in a prudent manner, adhere to market-driven operation and independent choice of enterprises, and create a new type of mutually beneficial cooperative relationship based on the free use of RMB. We will improve the management of entry-exit, customs, foreign exchange, tax revenue, and other regulations and services.

度。稳慎推进人民币国际化，坚持市场驱动和企业自主选择，营造以人民币自由使用为基础的新型互利合作关系。完善出入境、海关、外汇、税收等环节管理服务。

第二节 提升对外开放平台功能

统筹推进各类开放平台建设，打造开放层次更高、营商环境更优、辐射作用更强的开放新高地。完善自由贸易试验区布局，赋予其更大改革自主权，深化首创性、集成化、差别化改革探索，积极复制推广制度创新成果。稳步推进海南自由贸易港建设，以货物贸易“零关税”、服务贸易“既准入又准营”为方向推进贸易自由化便利化，大幅放宽市场准入，全面推行“极简审批”投资制度，开展跨境证券投融资改革试点和数据跨境传输安全管理试点，实施更加开放的人才、出入境、运输等政策，制定出台海南自由贸易港法，初步建立中国特色自由贸易港政策和制度体

II. Upgrading the opening-up platforms

We will promote the development of various open platforms across the board and create a new highland of opening-up with a higher level of opening, better business environment, and stronger impact. We will improve the structure of pilot free trade zones, grant them greater decision making power for reforms, further explore innovative, integrated, and differentiated reform, and proactively replicate and promote the results of institutional innovation. We will steadily promote the development of Hainan Free Trade Port, and liberalize and facilitate trade in the direction of "zero tariff" for trade in goods and "allow firms in and let them do business" for trade in services. We will greatly ease market access; comprehensively implement the minimum approval investment administration system; carry out pilot projects for reforms in cross-border securities investment and financing and security management of cross-border data transmission; adopt more open polices for talents, entry-exit, and transportation; formulate and promulgate Hainan Free Trade Port law; and basically establish policies and systems of free trade ports with Chinese characteristics. We will make innovations to upgrade state-level new areas and development zones, promote high-standard opening-up of comprehensive bonded zones, improve the functions of key pilot zones for development and opening-up along border areas, border economic cooperation zones, and cross-border economic cooperation zones, and support the efforts of Ningxia, Guizhou, and Jiangxi in developing inland opening-up pilot economic zones.

III. Improving the regional opening-up structure

We will encourage all regions to expand opening-up to the outside world based on their comparative advantages; boost inter-regional connectivity in opening-up; and bring about a new pattern of all-round two-way opening-up with links running eastward and westward over land and sea. We will consolidate the leading position of the eastern coastal areas and mega cities in opening-up, so that they can take the lead in promoting all-round and high-

第三节 优化区域开放布局

鼓励各地立足比较优势扩大开放，强化区域间开放联动，构建陆海内外联动、东西双向互济的开放格局。巩固东部沿海地区和超大特大城市开放先导地位，率先推动全方位高水平开放。加快中西部和东北地区开放步伐，支持承接国内外产业转移，培育全球重要加工制造基地和新增长极，研究在内陆地区增设国家一类口岸，助推内陆地区成为开放前沿。推动沿边开发开放高质量发展，加快边境贸易创新发展，更好发挥重点口岸和边境城市内外联通作用。支持广西建设面向东盟的开放合作高地、云南建设面向南亚东南亚和环印度洋地区开放

standard opening-up. We will accelerate the pace of opening-up in the central and western regions and the northeast, support them to undertake domestic and foreign industrial transfer, foster major global processing and manufacturing bases and new growth poles, and consider the establishment of national first-class ports in inland areas, to fuel the development of inland areas and push them to the forefront of opening-up. We will promote high-quality border development and opening-up, accelerate the innovative development of border trade and give better play to the role of key ports and border cities as links between domestic and foreign areas. We will support Guangxi in developing itself into a highland of opening-up and cooperation with ASEAN, and Yunnan into a center of opening-up towards South and Southeast Asia and the Indian Ocean Rim.

IV. Improving the opening-up security system

We will build a regulatory and risk resistance system in line with a higher standard of openness, properly cope with economic and trade frictions by improving the early warning system for industrial damage, and enrich policy instruments covering trade adjustment assistance and trade relief. We will improve the foreign investment national security review system, anti-monopoly review system, national technical security list management, and unreliable entity list. We will establish an early warning system for global supply chain risk for important resources and products and strengthen cooperation in international supply chain support. We will intensify the monitoring of the international balance of payments to maintain its basic equilibrium and the basic stability of foreign exchange reserves. We will intensify the monitoring of external assets and liabilities and establish and improve the system of unified supervision of external debts. We will improve the classified and graded supervision system for overseas investment and build a system for overseas interest protection, risk early warning, and risk resistance. We will enhance the infrastructure support capacity of overseas diplomatic agencies and improve the institutions and mechanisms for consular protection, to safeguard the security and legitimate rights and interests of Chinese citizens and institutions

第四十一章 推动共建“一带

Chapter 41 Joint Pursuit of the Belt and Road Initiative

一路”高质量发展

坚持共商共建共享原则，秉持绿色、开放、廉洁理念，深化务实合作，加强安全保障，促进共同发展。

第一节 加强发展战略和政策对接

推进战略、规划、机制对接，加强政策、规则、标准联通。创新对接方式，推进已签文件落实见效，推动与更多国家商签投资保护协定、避免双重征税协定等，加强海关、税收、监管等合作，推动实施更高水平的通关一体化。拓展规则对接领域，加强融资、贸易、能源、数字信息、农业等领域规则对接合作。促进共建“一带一路”倡议同区域和国际发展议程有效对接、协同增效。

第二节 推进基础设施互联互通

推动陆海天网四位一体联通，

We will follow the principle of extensive consultation, joint contributions, and shared benefits, adhere to a vision of green development, openness, and clean governance, and step up efforts for practical cooperation, security assurance, and common development.

I. Development strategy and policy alignment

We will promote alignment between strategies, plans, and mechanisms, as well as connectivity between policies, rules, and standards. We will explore new alignment methods, promote the effective implementation of signed documents and negotiate and sign agreements on investment protection, double taxation avoidance, and other affairs with more countries, enhance cooperation in customs, taxation, and regulation, and promote the implementation of a higher-standard integrated customs clearance. We will expand the areas of policy connectivity and strengthen cooperation for policy alignment in financing, trade, energy, digital information, agriculture, and other sectors. We will enhance complementarity and synergy between the BRI and regional and international development agendas.

II. Infrastructure interconnectivity

We will promote integrated connectivity that comprises land, sea, air, and cyber links, build a connectivity framework featuring "six corridors, six routes, and multiple countries and ports", and on this basis, develop a connectivity network dominated by the New Eurasian Land Bridge and other economic corridors, propped up by the China-Europe Railway Express, the new land-sea corridor, and other large corridors and information highways, and supported by railways, ports, and pipe networks, and we will create a new international land-sea trade corridor. Focusing on key corridors and cities, we will promote the construction of major cooperation projects in an orderly manner, and comprehensively integrate high quality, sustainability, risk-resistance, reasonable pricing, inclusiveness, and accessibility goals into the projects. We will improve the operation of China-Europe Railway Express and

promote the formulation of rules on international land transportation and trade. We will expand the influence of the "Maritime Silk Road" as a brand, advance the building of Fujian and Xinjiang into the core areas of the Belt and Road, develop the space information corridor of the BRI, and build the "Air Silk Road".

第三节 深化经贸投资务实合作

III. Further practical cooperation in economy, trade, and investment

推动与共建“一带一路”国家贸易投资合作优化升级，积极发展丝路电商。深化国际产能合作，拓展第三方市场合作，构筑互利共赢的产业链供应链合作体系，扩大双向贸易和投资。坚持以企业为主

We will enhance trade and investment cooperation with countries within the framework of the BRI and actively develop Silk Road e-commerce. We will deepen international cooperation on production capacity, expand the third-party market cooperation, build a system for win-win cooperation on industry and supply chains, and expand two-way trade and investment. We will continue the enterprise-based and market-oriented development and follow international practices and the principle of debt sustainability to improve a diversified investment and financing system. We will explore a new framework for financing cooperation and leverage the roles of special loans and Silk Road Fund for the joint pursuit of the BRI. We will establish and improve the BRI financial cooperation network, promote the interconnectivity of financial infrastructure, and support multilateral and international financial institutions to participate in investment and financing. We will improve the risk resistance and security support system of the BRI and enhance legal service support to effectively prevent and defuse various risks.

IV. Building a bridge for exchanges and mutual learning among civilizations

We will deepen cultural and people-to-people exchanges in public health, digital economy, green development, science and technology, education, culture and arts, and other fields. We will enhance exchanges among parliaments, political parties, and non-governmental organizations, bring about close communication among women, the youth, people with disabilities, and other groups, to form a pattern of multi-dimensional and interactive people-to-people exchanges. We will advance the implementation

第四十二章 积极参与全球治理体系改革和建设

高举和平、发展、合作、共赢旗帜，坚持独立自主的和平外交政策，推动构建新型国际关系，推动全球治理体系朝着更加公正合理的方向发展。

第一节 维护和完善多边经济治理机制

维护多边贸易体制，积极参与世界贸易组织改革，坚决维护发展中成员地位。推动二十国集团等发挥国际经济合作功能，建设性参与亚太经合组织、金砖国家等机制经济治理合作，提出更多中国倡议、中国方案。推动主要多边金融机构深化治理改革，支持亚洲基础设施投资银行和新开发银行更好发挥作用，提高参与国际金融治理能力。推动国际宏观经济政策沟通协调，

Chapter 42 Participating in the Reform and Development of the Global Governance System

We will uphold the principles of peace, development, cooperation, and mutual benefit, remain firm in pursuing an independent foreign policy of peace, promote the development of a new type of international relations, and make the global governance system more just and reasonable.

I. Multilateral economic governance mechanism

We will maintain the multilateral trade system, actively participate in the reform of the World Trade Organization (WTO), and resolutely safeguard the status of the would-be members of the organizations. We will push the G20 to play its role in international economic cooperation, and we will play a constructive role in cooperation on economic governance among APEC, BRICS, and other mechanisms, and put forward more China initiatives and China programs. We will promote the deepening of governance reform in major multilateral financial institutions, support the Asian Infrastructure Investment Bank and the New Development Bank to play a better role, and enhance their ability to participate in international financial governance. We will promote communication and coordination of international macroeconomic policies, build a platform for international cooperation, work together to maintain the stability of global industry and supply chains and global financial markets, and join forces to promote world economic growth. We will promote the formulation of rules on economic governance in emerging sectors.

II. A network of high-standard free trade zones

We will implement the strategy of upgrading free trade zones and

搭建国际合作平台，共同维护全球产业链供应链稳定畅通、全球金融市场稳定，合力促进世界经济增长。推动新兴领域经济治理规则制定。

第二节 构建高标准自由贸易区网络

实施自由贸易区提升战略，构建面向全球的高标准自由贸易区网络。优化自由贸易区布局，推动区域全面经济伙伴关系协定实施，加快中日韩自由贸易协定谈判进程，稳步推进亚太自贸区建设。提升自由贸易区建设水平，积极考虑加入全面与进步跨太平洋伙伴关系协定，推动商签更多高标准自由贸易协定和区域贸易协定。

第三节 积极营造良好外部环境

积极发展全球伙伴关系，推进大国协调和合作，深化同周边国家关系，加强同发展中国家团结合

build a global network of high-standard free trade zones. We will optimize the layout of the FTZs, promote the implementation of the Regional Comprehensive Economic Partnership (RCEP) Agreement, accelerate the negotiation process of the Free Trade Agreement (FTA) between China, Japan, and ROK, and steadily promote the building of the Free Trade Area of the Asia-Pacific (FTAAP). We will raise the standards of the development of FTZs, consider joining the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) and promote the negotiation and signing of agreements on even more high-level FTAs and regional trade.

III. A sound external environment

We will proactively develop global partnership, promote coordination and cooperation among major countries, strengthen relations with neighboring countries, and advance unity and cooperation with developing countries. We will adhere to multilateralism and the principle of extensive consultation, joint contributions and shared benefits, and safeguard the international system with the United Nations as the core and the international order based on international law, to jointly cope with global challenges. We will actively participate in international cooperation in the prevention and control of major infectious diseases and promote the building of a global health community. We will expand efforts to reform the institutions and mechanisms of foreign aid, improve the distribution of foreign aid, do our best to aid developing countries, especially the least developed countries, and strengthen foreign cooperation and assistance in the fields of healthcare, science, technology, education, green development, poverty alleviation, human resource development, and emergency humanitarian assistance. We will actively implement the 2030 Agenda for Sustainable Development of the United Nations.

第十三篇 提升国民素质 促进人的全面发展

把提升国民素质放在突出重要位置，构建高质量的教育体系和全方位全周期的健康体系，优化人口结构，拓展人口质量红利，提升人力资本水平和人的全面发展能力。

Part XIII Promotion of Human Development

Promoting human development is a top priority. To this end, it is crucial to improve the quality of education and healthcare for all. Also important is how to guide the evolvement of the population structure with the aim of maximizing the human development dividend and boosting human capital in an overall effort to improve the people's wellbeing.

第四十三章 建设高质量教育体系

Chapter 43 Quality Education for All

Guided by the Party's education policy, development of education remains high on our agenda. Education includes character

全面贯彻党的教育方针，坚持优先发展教育事业，坚持立德树人，增强学生文明素养、社会责任意识、实践本领，培养德智体美劳全面发展的社会主义建设者和接班人。

第一节 推进基本公共教育均等化

巩固义务教育基本均衡成果，完善办学标准，推动义务教育优质均衡发展和城乡一体化。加快城镇学校扩容增位，保障农业转移人口随迁子女平等享有基本公共教育服务。改善乡村小规模学校和乡镇寄宿制学校条件，加强乡村教师队伍建设，提高乡村教师素质能力，完善留守儿童关爱体系，巩固义务教育控辍保学成果。巩固提升高中阶段教育普及水平，鼓励高中阶段学校多样化发展，高中阶段教育毛入学率提高到92%以上。规范校外培训。完善普惠性学前教育和特殊教育、专门教育保障机制，学前教育毛入园率提高到90%以上。提高民

education and civil education that cultivates a sense of social responsibility in addition to practical skills to pave the way for moral, intellectual, and physical growth, so that our students will grow into effective contributors to socialist prosperity.

I. Equitable access to basic public education

Building on what has been achieved in balanced compulsory education is an imperative, which calls for improving education standards, with a focus on developing high-quality, well-balanced, and integrated compulsory education in both urban and rural areas. Urban schools need to expand capacity to ensure access to basic public education for children who have moved with their parents from rural to urban areas. Efforts will be ongoing to improve conditions in small rural schools and boarding schools in towns and townships, build a large team of competent rural teachers dedicated to helping rural children move ahead, and continue to reduce dropout rates. Universal access to high-school education is another area of focus. Special attention will be paid to the need to diversify education at the high-school level and to raise the gross enrollment ratio to over 92%. Regulation of after-school academic programs will be strengthened. More support will be provided to publicly accessible preschool education, and a goal of raising the gross preschool enrollment ratio to over 90% is envisaged. Support will also be provided to special education and special programs for children who have run-ins with the law. Efforts will be stepped up to improve the quality and effectiveness of education in ethnic minority areas to enhance the mastery of the national official language.

II. Adaptable vocational and technical education

Reform and innovation are needed to improve different types of vocational and technical education by leveraging the special strengths of each program and better structuring the vocational and technical education services and through more rational deployment of resources in this field with a view to better training technicians and skilled workers. Revision of national standards for

族地区教育质量和水平，加大国家通用语言文字推广力度。

第二节 增强职业技术教育适应性

突出职业技术（技工）教育类型特色，深入推进改革创新，优化结构与布局，大力培养技术技能人才。完善职业技术教育国家标准，推行“学历证书+职业技能等级证书”制度。创新办学模式，深化产教融合、校企合作，鼓励企业举办高质量职业技术教育，探索中国特色学徒制。实施现代职业技术教育质量提升计划，建设一批高水平职业技术院校和专业，稳步发展职业本科教育。深化职普融通，实现职业技术教育与普通教育双向互认、纵向流动。

第三节 提高高等教育质量

推进高等教育分类管理和高等学校综合改革，构建更加多元的高等教育体系，高等教育毛入学率提

vocational and technical education is necessary to complement academic certification with vocational certification. Innovative approaches should be explored to better align classroom education with real world needs, expand cooperation between businesses and education institutions, encourage involvement of businesses in providing high-quality vocational and technical education, and develop apprenticeship programs that suit China's needs. Improving the quality of modern vocational and technical education will be an ongoing focus with plans to build a group of top-notch vocational and technical colleges and programs and steadily develop career-focused undergraduate education in a move to further integrate vocational and general education, encourage mutual recognition of vocational qualifications and academic degrees, and provide opportunities for students in vocational education to receive general education.

III. Quality higher education

Category-based management is needed for higher education and comprehensive reform is needed for higher education institutions, so as to diversify the higher education system with an aim of seeing the gross enrollment ratio rise to 60%. First-class universities and academic disciplines will be built on a categorized basis. Support will be provided for developing top-notch research universities. Quality of undergraduate education will be improved by encouraging a number of regular undergraduate institutions to become applied colleges. Reform of high-level talent training in basic academic disciplines will be facilitated by adjusting academic disciplines and programs that suit the needs and giving play to their strengths to provide more targeted disciplines, so that the gaps in scientific, engineering, agricultural, and medical personnel can be filled. Efforts will be made to better manage and improve postgraduate program, as well as admit more applicants for professional postgraduate degrees. Higher education in the central and western regions will be revived by optimizing the distribution of higher education resources.

高到60%。分类建设一流大学和一流学科，支持发展高水平研究型大学。建设高质量本科教育，推进部分普通本科高校向应用型转变。建立学科专业动态调整机制和特色发展引导机制，增强高校学科设置针对性，推进基础学科高层次人才培养模式改革，加快培养理工农医类专业紧缺人才。加强研究生培养管理，提升研究生教育质量，稳步扩大专业学位研究生规模。优化区域高等教育资源布局，推进中西部地区高等教育振兴。

第四节 建设高素质专业化教师队伍

建立高水平现代教师教育体系，加强师德师风建设，完善教师管理和发展政策体系，提升教师教书育人能力素质。重点建设一批师范教育基地，支持高水平综合大学开展教师教育，健全师范生公费教育制度，推进教育类研究生和公费师范生免试认定教师资格改革。支持高水平工科大学举办职业技术师

IV. Teacher competencies

A high-standard modern teachers education system is needed, focusing on strengthening the professional ethics and competence of teachers, improving the policies for teacher management and development, and enhancing teachers' capacity to impart knowledge and cultivate students. Priority will be given to establish a batch of teachers education bases, support quality comprehensive universities to carry out teachers education programs, improve the government-paid education for normal school students, and exempt graduate students of education programs and government-funded normal school students from applying teacher certificates through examinations. Support will be provided to top-notch engineering universities to train teachers for vocational and technical education. And universities, vocational schools, and enterprises will be encouraged to jointly train teachers qualified both in delivering theoretical knowledge and guiding practice. Measures will be taken to deepen the management of teachers in primary and secondary schools and kindergartens, including making plans for the overall and regional distribution of budgeted posts, ensure that teachers working in compulsory education are regulated by county-level authorities and employed by schools, and appropriately raise the proportion of middle-ranking and senior teachers.

V. Education reform

To enhance students' well-rounded development, with a focus on patriotism, sense of innovation, and healthy personality, it is needed to deepen education evaluation reform in the new era by establishing sound education evaluation systems and mechanisms. Remained as a not-for-profit cause, education will see more funds, an improved system for fund management and fund use, and an increase in fund use efficiency. Action related to school running include ensuring that schools have a greater say, improving internal governance structure, and guiding the private sector to participate running school in an orderly manner. Comprehensive reform is needed for examination and enrollment,

第四十四章 全面推进健康中国建设

把保障人民健康放在优先发展的战略位置，坚持预防为主的方针，深入实施健康中国行动，完善国民健康促进政策，织牢国家公共卫生防护网，为人民提供全方位全生命期健康服务。

第一节 构建强大公共卫生体系

改革疾病预防控制体系，强化监测预警、风险评估、流行病学调查、检验检测、应急处置等职能。建立稳定的公共卫生事业投入机制，改善疾控基础条件，强化基层公共卫生体系。落实医疗机构公共卫生责任，创新医防协同机制。完善突发公共卫生事件监测预警处置机制，加强实验室检测网络建设，健全医疗救治、科技支撑、物资保

Chapter 44 A Healthy China

In a strategic move to improve health and wellbeing for all, the Healthy China Initiative has been rolled out with an emphasis on prevention. As a national health policy, it aims to strengthen national public health network and provide healthcare for all.

I. A robust public health system

Healthcare reform aims to improve disease prevention and control and strengthen, in particular, a system for health monitoring and early warning, risk assessment, epidemiological investigation, inspection and detection, and emergency response. More predictable public funding for healthcare is envisaged to enhance essential disease control measures and community-level public healthcare. Public accountability for medical institutions will also be enhanced. Innovative approaches to integrating prevention and treatment are encouraged. Efforts to strengthen public health emergency monitoring, early warning, and response mechanisms are ongoing, including measures to build a robust laboratory testing network, and improve patient care, technological support, and logistics support. A tired, multi-level, and referral-based infectious disease treatment network will be built, so will a unified national system of reserves of essential supplies for public health emergencies. Modifications to large public buildings are underway to better accommodate the needs for epidemic control. Infectious disease screening at ports of entry has been stepped up. Other measures in this connection include more support for public health colleges and talent development; expansion of national vaccination plans; chronic disease prevention, early screening, and comprehensive intervention; and mental health services and psychosocial support.

第二节 深化医药卫生体制改革

坚持基本医疗卫生事业公益属性，以提高医疗质量和效率为导向，以公立医疗机构为主体、非公立医疗机构为补充，扩大医疗服务资源供给。加强公立医院建设，加快建立现代医院管理制度，深入推进治理结构、人事薪酬、编制管理和绩效考核改革。加快优质医疗资源扩容和区域均衡布局，建设国家医学中心和区域医疗中心。加强基层医疗卫生队伍建设，以城市社区

II. Healthcare reform

Efforts will be made to continue to provide non-for-profit healthcare. With a focus on improving medical treatment quality and efficiency, more resources will flow to medical services, mainly in public medical institutions followed by non-public ones. A modern hospital management system is imperative for public medical institutions, which calls for reform in governance structure, staffing and remuneration, budgeted posts management, and performance appraisal. National and regional medical centers will be built to accelerate the expansion and balanced regional distribution of quality medical resources. Special attention will be paid to developing community-level healthcare workforce, especially in urban and rural communities, border and port cities, and county-level hospitals to improve the medical services network in urban and rural areas. Medical consortia are needed for tired diagnosis and treatment, as well as ensuring the coordination of prevention, treatment, nursing, and rehabilitation. Reform will be rolled out in state-organized centralized procurement and use of medicines and medical consumables, in particular high-end medical equipment. The rapid evaluation and approval mechanism will be improved for innovative medicines, vaccines, medical devices, and targeting medicines and medical devices in urgent need for clinical use and for treating rare diseases, allowing for as quickly as possible the domestic marketing of those that are already available in overseas markets. Measures will be taken to improve the quality and scale of healthcare personnel, including addressing the gaps in pediatricians, general physicians, and other physicians; increasing the number of registered nurses per 1,000 people to 3.8; implementing a regional registration system for physicians which can make it convenient for them to provide services in multiple institutions; expanding the coverage and improving the quality of contracted family doctor services in urban and rural areas; supporting private hospitals and encouraging experienced physicians to run clinics.

III. Universal medical insurance

和农村基层、边境口岸城市、县级医院为重点，完善城乡医疗服务网络。加快建设分级诊疗体系，积极发展医疗联合体。加强预防、治疗、护理、康复有机衔接。推进国家组织药品和耗材集中带量采购使用改革，发展高端医疗设备。完善创新药物、疫苗、医疗器械等快速审评审批机制，加快临床急需和罕见病治疗药品、医疗器械审评审批，促进临床急需境外已上市新药和医疗器械尽快在境内上市。提升医护人员培养质量与规模，扩大儿科、全科等短缺医师规模，每千人口拥有注册护士数提高到3.8人。实施医师区域注册，推动医师多机构执业。稳步扩大城乡家庭医生签约服务覆盖范围，提高签约服务质量。支持社会办医，鼓励有经验的执业医师开办诊所。

第三节 健全全民医保制度

健全基本医疗保险稳定可持续筹资和待遇调整机制，完善医保缴费参保政策，实行医疗保障待遇清

Efforts will continue to ensure stable and sustainable funding for basic medical insurance and adjust medical benefits by revising payment policies for medical insurance premiums and developing lists for medical benefits. Overall planning of basic medical insurance shall be made at the municipal and provincial levels. Improvement measures are needed for the general support mechanism for covering outpatient medical bills under employee basic medical insurance and the system of medical insurance and aid for treating serious diseases. It is necessary to make timely adjustments to the catalogue of medicines covered by medical insurance. A diversified, compound medical insurance payment model based on disease-related payment is under way. Qualified internet-based medical services will be made reimbursable under the medical insurance plan. Medical bills incurred in any locality will be settled through basic insurance accounts. Solid progress will be made in setting standards for medical insurance and applying information technology, so as to improve insurance services. Efforts are ongoing to better supervise medical insurance funds to ensure a long-term care insurance system. Commercial medical insurance will be encouraged.

IV. Development of and innovation in traditional Chinese medicine

Equal importance will be attached to traditional Chinese medicine (TCM) and Western medicine. While making good use of their complementary advantages, special support will be provided to TCM. A sound TCM service system is needed to give full play to TCM's unique strengths in disease prevention, treatment, and rehabilitation. TCM and Western medicine will be better integrated. And efforts will be made to develop medicine of ethnic minority groups. In this regard, measures aiming to develop and protect new medicines include conducting research on the essence of Chinese medical classics, building scientific and technological support platforms for TCM, reforming and revising the TCM evaluation and approval mechanisms. A stronger supervision system is important for quality Chinese medicines. Efforts are ongoing to foster specialists in TCM to better inherit and innovate

第四节 推动中医药传承创新

坚持中西医并重和优势互补，大力发展中医药事业。健全中医药服务体系，发挥中医药在疾病预防、治疗、康复中的独特优势。加强中西医结合，促进少数民族医药发展。加强古典医籍精华的梳理和挖掘，建设中医药科技支撑平台，改革完善中药审评审批机制，促进中药新药研发保护和产业发展。强化中药质量监管，促进中药质量提

TCM culture. With all these endeavors, TCM will go global.

V. A country strong in sports

The nationwide fitness-for-all campaign is needed to improve the people's health. Efforts on health maintenance and disease prevention will be initiated at earlier stages through integrating sports and education, sports and healthcare, and sports and tourism. A sound public service system for fitness and sports requires more publicly accessible sports venues and facilities as well as school stadiums, for example, more fitness trails and other easily accessible fitness facilities, sports parks that suit local conditions, and public sports facilities on river fronts that do not affect flood control. A national physique monitoring and intervention program is underway, particularly among teenagers to ensure physical education classes on campus and extracurricular exercise hours. Regarding competitive sports, equal emphasis will be put on both academic education and professional training, and efforts will be made to increase the talent reserve for competitive sports, improve the competitive strength of athletes in key events, and maintain China's dominance in sports it traditionally does well in. Other measures in this connection include exploring pathways for the development of football, basketball, and volleyball with Chinese characteristics, continuing to promote winter sports, and organizing internationally influential professional sports events. Fitness, recreation, outdoor sports, and other sports industries will be developed to encourage sports consumption. Works will be done to ensure the success of the 2022 Winter Olympics and Paralympics in Beijing, and the 19th Asian Games in Hangzhou.

VI. Patriotic health campaigns

More diversified patriotic health campaigns will be carried out to encourage the public to lead a positive and healthy lifestyle. More support will be provided for infrastructure construction to ensure a good public health environment in urban and rural areas that meets hygiene standards and vector control requirements. Efforts will be ongoing to foster healthy towns. Health education and

第四十五章 实施积极应对人口老龄化国家战略

制定人口长期发展战略，优化生育政策，以“一老一小”为重点完善人口服务体系，促进人口长期均衡发展。

第一节 推动实现适度生育水

Chapter 45 A National Strategy in Response to Population Aging

A long-term population strategy will be developed, including revised childbirth policies, to promote long-term and balanced population development and improve population services with a focus on elderly care and child care.

I. An appropriate birth rate

Revised childbirth policies are more inclusive and will be implemented in tandem with economic and social policies to reduce the burden of child bearing, upbringing, and education on families, with potential spillover benefits. At the same time, efforts

第二节 健全婴幼儿发展政策

发展普惠托育服务体系，健全支持婴幼儿照护服务和早期发展的政策体系。加强对家庭照护和社区服务的支持指导，增强家庭科学育儿能力。严格落实城镇小区配套园政策，积极发展多种形式的婴幼儿照护服务机构，鼓励有条件的用人

will continue to improve infant care, youth development, support for the elderly, and care for the sick and disabled, implement the maternity leave policy, and explore the possibility of mandating parental leave. A full range of services for maternal care, including preconception and postnatal care, and child development will be made available and easily accessible, to improve the health and wellbeing of the newborn population. Support will be provided to families facing special difficulties for the loss or disability of their only children. Related actions include improving population data collection and analysis, monitoring population trends, especially birth rate changes, and conducting research on population issues from a strategic perspective to inform decision-making with regard to population and development.

II. Infant development policies

Child care services will be made publicly accessible relying on improved policies for infant and child care services and childhood education. More support and guidance will be provided to at-home care and community services, with an aim to enhance scientific parenting. Supporting kindergartens will be set up in urban communities, as part of the effort to diversify infant and child care service institutions. Other measures include encouraging capable employers to provide infant and child care services, supporting enterprises, public institutions, social organizations, and other non-governmental forces to provide public accessible child care services, and encouraging kindergartens to incorporate child care services into their service system. Also important is to provide professional and standardized infant and child care services so as to ensure the quality and competence of care and education.

III. Elderly care

Efforts will be made to coordinate elderly care programs and elderly care industries, improve the basic elderly care service system, make elderly care services more publicly accessible, and support at-home elderly care, so as to build an elderly care service system that coordinates home care and community services and

单位提供婴幼儿照护服务，支持企事业单位和社会组织等社会力量提供普惠托育服务，鼓励幼儿园发展托幼一体化服务。推进婴幼儿照护服务专业化、规范化发展，提高保育保教质量和水平。

第三节 完善养老服务体系

推动养老事业和养老产业协同发展，健全基本养老服务体系，大力发展普惠型养老服务，支持家庭承担养老功能，构建居家社区机构相协调、医养康养相结合的养老服务体系。完善社区居家养老服务网络，推进公共设施适老化改造，推动专业机构服务向社区延伸，整合利用存量资源发展社区嵌入式养老。强化对失能、部分失能特困老年人的兜底保障，积极发展农村互助幸福院等互助性养老。深化公办养老机构改革，提升服务能力和水平，完善公建民营管理机制，支持培训疗养资源转型发展养老，加强对护理型民办养老机构的政策扶持，开展普惠养老城企联动专项行

integrates medical care and health care. The network of community-based, at-home elderly care services will be improved, supported by elderly-friendly public facilities, services from professional institutions, and idle resources for community-embedded elderly care. Subsistence allowances will be provided for disabled and partially disabled elderly people in extreme poverty. Rural happiness homes and other forms of mutual-aid elderly care will be developed. Reform will be rolled out in state-run elderly care institutions to improve their service capacity and quality. The government-enterprise joint campaign for public accessible elderly care will be launched, among which the private sector are encouraged to run government-funded elderly care institutions, training and recuperation institutions are welcomed to reorient to offer elderly care services, and policy support will provided for private nursing care institutions for the elderly. Medical care and health care will be better integrated to improve health services for the elderly. Talent training for elderly nursing will be intensified. The supply of nursing beds in elderly care institutions will be increased, with an aim to raise the proportion to 55%, so as to better meet the nursing service needs of the elderly with disability and dementia. Steadily, the welfare of the elderly will be improved, with a sound subsidy system for the disabled elderly with financial difficulties, and the visit and care system for the disabled elderly with special difficulties left behind in rural areas. The comprehensive regulatory system for elderly care services is needed for a social environment in which the elderly are respected and cared for, and live happily, and in which their rights and interests are ensured. By taking into account the increase in life expectancy per capita, the accelerated population aging trend, the increased education years, the change of labor force structure, and other factors, and in accordance with the principles of implementing flexible, tailored policies for different groups, considering all factors, and making overall plans, the statutory retirement age will be raised in a phased manner to give full play to the potential of human resources. The silver economy is emerging, requiring elderly-friendly technologies and products and smart elderly care services and other new business models.

第十四篇 增进民生福祉 提升共建共治共享水平

Part XIV A Focus on the People's Wellbeing: a Participatory Approach

Basic public services are essential to improving the wellbeing of

坚持尽力而为、量力而行，健全基本公共服务体系，加强普惠性、基础性、兜底性民生建设，完善共建共治共享的社会治理制度，制定促进共同富裕行动纲要，自觉主动缩小地区、城乡和收入差距，让发展成果更多更公平惠及全体人民，不断增强人民群众获得感、幸福感、安全感。

our people. Best efforts will be made within the limits of the available resources to upgrade and expand these services to ensure universal access and inclusiveness, so that the people's essential needs are met and no one is left behind. Public participation in governance will be encouraged to promote collaboration and synergy in building shared prosperity. An action plan for shared prosperity will focus on narrowing the development gap between different regions and between urban and rural areas, as well as the income gap between rich and poor households, so that development gains will benefit everyone in a fair manner, and help create a greater sense of fulfillment, happiness, and security.

第四十六章 健全国家公共服务制度体系

加快补齐基本公共服务短板，着力增强非基本公共服务弱项，努力提升公共服务质量和水平。

第一节 提高基本公共服务均等化水平

推动城乡区域基本公共服务制度统一、质量水平有效衔接。围绕公共教育、就业创业、社会保险、医疗卫生、社会服务、住房保障、公共文化体育、优抚安置、残疾人服务等领域，建立健全基本公共服务标准体系，明确国家标准并建立

Chapter 46 National Public Services

It is crucial to improve the quality and standards of public services by addressing weaknesses in both basic and non-basic public services.

I. Equitable access to basic public services

Efforts will be made to ensure that comparable quality basic public services are provided in both urban and rural areas and across regions. National standards and benchmarks will be developed and/or readjusted, wherever and whenever necessary, against which provision of public services, including public education, employment and entrepreneurship development services, social insurance, healthcare, social services, housing, culture and sports, veteran services, and disability services, among others, is evaluated to ensure the uniformity of standards being applied and equity in service delivery in urban and rural areas and across different regions. Deployment of basic public services will be based on the area and number of residents to be covered. More resources will be made available at the community level and deployed to rural areas and remote areas to help, in particular, disadvantaged groups and individuals.

动态调整机制，推动标准水平城乡区域间衔接平衡。按照常住人口规模和服务半径统筹基本公共服务设施布局和共建共享，促进基本公共服务资源向基层延伸、向农村覆盖、向边远地区和生活困难群众倾斜。

第二节 创新公共服务提供方式

区分基本与非基本，突出政府在基本公共服务供给保障中的主体地位，推动非基本公共服务提供主体多元化、提供方式多样化。在育幼、养老等供需矛盾突出的服务领域，支持社会力量扩大普惠性规范性服务供给，保障提供普惠性规范性服务的各类机构平等享受优惠政策。鼓励社会力量通过公建民营、政府购买服务、政府和社会资本合作等方式参与公共服务供给。深化公共服务领域事业单位改革，营造事业单位与社会力量公平竞争的市场环境。

II. Innovative public service delivery

By distinguishing basic public services from non-basic public services, it is crucial to highlight the government's dominant role in guaranteeing the supply of basic public services and welcome diverse providers and methods of non-basic public services. In child care, elderly care, and other services that see the prominent imbalance between supply and demand, support will be provided for the private sector to supply more public accessible and standardized services by various means, including running government-funded institutions, government procurement of services, and public-private partnership, and ensure that all providers of such services enjoy equal preferential policies. Deepened reform is needed for public institutions to provide public services, so they could compete in the market with the private sector in a fair manner.

III. Policies to support public services

An optimized structure of government spending will give priority to the funding for addressing weaknesses in basic public services. In the field of public services, the respective fiscal powers and expenditure responsibilities of central and local governments will be defined, with increasing financial support from the central and provincial governments to local governments in providing basic public services. More public service programs will be included in the list that guides government procurement of services, to encourage an increase in government procurement and improved preferential policies on fiscal funding, financing, and land use. Private and public institutions will enjoy fair treatment in qualification access, professional title appraisal, land supply, financial support, government procurement, and supervision and management, among other aspects.

第三节 完善公共服务政策保障体系

优化财政支出结构，优先保障基本公共服务补短板。明确中央和地方在公共服务领域事权和支出责任，加大中央和省级财政对基层政府提供基本公共服务的财力支持。将更多公共服务项目纳入政府购买服务指导性目录，加大政府购买力度，完善财政、融资和土地等优惠政策。在资格准入、职称评定、土地供给、财政支持、政府采购、监督管理等方面公平对待民办与公办机构。

第四十七章 实施就业优先战略

健全有利于更充分更高质量就业的促进机制，扩大就业容量，提升就业质量，缓解结构性就业矛盾。

第一节 强化就业优先政策

坚持经济发展就业导向，健全

Chapter 47 An Employment-First Strategy

Effective measures will be taken to create more employment opportunities, especially high-quality jobs, and overcome any structural barriers to job creation.

I. Policies to encourage employment creation

Economic development must be employment-oriented. Mechanisms will be established to assess whether employment targets are met and how employment is impacted. Employment support for college graduates, veterans, migrant workers, and other key groups will remain a priority. Policies will be devised to encourage businesses to create employment opportunities, provide support for businesses that employ a large number of

第二节 健全就业公共服务体系

健全覆盖城乡的就业公共服务体系，加强基层公共就业创业服务平台建设，为劳动者和企业免费提

people, such as service industries, MSMEs, and labor-intensive enterprises, and expand job opportunities in community supermarkets, convenience stores, and community services. Measures will be taken to promote equal employment, increase high-quality employment, support the growth of skill-intensive industries and the development of new forms of employment, expand government procurement in areas such as primary-level education, medical care, and specialized social services, encourage entrepreneurship as a way to create jobs, bolster flexible employment through multiple channels, remove any restrictive policies that hinder job creation, and make the labor market more inclusive. Urban and rural employment policies will be better aligned to ensure mutual complementarity, and more support will be available to rural workers in their search for jobs. More public welfare jobs will be created and special support will be provided to people having difficulty finding employment, especially people with disabilities and members of families without a single bread earner.

II. Public employment services

More support will be provided to the community-level public employment and entrepreneurship service platforms which offer free policy consultation, job introduction, and employment guidance for employees and enterprises, so as to improve the public employment service system covering both urban and rural areas. A regular mechanism assisting enterprises to stabilize employment will be established by making good use of employment subsidies and unemployment insurance funds. Efforts will be made to coordinate both ends of labor transfer to realize cross-regional connectivity. Measures to protect labor rights and interests include improving the labor contract system, the labor relations coordination mechanism, the long-term mechanism for controlling arrears of wages, and the labor dispute mediation and arbitration system, and exploring ways to protect the labor rights and interests of employees under new business models. Progress will be made in the employment demand survey and

第三节 全面提升劳动者就业创业能力

III. Development of employability skills and entrepreneurship

健全终身技能培训制度，持续大规模开展职业技能培训。深入实施职业技能提升行动和重点群体专项培训计划，广泛开展新业态新模式从业人员技能培训，有效提高培训质量。统筹各级各类职业技能培训资金，创新使用方式，畅通培训补贴直达企业和培训者渠道。健全培训经费税前扣除政策，鼓励企业开展岗位技能提升培训。支持开展

As part of the effort of the lifelong skills training system, continuous vocational skills training will be carried out on a large scale, including campaigns to improve vocational skills, targeted training programs for key groups, extensive skills training for employees working in new forms and models of business, with a focus on improving training quality. Funds will be coordinated and used in innovative ways for vocational skills training programs at all levels and of all types, with the aim to ensure that training subsidies are channeled directly to enterprises and participants. Through improved policy on pre-tax deductions for training funds, enterprises will be encouraged to launch training programs to improve the skills of their employees. Other measures in this connection include supporting demand-based and customized training, establishing a batch of public training bases and bases that align classroom education with real world needs to promote the contribution and sharing of training resources, and ensuring the success of national competitions on vocational skills.

订单式、套餐制培训。建设一批公共实训基地和产教融合基地，推动培训资源共建共享。办好全国职业技能大赛。

第四十八章 优化收入分配结构

坚持居民收入增长和经济增长基本同步、劳动报酬提高和劳动生产率提高基本同步，持续提高低收入群体收入，扩大中等收入群体，更加积极有为地促进共同富裕。

第一节 拓展居民收入增长渠道

坚持按劳分配为主体、多种分配方式并存，提高劳动报酬在初次分配中的比重。健全工资决定、合理增长和支付保障机制，完善最低工资标准和工资指导线形成机制，积极推行工资集体协商制度。完善按要素分配政策制度，健全各类生产要素由市场决定报酬的机制，探索通过土地、资本等要素使用权、收益权增加中低收入群体要素收

Chapter 48 Improving the Income Distribution Structure

It is important to ensure that personal income grows in step with economic growth and that workers' compensation rises in tandem with the increase in labor productivity. It is also important to continue to increase the income of low-income groups while expanding the size of the middle-income group in an effort to bring prosperity to all.

I. More opportunities to increase income

The system in which distribution according to work is dominant and a variety of modes of distribution coexist will see an increase in the proportion of labor remuneration in the primary distribution. To better decide and increase wages, as well as secure the payment, it is needed to improve the mechanism for developing the minimum wage standard and wage guidelines, and determining wages through collective discussion. Efforts will be made to improve the mechanism whereby remuneration for various factors of production is determined by the market, and explore ways to increase the income of low-and-middle-income groups through their rights to use and benefit from land, capital, and other production factors, so as to improve distribution policies and systems based on production factors. In state-owned enterprises, the market-oriented salary distribution mechanism will be improved, and the performance-based evaluation system of employees will be implemented across the board. In public institutions, reform aims to improve the salary system to reflect job performance, position level, and job category. Standards will be set for labor dispatch and employment to ensure equal pay for equal work. More channels will be opened to increase the property income of urban and rural

第二节 扩大中等收入群体

实施扩大中等收入群体行动计划，以高校和职业院校毕业生、技能型劳动者、农民工等为重点，不断提高中等收入群体比重。提高高校、职业院校毕业生就业匹配度和劳动参与率。拓宽技术工人上升通道，畅通非公有制经济组织、社会组织、自由职业专业技术人员职称申报和技能等级认定渠道，提高技能型人才待遇水平和社会地位。实施高素质农民培育计划，运用农业

residents, including raising the proportion of farmers' share in land value-added revenue, improving the dividend system of listed companies, and developing more innovative financial products to meet the needs of family wealth management. The system by which state capital gains are turned over to public finance will be improved so as to increase public spending in people's wellbeing.

II. Expanding the rank of middle-income earners

An initiative to expand the rank of the middle-income earners and consistently increase its proportion will be launched, with the focus on graduates from regular universities and vocational schools, skilled workers, and migrant workers. Support will be provided for graduates from universities and vocational schools to help them find jobs, in particular those suiting their academic background. Efforts will be made to offer more opportunities for skilled workers, especially those in non-public economic organizations, social organizations, and freelance professionals and technicians, to apply for professional titles and qualification certificates for promotion, raising their benefits and social status. A program to develop competent farmers will be launched to help them use agricultural and rural resources and modern operation methods to increase their income. Policies will be devised to support small and micro startups, and support groups such as self-employed individuals and workers in flexible employment, to embark on the journey of prosperity through hard work.

III. A more rational wealth and income redistribution mechanism

The distribution pattern of income and wealth will be improved, benefiting from more intense and accurate adjustments to taxation, social security, and transfer payments, and the role of charity in the third distribution. Measures will be taken to advance the direct tax system by improving the system for taxing personal income on the basis of both adjusted gross income and specific types of income, and strengthening tax regulation and supervision of high-income individuals. With dynamically adjusted standards in response to the basic needs, social security benefits and services will become

A sound system of information on personal income and property will be established and the modern payment and income monitoring system will be perfected.

第四十九章 健全多层次社会保障体系

坚持应保尽保原则，按照兜底线、织密网、建机制的要求，加快

Chapter 49 A Multi-Tiered Social Security System

Our bottom line is to protect the most vulnerable, expand social security coverage, and improve protection mechanisms to prevent anyone from being left behind. To this end, it is essential to build a sustainable, multi-tiered universal social security system with integrated urban and rural coverage, and with clearly defined rights

健全覆盖全民、统筹城乡、公平统一、可持续的多层次社会保障体系。

第一节 改革完善社会保险制度

健全养老保险制度体系，促进基本养老保险基金长期平衡。实现基本养老保险全国统筹，放宽灵活就业人员参保条件，实现社会保险法定人群全覆盖。完善划转国有资本充实社保基金制度，优化做强社会保障战略储备基金。完善城镇职工基本养老金合理调整机制，逐步提高城乡居民基础养老金标准。发展多层次、多支柱养老保险体系，提高企业年金覆盖率，规范发展第三支柱养老保险。推进失业保险、工伤保险向职业劳动者广覆盖，实现省级统筹。推进社保转移接续，完善全国统一的社会保险公共服务平台。

第二节 优化社会救助和慈善

and responsibilities for all actors involved.

I. Social insurance

The old-age insurance system will be improved to ensure the long-term balance of basic insurance funds. The coordinated national management of basic old-age insurance funds will be achieved. Restrictions preventing workers in flexible employment from participating in the insurance system will be reduced. Social insurance will cover the entire legally eligible population. The system for transferring state capital to increase social security funds will be improved to upgrade and strengthen social security strategic reserve fund. Adjustments to the basic pension for urban workers will be more reasonable, leading to a raising pension standard for urban and rural residents. A multi-tiered and multi-pillar old-age insurance system will take shape, which will see an increase in the coverage ratio of enterprise annuity, and the well-regulated private pensions as the third pillar. The coverage of unemployment insurance and work-related injury insurance for professional workers will be expanded, and relevant plans will be made at the provincial level. Efforts will be made to promote the transfer and continuation of social security and improve the unified national platform on social insurance public services.

II. Social assistance and charity

The tiered and classified social assistance system will be perfected, with the focus on urban and rural recipients of minimum subsistence allowances, people in special difficulties, and low-income families, so as to form a comprehensive pattern of assistance. A sound basic living assistance system and the special assistance system for medical treatment, education, housing, employment, and disaster victims, will be established, based on dynamic adjustments to criteria for assistance and the list of aid recipients. Temporary relief policies and measures will be taken to strengthen the functions of emergency social relief. We will coordinate the urban and rural relief systems, gradually allowing applicants to apply for and receive relief from the local

Philanthropy will be encouraged. Fiscal and taxation incentive policies will be improved, and standards will be set for online charity platforms to better management lottery and public welfare funds.

III. Veteran services and support

Regarding veteran affairs, efforts will be made to improve the organization and management system, work operation system, and policy system, so as to enhance the service and support for veterans. Further reform will be rolled out in the employment service system for veterans to help them find better jobs by providing greater support in terms of education, training, and employment assistance as well as by offering job opportunities in more diversified sectors. A new type of system for ensuring benefits to eligible groups will be established to improve and implement preferential treatment policies, appropriately raise the standards of benefits for veterans and other entitled groups, and make great efforts in job arrangement, household registration and education of their spouses and children. Measures will be taken to improve transfer, resettlement, treatment, and recuperation of veterans and disabled veterans, including developing service centers (stations) for demobilized veterans and improving the services and facilities of special care hospitals, glory hospitals, and military supply stations. Other related actions include strengthening convergence of the insurance system for ex-service members, carrying forward the spirit of martyrs, enhancing the construction, management, protecting memorial facilities for martyrs, building military cemeteries, and forming model cities (counties) of mutual support between the civilians and the military.

业领域，提升安置质量。建立健全新型待遇保障体系，完善和落实优抚政策，合理提高退役军人和其他优抚对象待遇标准，做好随调配偶子女工作安排、落户和教育等工作。完善离退休军人和伤病残退役军人移交安置、收治休养制度，加强退役军人服务中心（站）建设，提升优抚医院、光荣院、军供站等建设服务水平。加强退役军人保险制度衔接。大力弘扬英烈精神，加强烈士纪念设施建设和管护，建设军人公墓。深入推动双拥模范城（县）创建。

第五十章 保障妇女未成年人和残疾人基本权益

坚持男女平等基本国策，坚持儿童优先发展，提升残疾人关爱服务水平，切实保障妇女、未成年人、残疾人等群体发展权利和机会。

第一节 促进男女平等和妇女全面发展

Chapter 50 Basic Rights and Interests of Women, Children, and People with Disabilities

Gender equality, child development, and disability care, among others, are key components of our national policy to protect the rights of disadvantaged groups, including women, children, and people with disabilities, and give them opportunities to thrive.

I. Gender equality and development of women

The Program for the Development of Chinese Women will be implemented for a continuously improved environment for women's development, in which women are able to exercise their rights, participate in economic and social development, and benefit from the development outcomes on an equal basis in accordance with the law. Women's access to health services will be ensured, in

第二节 提升未成年人关爱服务水平

深入实施儿童发展纲要，优化儿童发展环境，切实保障儿童生存权、发展权、受保护权和参与权。完善儿童健康服务体系，预防和控

particular to comprehensive prevention and treatment of cervical and breast cancers and relevant relief policies. Women will be guaranteed to have equal right to education and see an increase in their number of years of schooling as well as their overall ability and quality. Women will be guaranteed to enjoy equal economic rights and interests, be free from gender discrimination in employment, and enjoy law-based maternity leave and maternity allowance. Rural women's land rights and interests will be protected. Women will be guaranteed to enjoy equal political rights and largely participate in social affairs and democratic management. Mechanisms for assessing gender equality in laws and policies will be implemented. And the gender-specific data collection system will be improved. Efforts will be made to ensure quality care services for women left behind in rural areas, and crack down on illegal and criminal acts infringing upon the personal rights of women and girls.

II. Child development services and support

The China National Program for Child Development will be implemented for an enabling environment for children's development, ensuring children's rights to survival, development, protection, and participation. Improvements will be made to the children's health service system, so as to prevent and control children's diseases, reduce the incidence of children's death and serious birth defects, control children's obesity and myopia, and implement the nutrition improvement plan for preschool children. Measures will be taken to safeguard children's right to equal access to education and strengthen education and services for children's psychological health. Children suffering from difficulties will be under protection on a categorized basis, among whom the left behind children in rural areas will be under the care service system, and orphans and de facto unattended children under another protection mechanism. Other measures include implementing and improving the guardianship system for children, combating illegal and criminal acts that infringe on the rights and interests of children, and improving the comprehensive children protection system. With regard to the youth, the Youth

第三节 加强家庭建设

以建设文明家庭、实施科学家教、传承优良家风为重点，深入实施家家幸福安康工程。构建支持家庭发展的法律政策体系，推进家庭教育立法进程，加大反家庭暴力法实施力度，加强婚姻家庭辅导服务，预防和化解婚姻家庭矛盾纠纷。构建覆盖城乡的家庭教育指导

Development Program will be implemented to promote the all-round development of young people, and build a platform for their growth and success to release their potential in innovation and starting businesses.

III. Family support services

The Happy Family program will be implemented, focusing on building civilized families, implementing scientific tutoring, and inheriting good family traditions. A legal and policy system to support family development will be built to promote the process of family education legislation, strengthen the implementation of the Anti-Domestic Violence Law, improve marriage and family counseling services, and prevent and resolve marriage and family conflicts and disputes. Family education guidance will be provided in urban and rural areas, and the mechanism of school-family-community cooperative education will be improved. Diversified family services will be provided. The role of families, family education, and family traditions in social governance at the community level will be given full play.

IV. Support for people with disabilities

The assistance system for people with disabilities will be improved to help them participate in the system of basic medical care and basic old-age insurance, and make dynamic adjustments to the standards of living allowances for the disabled in need and nursing subsidies for the severely disabled. Employment support will be offered to the disabled, including better protecting their labor rights and interests, prioritizing vocational skills training, and supporting them to start their own businesses. Full coverage of education for school-age disabled children and adolescents will be achieved with higher education quality. With regard to rehabilitation, efforts will be made to build universities, promote the market-oriented development of rehabilitation services, raise the application rate of rehabilitation assistive devices, and improve the quality of rehabilitation services. Care services will be offered for the severely disabled. Measures will be taken to provide the disabled

第五十一章 构建基层社会治理新格局

健全党组织领导的自治、法治、德治相结合的城乡基层社会治理体系，完善基层民主协商制度，建设人人有责、人人尽责、人人享有的社会治理共同体。

第一节 夯实基层社会治理基础

健全党组织领导、村（居）委会主导、人民群众为主体的基层社会治理框架。依法厘清基层政府与基层群众性自治组织的权责边界，制定县（区）职能部门、乡镇（街道）在城乡社区治理方面的权责清单制度，实行工作事项准入制度，减轻基层特别是村级组织负担。加强基层群众性自治组织规范化建设，合理确定其功能、规模和事务范围。加强基层群众自治机制建设，完善村（居）民议事会、理事会、监督委员会等自治载体，健全

Chapter 51 Community-Level Participatory Governance

Community-level participatory governance will continue to be improved in urban and rural areas under the leadership of Party organizations with an emphasis on self-governance, rule of law, and ethical standards to facilitate public participation and community-level democratic consultation, so as to empower everyone to take ownership to contribute to the common good.

I. A framework for community-level participatory governance

The framework of community-level participatory governance will continue to be improved under the leadership of Party organizations, with village (neighborhood) committees playing the leading role and the people as the main participants. Efforts will be made to reduce the burden on the community-level, especially village-level organizations, i.e., clarifying the powers and responsibilities of local governments and community-level self-governing organizations in accordance with the law and including the clarified powers and responsibilities in urban and rural community governance in a list for functional departments of counties (districts) and townships (sub-districts) so that they can have a better idea of what they need or need not to do. The community-level self-governing organizations will be better regulated with reasonably defined functions, scale, and responsibilities. Mechanisms of community-level self-governance will be enhanced by improving the vehicles for self-governance such as village (neighborhood) people's meetings, councils, and oversight committees to better organize and provide institutional channels for village (neighborhood) people to participate in the governance.

II. Community development and services

Efforts will be made to realize the downward shift of focus of participatory governance and services and channel resources

村（居）民参与社会治理的组织形式和制度化渠道。

第二节 健全社区管理和服务机制

推动社会治理和服务重心下移、资源下沉，提高城乡社区精准化精细化服务管理能力。推进审批权限和公共服务事项向基层延伸，构建网格化管理、精细化服务、信息化支撑、开放共享的基层管理服务平台，推动就业社保、养老托育、扶残助残、医疗卫生、家政服务、物流商超、治安执法、纠纷调处、心理援助等便民服务场景有机集成和精准对接。完善城市社区居委会职能，督促业委会和物业服务企业履行职责，改进社区物业服务管理。构建专职化、专业化的城乡社区工作者队伍。

第三节 积极引导社会力量参与基层治理

发挥群团组织和社会组织在社

down to the community level to provide well-targeted and refined services for the urban and rural community development. The community level will be allowed to have approval authority and address public service items, thus giving rise to an open and information-based system providing a gridded management model and better services for everyone. The system will achieve the integration and connectivity of the service scenarios for the convenience of residents, including employment and social security, elderly care, child care, disability assistance, health care, domestic services, logistics, supermarkets, public security and law enforcement, dispute mediation, and psychological assistance. With regard to building a team of full-time, professional community workers in urban and rural areas, the functions of neighborhood committees in urban communities will be improved, and owner committees and property service enterprises will be urged to perform their duties, so as to improve community property services and management.

III. Participation of non-governmental actors in community-level governance

The role of people's organizations and social organizations, including market entities, new social strata, social workers, and volunteers in participatory governance will be given full play, through more smooth and well-regulated participatory channels. In this way, the vitality of community-level participatory governance is released across the board. Standards will be set for industry associations, chambers of commerce, public welfare organizations, and social organizations in urban and rural communities, accompanied with policy support and on-going and ex-post oversight on financial subsidies, service procurement, tax incentives, and talent protection. Support will be given to develop social work service institutions and volunteering organizations to expand the volunteer teams, build more platforms for voluntary services, and improve the voluntary service system.

会治理中的作用，畅通和规范市场主体、新社会阶层、社会工作者和志愿者等参与社会治理的途径，全面激发基层社会治理活力。培育规范化行业协会商会、公益慈善组织、城乡社区社会组织，加强财政补助、购买服务、税收优惠、人才保障等政策支持和事中事后监管。支持和发展社会工作服务机构和志愿服务组织，壮大志愿者队伍，搭建更多志愿服务平台，健全志愿服务体系。

第十五篇 统筹发展和安全 建设更高水平的平安中国

坚持总体国家安全观，实施国家安全战略，维护和塑造国家安全，统筹传统安全和非传统安全，把安全发展贯穿国家发展各领域和全过程，防范和化解影响我国现代化进程的各种风险，筑牢国家安全屏障。

Part XV An Integrated Approach to Development and Security

A holistic approach to national security calls for the integration of national security imperatives into every aspect of national development, so as to be better able to implement our national security strategy, safeguard national security, respond effectively to both traditional and non-traditional threats, and forestall any challenges to China's modernization.

第五十二章 加强国家安全体系和能力建设

Chapter 52 National Security and Capacity-building

As part of the effort to protect our national interests, strengthening national security requires a holistic look at a full spectrum of

坚持政治安全、人民安全、国家利益至上有机统一，以人民安全为宗旨，以政治安全为根本，以经济安全为基础，以军事、科技、文化、社会安全为保障，不断增强国家安全能力。完善集中统一、高效权威的国家安全领导体制，健全国家安全法治体系、战略体系、政策体系、人才体系和运行机制，完善重要领域国家安全立法、制度、政策。巩固国家安全人民防线，加强国家安全宣传教育，增强全民国家安全意识，建立健全国家安全风险研判、防控协同、防范化解机制。健全国家安全审查和监管制度，加强国家安全执法。坚定维护国家政权安全、制度安全、意识形态安全，全面加强网络安全保障体系和能力建设，切实维护新型领域安全，严密防范和严厉打击敌对势力渗透、破坏、颠覆、分裂活动。

security issues, ranging from political security, which is of overarching importance, the security of the people, which is the ultimate concern, and economic security, which underpins all other considerations, to military, scientific and technological, cultural, and social perspectives, which reinforce efforts in other areas. A centralized, unified, efficient, and authoritative leadership structure is indispensable in this connection, based on applicable laws, and supported by related strategies and policies, including those on talent development, as well as implementation mechanisms. National security legislation, systems and policies in key areas have to be strengthened. It is also important to strengthen the people's line of defense against threats to national security, raise public awareness of national security issues, and improve mechanisms for assessing national security risks, and coordinating efforts to prevent, control, forestall, and fend off these risks. National security oversight will be enhanced, so will law enforcement in related areas. Challenges to state power, our political system, and our values will be confronted resolutely. Cyber security and capacity building in this field are a top priority. Robust measures will be taken to prevent and respond to infiltration, sabotage, and subversion by hostile forces.

第五十三章 强化国家经济安全保障

强化经济安全风险预警、防控

Chapter 53 National Economic Security

Mechanisms for economic security risk early warning and prevention and control and related capacity building will be strengthened to keep under control risks to key industries,

机制和能力建设，实现重要产业、基础设施、战略资源、重大科技等关键领域安全可控，着力提升粮食、能源、金融等领域安全发展能力。

第一节 实施粮食安全战略

实施分品种保障策略，完善重要农产品供给保障体系和粮食产购储加销体系，确保口粮绝对安全、谷物基本自给、重要农副产品供应充足。毫不放松抓好粮食生产，深入实施藏粮于地、藏粮于技战略，开展种源“卡脖子”技术攻关，提高良种自主可控能力。严守耕地红线和永久基本农田控制线，稳定并增加粮食播种面积和产量，合理布局区域性农产品应急保供基地。深化农产品收储制度改革，加快培育多元市场购销主体，改革完善中央储备粮管理体制，提高粮食储备调控能力。强化粮食安全省长责任制和“菜篮子”市长负责制，实行党政同责。有效降低粮食生产、储存、运输、加工环节损耗，开展粮

including food production, energy, and financial services, as well as critical infrastructure, strategic resources, and major technology facilities.

I. Food security

The supply of agricultural products will be ensured based on crop varieties. It is essential to improve the systems to guarantee the supply of major agricultural products and to the production, purchase, storage, marketing, and sale of grain, so as to ensure absolute security of staple food, basic self-sufficiency of grain, and adequate supply of major agricultural and sideline products. Efforts will continue to develop grain production, further implement the strategy of sustainable farmland use and innovative application of agricultural technology for national food security, break through the bottleneck of technologies in superior seed sources, and keep independent production of improved varieties under control. It is of great significance to guard against the red line of 120 million hectares of farmland and the control line of permanent basic farmland, which allows for stable and increased grain acreage and yield. It is also necessary to create an appropriate layout of regional emergency supply bases for agricultural products. In order to better regulate and control grain reserves, it is needed to deepen reforms for the purchase and storage of agricultural products, step up to diversify market participants, and reform and improve the central grain reserve management system. Provincial governors should assume responsibility for food security and mayors assume responsibility for the "vegetable basket". Both Party and government leaders should take responsibilities. The grain conservation campaign will be ongoing to reduce the losses in grain production, storage, transportation, and processing. International cooperation on major agricultural products will be carried out to improve the mechanism for managing importing agricultural products, and diversify sources of import, thus creating an enabling environment for domestic large international grain merchants and agricultural conglomerate companies. The food security law will be enacted.

食节约行动。积极开展重要农产品国际合作，健全农产品进口管理机制，推动进口来源多元化，培育国际大粮商和农业企业集团。制定粮食安全保障法。

第二节 实施能源资源安全战略

坚持立足国内、补齐短板、多元保障、强化储备，完善产供储销体系，增强能源持续稳定供应和风险管控能力，实现煤炭供应安全兜底、油气核心需求依靠自保、电力供应稳定可靠。夯实国内产量基础，保持原油和天然气稳产增产，做好煤制油气战略基地规划布局和管控。扩大油气储备规模，健全政府储备和企业社会责任储备有机结合、互为补充的油气储备体系。加强煤炭储备能力建设。完善能源风险应急管控体系，加强重点城市和用户电力供应保障，强化重要能源设施、能源网络安全防护。多元拓展油气进口来源，维护战略通道和关键节点安全。培育以我为主的交

II. Energy and resource security

By focusing on domestic demand, addressing weaknesses, carrying out diversified guarantee measures, and strengthening reserves, we will improve the production, supply, storage, and marketing systems and enhance the ability of sustainable and stable energy supply and risk management and control, with the aim to ensure that basic coal supply is secure, that core oil and gas demand is met by domestic supply, and that power supply is stable and reliable. Building on domestic output, China will see a high and steady yield of crude oil and natural gas, and move ahead with the planned distribution and control of strategic coal-to-liquid and coal gas bases. Efforts will be made to expand the scale of oil and gas reserves and improve the oil and gas reserve system in which government reserves and corporate reserves for social responsibilities are combined and complementary to each other. The coal reserve capacity will be built. A system for energy emergencies management and control is needed to guarantee electric power supply for key cities and users, and better protect major energy facilities and networks. Diversified sources of importing oil and gas will secure the strategic channels and key nodes. A China-centric trading center and pricing mechanism will be established to promote home currency settlement. More support will be provided for the planning and control of strategic mineral resources to better secure reserves and put into effect a new round of strategic actions for breakthroughs in prospecting.

III. Financial security

The systems of financial risk prevention, early warning, disposal, and accountability will be established to ensure that the regulatory responsibilities and due responsibilities in places within jurisdiction are fulfilled, that we have zero tolerance towards violation of laws and rules, and that no systemic risks arise. Improvements will be made to the macro-prudential regulation system in order to keep the macro leverage ratio stable with a slight decline. Supervision of systemically significant financial institutions and financial holding companies will be enhanced, to reinforce the identification and

第三节 实施金融安全战略

健全金融风险预防、预警、处置、问责制度体系，落实监管责任和属地责任，对违法违规行为零容忍，守住不发生系统性风险的底线。完善宏观审慎管理体系，保持宏观杠杆率以稳为主、稳中有降。加强系统重要性金融机构和金融控股公司监管，强化不良资产认定和处置，防范化解影子银行风险，有序处置高风险金融机构，严厉打击非法金融活动，健全互联网金融监管长效机制。完善债务风险识别、评估预警和有效防控机制，健全债券市场违约处置机制，推动债券市场统一执法，稳妥化解地方政府隐性债务，严惩逃废债行为。完善跨境资本流动管理框架，加强监管合作，提高开放条件下风险防控和应对能力。加强人民币跨境支付系统

disposal of non-performing assets, forestall and fend off shadow banking risks, dispose high-risk financial institutions in an orderly manner, crack down on illegal financial activities, and improve the long-term regulatory mechanism of internet finance. Efforts will be made to improve the mechanisms for identification, assessment, early warning, and effective prevention and control of debt risks, improve the mechanism for handling defaults in the bond market, promote unified law enforcement in the bond market, steadily resolve the implicit debt of local governments, and severely punish debt evasion and abandonment. A sound management framework of cross-border capital flow will be established to strengthen regulatory cooperation and enhance the ability of risk prevention and control as well as response under open conditions. By strengthening the RMB cross-border payment system, it is possible to ensure the security and controllability of core information technologies in the financial sector, and safeguard the financial infrastructure security.

第五十四章 全面提高公共安全保障能力

坚持人民至上、生命至上，健全公共安全体制机制，严格落实公共安全责任和管理制度，保障人民生命安全。

第一节 提高安全生产水平

完善和落实安全生产责任制，建立公共安全隐患排查和安全预防控制体系。建立企业全员安全生产责任制度，压实企业安全生产主体责任。加强安全生产监测预警和监管监察执法，深入推进危险化学品、矿山、建筑施工、交通、消防、民爆、特种设备等重点领域安全整治，实行重大隐患治理逐级挂牌督办和整改效果评价。推进企业安全生产标准化建设，加强工业园

Chapter 54 Public Security

The institutional mechanisms for public security will be improved, building on the principle that the people and their lives are above everything else, to implement the accountability and regulation systems for public security, and secure the people's lives.

I. Workplace safety

It is needed for a sound workplace safety responsibility system to establish systems for the investigation of potential public safety hazards and for safety-oriented prevention and control. An accountability system for all-staff workplace safety in enterprises will be built, with an emphasis on ensuring enterprises to shoulder due responsibilities for workplace safety. Monitoring, early warning, supervision, and law enforcement concerning workplace safety are needed for campaigns to promote safety in key sectors such as hazardous chemicals, mines, construction, transportation, fire control, industrial explosives, and special equipment, and for the level-by-level supervision of the major hidden dangers treatment and effectiveness evaluation. Standards will be set for workplace safety in enterprises to strengthen safety management in industrial parks and other key areas. Innovative and advanced technologies and equipment will be applied in the fields such as deep mining and major disaster prevention. For example, workers doing dangerous jobs will be replaced by robots. Key areas will be under full coverage of workplace safety liability insurance.

II. Food and drug safety oversight

Efforts will be made to strengthen and improve the food and drug

stronger Chinese economy.

II. People-to-people exchanges across the Straits

We will actively promote exchanges, cooperation, and people-to-people interactions across the Straits, to boost their mutual understanding, trust, and recognition. More will be done to advance cross-Straits exchanges and cooperation in culture, education, healthcare, and other areas, promote the sharing of social security and public resources, and support equal access to inclusive and convenient basic public services in areas adjacent to each other or with comparable conditions across the Straits. People on both sides of the Straits will be encouraged to carry forward and develop the fine traditional Chinese culture through innovation. We will strengthen cross-Straits exchanges between community-level organizations and young people and encourage young people from Taiwan to pursue and fulfill their dreams in the mainland. We will unite all the Taiwan compatriots to oppose separatist activities seeking "Taiwan independence", safeguard the peaceful development of relations across the Straits and strive for the great rejuvenation of the Chinese nation.

第十九篇 加强规划实施保障

坚持党的全面领导，健全规划实施保障机制，更好履行政府职责，最大程度激发各类主体的活力和创造力，形成全面建设社会主义

Part XIX Implementation of This Plan

This Plan will be implemented under the CPC's overall leadership. Implementation mechanisms will be strengthened to ensure that the government fulfils its responsibilities, and to spur dynamism and creativity across society in our join effort to build a socialist modern country.

现代化国家的强大合力。

Chapter 63 The Overall Leadership Role of the CPC Central Committee

We will see that the CPC charts the direction, exercises overall governance, formulates policies and facilitates reform, and thoroughly study and implement Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era. We will be keenly aware of the need to maintain political integrity, think in big-picture terms, follow the leadership core, remain aligned with the central Party leadership, stay confident in the path, theory, system, and culture of socialism with Chinese characteristics, uphold General Secretary Xi Jinping's core position on the Party Central Committee and in the Party as a whole, and uphold the Party Central Committee's authority and its centralized, unified leadership. We will keep improving our capacity for political judgement, thinking, and implementation, and ensure the Party's leadership over all fields and processes of plan implementation. With these efforts we will ensure the implementation of major decisions and plans of the Party Central Committee. We will give full play to the guiding role of full and strict governance over the Party and integrate the improvement of Party and state oversight systems into plan implementation. We will improve the organizational system that links governments at all levels with effective execution and build the political competence and professionalism of leadership bodies and officials at all levels in carrying out reform, promoting development, and maintaining stability, in line with the new demands of the new era.

We will arouse the enthusiasm of all sectors to participate in plan implementation, encourage trade unions, Communist Youth League organizations, and women's federations to function well, give full play to the role of other political parties, industry and commerce federations and public figures without party affiliation, and galvanize consensus and strength of the whole society to the greatest extent. We will build a mechanism for internal driving

forces to meet the requirements of high-quality development, improve the incentive-oriented performance evaluation mechanism and the mechanism to ensure that those who have fulfilled their duties are not held accountable, and mobilize the enthusiasm, initiative, and creativity of officials, especially those at the community level.

第六十四章 健全统一规划体系

加快建立健全以国家发展规划为统领，以空间规划为基础，以专项规划、区域规划为支撑，由国家、省、市县级规划共同组成，定位准确、边界清晰、功能互补、统一衔接的国家规划体系。

第一节 强化国家发展规划的统领作用

更好发挥国家发展规划战略导向作用，强化空间规划、专项规划、区域规划对本规划实施的支撑。按照本规划确定的国土空间开发保护要求和重点任务，制定实施国家级空间规划，为重大战略任务落地提供空间保障。聚焦本规划确

Chapter 64 Unified Planning

A national planning system will be established, comprising national development planning, spatial planning, and special and regional planning. Planning is done at the national, provincial, municipal, and county levels. It sets clear goals, defines tasks to achieve those goals and the scope within which the tasks are to be implemented, and determines the way in which the tasks are mutually reinforcing and aligned with objectives outlined in national plans.

I. The central role of national development planning

We will make better use of the strategic guiding role of national development plans, and strengthen the support of spatial, special, and regional plans for the implementation of this Plan. In accordance with the requirements and key tasks for territorial space development and protection set out in this Plan, we will formulate and implement a national territorial space plan to provide territorial space support for the implementation of major strategic tasks. Focusing on the strategic priorities and main tasks specified in this Plan, we will formulate and implement several national key special plans in the fields of scientific and technological innovation, digital economy, ecology, and people's wellbeing, and draw up and refine the timetable and roadmap for the fulfillment of the development tasks. According to the strategic tasks for regional development, as specified in this Plan, we will formulate and implement a number of plans for the implementation of national-

定的战略重点和主要任务，在科技创新、数字经济、绿色生态、民生保障等领域，制定实施一批国家级重点专项规划，明确细化落实发展任务的时间表和路线图。根据本规划确定的区域发展战略任务，制定实施一批国家级区域规划实施方案。加强地方规划对本规划提出的发展战略、主要目标、重点任务、重大工程项目的贯彻落实。

第二节 加强规划衔接协调

健全目录清单、编制备案、衔接协调等规划管理制度，制定“十四五”国家级专项规划等目录清单，依托国家规划综合管理信息平台推进规划备案，将各类规划纳入统一管理。建立健全规划衔接协调机制，报请党中央、国务院批准的规划及省级发展规划报批前须与本规划进行衔接，确保国家级空间规划、专项规划、区域规划等各级各类规划与本规划在主要目标、发展方向、总体布局、重大政策、重大工程、风险防控等方面协调一致。

level regional development plans, and ensure that the development strategy, main objectives, key tasks, and major projects proposed in this Plan are well embodied in local plans.

II. Better planning coordination

We will improve the planning management systems for lists and catalogs, and record compilation and coordination. We will formulate the lists and catalogs of national special plans during the 14th Five-Year Plan period, promote the filing of plans by relying on the National Comprehensive Planning Management Information Platform, and bring all kinds of plans under unified management. We will establish a sound plan coordination mechanism. The plans to be submitted to the CPC Central Committee and the State Council and provincial development plans must be coordinated with this Plan before being submitted for approval, to ensure that the national spatial plans, special plans, regional plans, and other plans at all levels are consistent with this Plan in terms of main objectives, course of development, overall agenda, major policies, key projects, risk control, etc.

第六十五章 完善规划实施机制

加强对本规划实施的组织、协调和督导，建立健全规划实施监测评估、政策保障、考核监督机制。

第一节 落实规划实施责任

各地区、各部门要根据职责分工，制定本规划涉及本地区、本部门的主要目标任务实施方案。本规划确定的约束性指标、重大工程项目和公共服务、生态环保、安全保障等领域任务，要明确责任主体和进度要求，合理配置公共资源，引导调控社会资源，确保如期完成。本规划提出的预期性指标和产业发展、结构调整等领域任务，主要依靠发挥市场主体作用实现，各级政府要创造良好的政策环境、体制环境和法治环境。年度计划要贯彻本规划提出的发展目标和重点任务，将本规划确定的主要指标分解纳入年度计划指标体系，设置年度目标并做好年度间综合平衡，合理确定

Chapter 65 Mechanisms for Implementing This Plan

Implementation of this Plan requires organization, coordination, and oversight. Effective mechanisms are called for to monitor, evaluate, and oversee the implementation of the Plan, in addition to providing policy support.

I. Responsibilities for implementing this Plan

All regions and departments will, according to the division of functions and duties, formulate implementation plans for the main objectives and tasks involving their respective regions or departments in this Plan. For binding targets, major projects, and tasks in the fields of public services, environmental protection and security as specified in this Plan, we will clearly define the primary responsibility entities and schedule requirements, properly allocate public resources, and channel private sector resources, to ensure the tasks are completed as scheduled. The anticipatory targets and tasks in the fields of industrial development and structural adjustment as proposed in this Plan will be fulfilled primarily by giving play to the role of market entities, while governments at all levels should create an enabling policy environment with proper institutions and the rule of law in place. The annual plans should incorporate the development objectives and key tasks proposed in this Plan by breaking down the key targets set out in this Plan, and include well-balanced annual objectives as well as annual priorities.

II. Monitoring and evaluation of the implementation of the Plan

We will carry out dynamic monitoring, mid-stage evaluation, and final evaluation of plan implementation. The results of mid-stage and final evaluation will be submitted to the Standing Committee of the Political Bureau of the CPC Central Committee for deliberation in accordance with the procedures, and the plan's implementation will be reported to the Standing Committee of the National People's Congress (NPC) in accordance with the law, as part of the NPC's supervisory job. The central supervisory and audit authorities will

年度工作重点。

第二节 加强规划实施监测评估

开展规划实施情况动态监测、中期评估和总结评估，中期评估和总结评估情况按程序提请中央政治局常委会审议，并依法向全国人民代表大会常务委员会报告规划实施情况，自觉接受人大监督。发挥国家监察机关和审计机关对推进规划实施的监督作用。规划实施情况纳入各有关部门、地方领导班子和干部评价体系，作为改进政府工作的重要依据。需要对本规划进行调整时，由国务院提出调整方案，报全国人民代表大会常务委员会批准。

第三节 强化政策协同保障

坚持规划定方向、财政作保障、金融为支撑、其他政策相协调，着力构建规划与宏观政策协调联动机制。按照本规划目标任务、结合经济发展形势，合理确定宏观

play their supervisory role to promote the implementation of this Plan. The performance in plan implementation will be considered in the assessment of relevant departments, local leadership bodies, and officials, and will serve as an important measure of improvement in the work of the government. If it is necessary to adjust the plan, the State Council should prepare an adjustment plan and submit it to the Standing Committee of the NPC for approval.

III. Policy coordination and support

We will work to build a mechanism for coordination between this Plan and macro policies by following the directions set in this Plan, with the support of fiscal financial and other policies. The orientation of macro policies will be reasonably determined in accordance with the objectives and tasks specified in this Plan and in light of economic development. Public finance will be subordinate to and serve public policies, to strengthen the funding support for major national strategic tasks. The medium-term financial plans, annual budgets, and government investment plans will be better coordinated with the implementation of this Plan. The central government's funding will be preferentially channeled into the major tasks and projects proposed in this Plan. The projects should be carried out according to the plan, and the funds and factors of production should be provided for the projects. Based on the list of major projects provided in this Plan, the approval procedures for the projects in the list should be streamlined, and site selection, land supply, and funding support for these projects should be prioritized. The land demand of each major project will be addressed by the central government.

IV. Legislation for development planning

The provisions, requirements and proven experience and practices of the CPC Central Committee and the State Council on developing unified planning systems and national development planning will be crystalized in the form of law by following the principle of formulating and implementing plans according to law.

政策取向。坚持公共财政服从和服务于公共政策，增强国家重大战略任务财力保障，加强中期财政规划和年度预算、政府投资计划与本规划实施的衔接协调，中央财政性资金优先投向本规划确定的重大任务和重大工程项目。坚持项目跟着规划走、资金和要素跟着项目走，依据本规划制定重大工程项目清单，对清单内工程项目简化审批核准程序，优先保障规划选址、土地供应和资金需求，单体重大工程项目用地需求由国家统一保障。

第四节 加快发展规划立法

坚持依法制定规划、依法实施规划的原则，将党中央、国务院关于统一规划体系建设和国家发展规划的规定、要求和行之有效的经验做法以法律形式固定下来，加快出台发展规划法，强化规划编制实施的法治保障。

We will adopt the development planning law at a faster pace to strengthen the legal support for plan formulation and implementation.
